

2021 Lunch and Learn Webinar Presentation Calendar

**Session Time: 12:00 p.m. – 1:00 p.m.
(unless otherwise noted)**

May 12, 2021 (12:00pm-1:00pm CST) – DTI Low-Voltage Contractor & Hubbell Premise Wiring
Presentation Synopsis: Introducing DTI a Low-voltage Contractor & Hubbell Premise Wiring

- Introduction to DTI (Diverse Technologies, Inc.)
- DTI's experience in higher learning projects, and the product we installed successfully
- Introduction to Hubbell Premise Wiring, and their products for future construction projects.

May 27, 2021 – (12:00pm-1:30pm CST) – Ludowici Roof Tile

Presentation Synopsis: The Fundamentals of Clay Roof Tile

- This course will provide insight and inspiration for all who attend. We'll explore the history of tile, the benefits of using terra cotta roof tiles on commercial and residential projects using real-world, current, and historic applications. We'll walk through the manufacturing process and speak to clay's green properties and differentiating qualities, compared to other roofing materials. We'll preview the various tile profiles available, accessories, colors and textures that can be used to design and architect a uniquely beautiful building or home.

To register for any Presentation or for any questions, email Trevor Parnell at trevor.parnell@illinois.gov.

Please include your first and last name and the name of your company.

Trevor will then send you the link to the webinar.
