## **Governor Quinn Announces More Than \$270 Million in Capital Funds for School Districts Statewide**

*Funding Includes More Than \$17 Million for Updates and  
Expansions at Peoria Schools; More Than \$10 Million for Ottawa*

PEORIA – October 20, 2010. Governor Pat Quinn today announced that 18 Illinois school districts statewide will receive a total of more than \$270 million from *Illinois Jobs Now!* to construct new buildings or expand existing ones. This capital funding will provide vital classroom space while creating approximately 3,700 construction jobs statewide. Schools in Peoria will receive more than \$17 million, while Ottawa schools will get more than \$10 million.

“This capital funding will help school districts in Peoria and Ottawa and across the state update their facilities and make critical repairs,” said Governor Quinn. “We must invest in schools that will allow Illinois’ students to thrive and create a better future for our state.”

The Peoria School District 150 will receive more than \$17 million to build an addition to the Lincoln Middle School. The grant will also fund the renovation of antiquated sections of the Peoria High School. The Ottawa Elementary School District 141 will also receive more than \$10 million to replace Central School, which was condemned due to flooding.

The 18 districts statewide were approved for fiscal year 2010 funding after their projects were certified by the Illinois State Board of Education (ISBE) and the Illinois Capital Development Board (CDB).

The funding will allow districts to build new schools and classroom additions. Other improvements will include renovations to existing classrooms and upgrades to aging facilities. The grants will also allow several districts to recover from damage resulting from natural disasters, including flooding. The capital funding, combined with local dollars, will allow school districts to start projects totaling more than \$527.7 million.

“By building better schools and making long overdue repairs to existing schools, we are building a better future for our children,” said Rep. Frank Mautino (D-Spring Valley). “I would like to thank Governor Quinn for bringing this funding to the Ottawa Elementary School District, so that our students can learn in a new building – free from flood damage.”

“These capital funds will improve the educational environment at school districts across Illinois, while creating badly-needed construction jobs and training our future workers while helping our current ones.” said CDB Executive Director Jim Riemer.

# NEWS

“This funding will provide much-needed improvements, which the local districts would not otherwise be able to afford,” said State Superintendent of Education Christopher A. Koch.” Most of these districts have waited years for the funds, and hopefully now they’ll be able to get these projects underway and have students learning in new schools soon.”

Before the passage of Governor Quinn's *Illinois Jobs Now!* capital construction program, Illinois had not had a major capital construction program in more than a decade.
