101: General Authority and Mission

A. The Illinois Long-Term Care Ombudsman Program (Program) is authorized by and in accord with the section 712 of the Older Americans Act, and the Illinois Act on the Aging, [20 ILCS 105/4.04].

B. The Program protects and improves the quality of care and quality of life for residents of long-term care facilities in Illinois through individual and systemic advocacy for and on behalf of residents, including representing the interests of residents before governmental agencies, reviewing and commenting on existing and proposed laws, seeking out and responding to media requests, the promotion and cultivation of best practices within long-term care services, and through the promotion of family and community involvement in long-term care facilities.

C. The Program was expanded and given authority in 2013 to provide advocacy services to participants of Home and Community-Based Services waiver programs administered by the State, and managed care organizations providing care coordination and other services to seniors and persons with disabilities.

D. The Program is a resident and participant centered advocacy program. The resident or participant is the program’s client, regardless of the source of the complaint or request for service. The Ombudsman will make every reasonable effort to assist, empower, represent, and advocate on behalf of the resident or participant.

E. The service components of the Program include identifying, investigating, and resolving complaints; regular presence in long-term care facilities; consultation and community education; issue advocacy; and supporting the development of resident and family councils.

F. Processing complaints made by or on behalf of residents or participants and resolving the problems and questions of residents or participants are the highest priority service of the Program. Principles and techniques of empowerment are to be used whenever possible when addressing resident or participant complaints and problems.

G. These policies and procedures govern the operations of the Program and establish the relationship and responsibilities of Provider Agencies, Area Agencies on Aging, and the Illinois Department on Aging, in relation to the Program.
