Note: In December, 2015 IDOC initiated a major IT transition, moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional measures will contain missing values due to a combination of factors, which include quality control issues with data entry and missing data for fields that are no longer required within the system. In addition, basic coding and program logic is still being reviewed and corrected. Moving forward, the Department continues to validate certain data measures and all elements are subject to change as more information becomes available. Contact the Planning & Research Unit with any questions.

Note: In December 2015 IDOC initiated a major IT transition moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional population counts and other measures were not collected or needed validation. Therefore, the OERHP105 Resident Housing Report from December 2015 to current is still under the validation process; data counts are estimates and subject to change. Conceptually, the model is designed around the movement of individuals through the prison system. The data reflect Fiscal Year 2018 experience. The underlying assumptions are:

1. Admissions are trending down but slowing in recent years
2. IDOC implementation of risk assessments to identify needs and target programs to reduce recidivism
3. High potential for legislative changes designed to shorten length of stay for certain offenses
4. Initial truth-in-sentencing offenders will begin to be released
5. Opening of Kewanee Life Skills Reentry Center for enhanced reintegration by offense class.

Note: On January 1, 2019, statutory changes were made to 730ILCS 5/3-5-3.1, and 730ILCS 5/3-2-12. Both statutes require the reporting of variables the Department has not historically collected. The implementation and collection of these variables will begin when computer programming of the variables is complete. Shaded fields throughout these tables represent variables that have not yet been collected or programmed. These variables will be populated on future Quarterly Reports.

Note: December 2018 is not reported on this table because the new requirements were not implemented until January 1, 2019.

Note: Logan Life Skills Reentry Center (LSRC) is being reported under it's parent facility.

Note: Work camps, IIP's, and R&C's are combined with their parent facilities.

Note: An 'evidence based' program is a program that follows the practical application of the findings of the best available current research. The 'evidence based' data on these tables only represents a small fraction of the programs and classes offered to offenders, as the majority of the programming offered to offenders is not considered 'evidence based'.

[1]Program Completer is an offender who completes or demonstrates mastery of the coursework or program or has completed a full contract.

[2]Substance Abuse programming is considered evidence based if it utilizes the Hazelden curriculum, 'A New Direction' or the programming taught is at Sheridan Correctional Center (SHE) or Southwestern Illinois Correctional Center (SWICC). A completer at SHE or SWICC is a offender that fully completed a contract. Data Source: IDOC facilities

[3]Sex Offender treatment follows the Illinois Administrative Code and the standards come from the Association for Treatment of Sexual Abusers. Big Muddy Correctional Center is the only IDOC facility to offer evidence based sex offender treatment.
