### **Region 11 Moves to Phase 4**

**SPRINGFIELD** – The Illinois Department of Public Health (IDPH) today announced Region 11, the city of Chicago, is moving to [Phase 4](#) of the Restore Illinois Plan effective today. Additional information about which tier and phase regions are in can be found at the top of the [IDPH website](#) homepage.

[A Phase 4 Guidelines Overview](#) can be found on the Illinois Department of Commerce and Economic Opportunity website. Additional guidelines, specific to the city of Chicago will be posted on the city's [website](#).

Phase 4 Guidelines include the following:

#### **RESTAURANTS AND BARS**

- Indoor dining and drinking now permitted for parties of up to 10 people
- Seated areas should be arranged so that tables allow for 6 feet between parties; impermeable barriers may be installed between booths which are less than 6 feet apart

#### **RETAIL AND SERVICE COUNTER**

- Continue capacity limit of no more than 50% occupancy

#### **PERSONAL CARE**

- Continue capacity limit of no more than 50% occupancy

#### **INDOOR/OUTDOOR RECREATION**

- Reopening select indoor recreation facilities (e.g., bowling alleys, skating rinks); indoor playgrounds and trampoline parks should remain closed
- Indoor recreation to operate at lesser of 50 customers or 50% of facility capacity

#### **MUSEUMS**

- Capacity limit of no more than 25% occupancy
- Guided tours should be limited to 50 or fewer people per group

#### **MEETINGS AND SOCIAL EVENTS**

- Limit to the lesser of 50 people or 50% of room capacity
- Multiple groups may meet in the same facility if they are socially distanced and in separate rooms

IDPH will continue to closely monitor test positivity, ICU bed availability, and the number of people in the hospital with COVID-19. Should data show regions trending in the wrong direction, based on the established mitigation metrics, regions could once again find themselves in a higher tier with increased measures.

Metrics for moving from a higher to lower tier are as follows:

**Moving from Tier 3 to Tier 2**

- Test positivity rate  $\geq 8\%$  and below 12% for three consecutive days (7-day average); AND
- Staffed ICU bed availability  $\geq 20\%$  for three consecutive days (7-day average); AND
- Sustained decline in COVID patients in hospital (7-day average for 7 of 10 days)

**Moving from Tier 2 to Tier 1**

- Test positivity rate between 6.5% and 8% for three consecutive days (7-day average); AND
- Staffed ICU bed availability  $\geq 20\%$  for three consecutive days (7-day average); AND
- No sustained increase in COVID patients in hospital (7-day average for 7 of 10 days)

**Moving from Tier 1 to Phase 4**

- Test positivity rate  $\leq 6.5\%$  for three consecutive days (7-day average); AND
- Staffed ICU bed availability  $\geq 20\%$  for three consecutive days (7-day average); AND
- No sustained increase in COVID patients in hospital (7-day average for 7 of 10 days)

Information about mitigation and resurgence metrics can be found on the [IDPH website](http://www.dph.illinois.gov/regionmetrics) at <http://www.dph.illinois.gov/regionmetrics>.
