Regarding -- Opposition to proposed micro hospital in Crystal Lake, Illinois: Project # 17-002

Dear Ms. Olson,

I have lived in Crystal Lake for more than 30 years. I know my community very well, and I see no need for this project.

This micro hospital will only have some select services. This proposed hospital will only be able to care for simple medical problems and will not be appropriate for most acutely ill or complex patients.

I see no reason to spend this much money on a new hospital with such a narrow scope when traveling just another ten minutes will provide access to a hospital with a full range of services.

Thank you for the opportunity to express my OPPOSITION to the proposed hospital in Crystal Lake.

Sincerely,

Linda J Fisher
