Illinois Department of Financial and Professional Regulation Announces fifth “Secondary Site” License for Adult Use Cannabis

CHICAGO – The Illinois Department of Financial and Professional Regulation has announced it has awarded the fifth “Secondary Site” adult use cannabis license.

This license will permit an existing medical cannabis dispensary to begin adult use cannabis sales at a second location, provided the dispensary complies with local zoning rules or other local laws. Five secondary site licenses have now been awarded, in addition to 49 “Same Site” licenses that permit medical cannabis dispensaries to sell adult use cannabis in their premises. The list of dispensaries approved for adult use cannabis sales can be found [here](#).

The medical dispensary that received an early approval adult use license this week is:

Nature’s Treatment
735 W. Main St.
Galesburg, IL 61401

The Department anticipates receiving additional applications for early approval adult use licenses as municipalities adopt relevant zoning ordinances regarding adult use cannabis.

The Cannabis Regulation and Tax Act permits Illinois residents who are at least 21 years old to legally possess up to 30 grams of cannabis flower, 500 milligrams of THC contained in a cannabis-infused product, and up to 5 grams of cannabis concentrate.
