Confused By Environmental Regulations?

The Small Business Environmental Assistance Program (SBEAP) is here to help!

Contact us:

800.252.3998

dceo.sbeap@illinois.gov

The Small Business Environmental Assistance Program is a non-regulatory program which provides free, confidential assistance to Illinois Small Businesses to help them succeed!

Some of the program services include:

- FREE and CONFIDENTIAL answers to your regulatory questions on the toll-free helpline 800/252-3998.
- Help in understanding how state and federal environmental regulations apply to your business
- Fact sheets summarizing various environmental rules
- Environmental recordkeeping tools
- Permit assistance for Clean Air Act requirements
- Assistance with the Registration of Smaller Sources (ROSS) program
- Assistance with the National Emissions Standards for Hazardous Air Pollutants impacting small businesses
- Information regarding emission calculations
- Free Clean Air Clips e-newsletter for regulatory updates

If you bake, coat, dry clean, electroplate, fabricate, cremate, work with concrete, process grain, mill, renovate, demolish, pave, finish, manufacture, paint, repair cars, service refrigerators/air conditioners, woodwork, have stationary engines or generators, you are likely to be affected by environmental compliance requirements.
