* Preliminary | ** Revised

SPRINGFIELD – Over-the-year, total nonfarm jobs increased in ten metropolitan areas and decreased in four for the year ending April 2024, according to data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (DES). Over-the-year, the unemployment rate increased in thirteen metropolitan areas, and decreased in one.

“Continued job growth across metro areas and industry sectors position both jobseekers and employers to tap into newly created and expanded opportunities to begin or further career growth, **said Deputy Governor Andy Manar**. “IDES is proud to collaborate with its workforce partners to provide critical employment and reemployment services, including matching workers with hiring employers across the state.”

The metro areas which had the largest over-the-year percentage increases in total nonfarm jobs were the Champaign-Urbana MSA (+2.4%, +3,000) and the Elgin Metro (+2.1%, +5,600). In the Chicago Metro, total nonfarm jobs were up +0.2% or +7,600. The metro areas which had the largest over-the-year decreases in total nonfarm jobs

were the Springfield MSA (-2.8%, -3,100), and the Davenport-Moline-Rock Island IA-IL MSA (-1.1%, -2,100). Industries that saw job growth in a majority of metro areas included: Government (fourteen areas); Private Education and Health Services (eleven areas); Wholesale Trade (ten areas); and Manufacturing, Leisure and Hospitality, and Other Services (eight areas each).

The metro areas with the largest unemployment rate increases were the Chicago Metro (+0.9 point to 4.3%), the Elgin Metro (+0.6 point to 5.2%), the Bloomington MSA (+0.5 point to 3.8%), and the Springfield MSA (+0.5 point to 4.1%). The unemployment rate decreased in the Rockford MSA (-0.4 point to 5.9%).

Note: Monthly 2023 unemployment rates and total nonfarm jobs for Illinois metro areas were revised in February and March 2024, as required by the U.S. BLS. Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

Disclaimer: The data contained in the metro area employment numbers press releases are not seasonally adjusted, and therefore are subject to seasonal fluctuations due to factors such as changes in weather, harvests, major holidays and school schedules. Current monthly metro data should be compared to the same month from prior years (January 2024 data compared to January 2023 data) as data for these months have similar seasonal patterns. Comparisons should not be made to data for the immediate previous month or other previous non-matching months, as any changes in the data within these time periods may be the result of seasonal fluctuations and not economic factors.
