Note: In December, 2015 IDOC initiated a major IT transition, moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional measures will contain missing values due to a combination of factors, which include quality control issues with data entry and missing data for fields that are no longer required within the system. In addition, basic coding and program logic is still being reviewed and corrected. Moving forward, the Department continues to validate certain data measures and all elements are subject to change as more information becomes available. Contact the Planning & Research Unit with any questions.

Note: In December 2015 IDOC initiated a major IT transition moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional population counts and other measures were not collected or needed validation. Therefore, the OERHP105 Resident Housing Report from December 2015 to current is still under the validation process; data counts are estimates and subject to change. Conceptually, the model is designed around the movement of individuals through the prison system. The data reflect Fiscal Year 2018 experience. The underlying assumptions are:

1. Admissions are trending down but slowing in recent years
2. IDOC implementation of risk assessments to identify needs and target programs to reduce recidivism
3. High potential for legislative changes designed to shorten length of stay for certain offenses
4. Initial truth-in-sentencing offenders will begin to be released
5. Opening of Kewanee Life Skills Reentry Center for enhanced reintegration by offense class.
