Re: Alteration Request # 16-053

Dear Ms. Avery:

The HSHS St. John's Hospital Women's and Children's Building was originally submitted and approved with a size of 87,154 GSF. As the project has developed and the floor plans firmed up with the layout of department-specific rooms and actual final corridor locations, the size of the Medical Office Building has decreased slightly. The building square-footage is currently at 86,786 GSF. This slight decrease is a result of minor changes to accommodate actual construction conditions.

The cost of the construction for the project will not change. Furthermore the sources of funding for this project have not changed and remain as were originally submitted and approved.

Enclosed is a check for the $1,000 alteration fee.

Very truly yours,

Clare Connor Ranalli/jp
