Agency Name
Street Address
City, IL Zip Code

Dear (Agency Director)

Enclosed please find a copy of the 2015 State African American Employment Plan, which the Department of Central Management Services is required to prepare and submit to the General Assembly, reporting each agency’s activities in implementing the plan. The legislation is part of the Governor’s commitment to diversity in our workforce, including recruitment, hiring, training, retention and promotion of African American employees.

Outlined in the body of this report you will find information on the status of the African American workforce of individual agencies, as well as their accomplishments in meeting the objectives of this important legislation.

Of course, there are many benefits of having a diverse workforce, but perhaps the most significant is to enable State agencies to provide better services more efficiently to the public. Therefore, I strongly encourage your agency to continue to build upon your Affirmative Action and Equal Employment Opportunity goals by placing emphasis on recruitment, hiring, training, retention and promotion of African Americans. As this report shows, much progress has been made during Governor Quinn’s administration, and we look forward to witnessing continued efforts to increase the diversity of the state workforce.

Please share the Plan with your senior management staff, including your HR Director, AA/EEO Officer and Recruitment Manager. The Plan may also be accessed electronically at the CMS Diversity Enrichment Program web page at http://www.work.illinois.gov/diversityenglish.htm.

By working together on this initiative, we can achieve the objectives outlined in the African American Employment Plan and better serve the citizenry of our great state. If you have any questions or need additional information, please don't hesitate to contact Carlos R. Charneco at 312/814-0922 or Carlos.Charneco@illinois.gov.

Sincerely,

Simone McNeil
Acting Director

What recommendations were provided by AAEP Advisory Council, DHR, CMS or the Auditor General regarding recruitment of African Americans and were any implemented by the agency:

At this time no recommendations were provided to DCEO by the AAEP Advisory Council or the Auditor General regarding recruitment of highly qualified African-Americans. However, DHR and CMS have worked together to implement and schedule a number of informative employment workshops throughout State of Illinois which increased the opportunity for applicants to better understand the state hiring process, meet recruiters and obtain state jobs. As a forethought DCEO would like to recommend the following: Both the AAEP, DHR and CMS work together to develop an electronic on-line training session for hiring authorities and HR personnel focusing on the history and importance of "EEO Compliance Law (under the Human Rights Act and Title VI and VII of the Civil Rights Acts). Both laws are positive mandates to promote the goal of an Inclusive Workforce; Also "Diversity" training should be mandatory within all state agencies, especially for hiring authorities and HR personnel, of which the current majority of staff are composed of non-minorities. One recommendation requested by DCEO and implemented during FY14 dealt with Rutan training being made available in the Chicago area, not just in Springfield, Illinois. In future, we hope the State of Illinois will consider increasing the number of highly qualified minorities as Human Resource Managers.

Provide results of your agency’s studies and monitoring success concerning the number of African American persons employed by your agency in the EEOC categories: Include specific position titles that were filled externally.

While HFS’ EEO/AA Office monitors the hiring process to ensure mandated compliance, overwhelmingly, positions are filled within constraints beyond the control of our monitoring. The success of our internal monitoring with respect to employment of African Americans is directly proportionate to the limited opportunities to make decisions independent of factors such as bargaining unit considerations or veteran’s preference. Specifically, the titles most frequently called for and filled within HFS are subject to bargaining unit provisions. We are most assuredly open to methods to increase targeted hiring/recruitment.

Were there any increases or decreases in the number of African Americans within any of the EEO occupational categories from the prior fiscal year? If so, please provide specific details.

Officials/Administrators decreased from 9.1% to 9% of the total category from the prior year.
Professionals increased from 18.4% to 18.5% of the total category from the prior year.
Technicians decreased from 8.1% to 7.5% of the total category from the prior year. Para-Professionals decreased from 33.2% to 29.6% of the total category from the prior year.
Office/Clerical decreased from 10% to 8% of the total category from the prior year.

The EEO/AA Office monitors documentation pertinent to employment throughout the selection and recruitment process to ensure compliance with legislative mandates. While no specific training has been provided to Recruitment and EEO staff regarding targeted recruitment of African Americans, the EEO Office, Recruitment Office and the Personnel Office has placed an emphasis on targeting/reaching out to organizations whose memberships and makeup are from the underrepresented groups including African Americans in an effort to increase the pool of potential candidates for vacancies within those groups.

FY13 total African American underutilization = 22  
FY14 total African American underutilization = 26  
FY15 total African American underutilization = 22  

Underutilization in the majority of the EEO categories evidenced slight increases and decreases this year. IDHS’ Bureau of Civil Affairs does not currently track titles only EEO categorical data. Underutilization Summary:

- Officials/Managers - decreased by 4 and brought to parity
- Professionals - continues to be at parity
- Technicians - continues to be at parity
- Protective Services - increased by 1
- Para-Professionals - decreased by 3
- Office/Clerical - increased by 3
- Skilled Craft - DHS no longer uses titles in this category
- Service Maintenance - decreased by 1

Were there any increases or decreases in the number of African Americans within any of the EEO occupational categories from the prior fiscal year? If so, please provide specific details.

FY13 total African American underutilization = 22  
FY14 total African American underutilization = 26  
FY15 total African American underutilization = 22  

Most of the EEO categories evidenced slight increases and decreases in the underutilization from last year. The only explanation we have is that the population data shows an increase of persons in this affirmative action group in the areas where there are Colleges and Universities and this is where the underutilization increases were found. The Department of Human Rights (DHR) issued new rules that change the DHR regions from 11 to 10, and all new regions will have different counties than they had previously. This change will take effect July 1, 2015 (FY16). The purpose of the change in regions is to better reflect commuting patterns for work and labor force availability purposes and to be consistent with the economic regions used by the Department of Commerce and Economic Opportunity.

Prior to posting a position, we discuss our intentions with the staff of the Diversity Enrichment Program. They have been very effective in helping us to disseminate information about our vacancies to various professional organizations with African-American membership. We post all vacancies on the ICC and Work Illinois websites. Additionally, we have received assistance from
Illinois Association of Minorities in Government and Rep. LaShawn K. Ford’s job bulletin. In years where there are more vacancies, we attend minority career fairs at various universities. In years with few vacancies, we still volunteer to work with minority students at mock interviews and resume reviews to maintain positive relationships with career services offices. The ICC participated in an internship program for high school students with Chicago Public Schools this year for the first time. We have recently implemented an initiative to seat at least one minority participant on every interview panel we convene. Until more of our staff have an opportunity to be certified, panels will have at least one minority adviser or consultant.

If random selection of candidates was part of the open competitive interview invitation process describe your agency’s method of random selection.

• HR Calls for Eligibility List  • There are no names on this list. Each candidate on the list is identified by a number, e.g. 1,2,3,4.  • HR designates the total number of candidates it wishes to interview. For the sake of this example, we will call them interviewees.  • HR has a database it uses as a lottery  • HR enters the total number of candidates from the eligibility list and the desired number of interviewees into the database.  • The database randomly selects the interviewees. For example, if the total number of candidates on the eligibility list equaled 300 and HR wanted to interview 10, the database would randomly choose 10 numbers between 1 and 300. For example, 5,10,15,20,25,30,35,40,45,50.  • HR would send that list of numbers to CMS and ask for the list of names corresponding to the selected numbers on the list.  • CMS would then send HR the names corresponding to the 10 numbers submitted. All 10 individuals on that list must be invited to interview.

The Illinois Department of Human Rights recommended the ISP work with the Illinois Central Management Services (CMS) Diversity Coordinator to continue the training program to enhance the ISP’s ability to address its affirmative action needs regarding minimum compliance criteria of females, minorities and disabled employees. The AAEP recommended developing a mechanism for measuring the success of our recruitment, utilizing social media and expanding our recruiting efforts to the central and southern region of the state. The Recruitment Section uses sign-in sheets for applicants to complete at events. The sheets document the race and gender of candidates, so that we can use that information to determine which events attract a higher minority population. The Recruitment Section also has increased its use of social media through Facebook, Twitter and posting a recruitment video on YouTube. The Recruitment Section has attended 113 events so far in 2014, around the state. We have a full-time recruiter located in the central region and one in the Metro-East area, and both are committed to attracting
adverse pool of candidates from across the state.

RECOMMENDATIONS/COMMENTS

*The agency did not meet the minimum compliance criteria for females due to the fact that there are few females in the applicant pool. Furthermore, when reviewing the female and male hiring data both are hired at a comparable rate. The agency continues to make a good faith effort by recruiting females and minorities by participating in job fairs and contact with professional organizations.

RECOMMENDATIONS/COMMENTS

This agency used the Successful Disability Opportunities program many times throughout the year and is commended for its hiring of people with disabilities. Although the agency’s performance in regards to hiring women was only 21%, and its performance in regards to hiring minorities was only 6%, the agency conducted substantial outreach to attract minorities and women, and in most cases the availability of qualified individuals for the specialized vacancies that this agency has is low. For these reasons, the Department finds that agency made a good faith effort in addressing its affirmative action goals and is given an exception for failing to meet DHR’s minimum compliance criteria.
