In addition to posting on the CMS system, all job vacancies are posted to various deaf and disability organizations. Unfortunately, this requirement substantially limits the number of qualified applicants available when filling vacancies.

Due to the agency's limited headcount and the population it serves, it currently does not have a need for an Asian language-speaking bilingual position.

What steps has your agency undertaken to ensure that all administrative staff responsible for hiring, interviewing, recruitment and EEO are complying with all legislative mandates of the Asian American Employment Plan?

The EEO/AA Office actively monitors all employment documents and reports within the Bureau of Selection & Recruitment as well as the Division of Personnel staff, ensuring compliance with mandated guidelines. The Division of Personnel and EEO/AA staff cooperatively responds to inquiries relative to targeted recruitment and has begun new initiatives to increase minority representation within HFS.

Does your agency have a designated Asian American liaison who works with the Asian American community to recruit staff and promote agency services?

No

If so, please provide the name(s):

NA

Is this person on the Executive or Human Resource Staff?

No

Please describe the duties and activities the liaison has performed in relation to recruitment, staffing recommendations, agency policy making and their involvement in the Asian community.

List all agency activities undertaken in implementing the State Asian American Employment Plan including recruitment/employment, internships, and community linkages:

The EEO/AA Office actively monitors compliance of all hiring and promotion activities (not limited to reviews of employment documents and reports generated by the Bureau of Selection & Recruitment). Along with the Division of Personnel, HFS has begun initiatives including participation in a graduate internship program and the formalization of a mentoring program to foster upward mobility for Asians. We have also established a database of statewide Asian organizations to disseminate employment/recruitment information when opportunities arise.

How does your agency assess bilingual skills when filling positions as bilingual option? (Example: structured oral interview, written test)

We utilize a written test in conjunction with a structured oral interview.

How does your agency determine your need for Asian language-speaking bilingual staff?

We would base a determination of need on geographic need from direct feedback from the community requiring service. The numbers are driven by factors such as the frequency with which Asian language individuals come in contact with the program and the number or proportion of Asian language individuals eligible to be served or likely to be encountered by the program.

List employment strategies used in FY 13 to increase the number of available bilingual/Asian American employees to service the needs of your Asian language-speaking public:
In FY 13, there were no specific employment strategies utilized to increase the number of available bilingual Asian American employees to service the needs of our Asian language-speaking public.

Describe your processes for communicating with Asian American clients who are limited English speakers who call for services and advocacy at your agency in addition to walk-ins:

HFS is required to take reasonable steps to ensure meaningful access to our programs and activities by LEP persons. We utilize competent bilingual staff to interpret between English speakers and the LEP persons, or to orally interpret written documents from English into another language. If a bilingual worker is unavailable, then HFS utilizes telephone interpreter service lines. HFS also translates vital written materials into the language of each frequently-encountered LEP group eligible to be served and/or likely to be affected by the HFS service provider’s program.

List promotional programs that provide Asian American employees with career ladder enhancement, self-development training or otherwise enhance your agency’s ability to meet the needs of your Asian American non English-speaking public and your Asian American employees:

HFS is in the process of developing a mentoring program to help increase upward mobility for all under-represented classes (including Asian Americans). We have also entered into an agreement with a local university graduate internship program which will enhance our ability to increase minority management. HFS offers a varied array of self-development training and have a tuition reimbursement program.

How has your agency ensured that all appropriate staff are complying with the mandatory Hiring and Promotion Monitor requirements:

The EEO/AA Office reviews all Hiring and Promotion monitors for compliance in accordance with IDHR regulations relative to this matter. There is an open ongoing dialogue between the Division of Personnel; the Bureau of Selection & Recruitment and the EEO/AA Office. All appropriate hiring staff is provided with quarterly updates regarding underutilization information and the three entities (Personnel, Selection & Recruitment and EEO) work interactively to ensure the integrity of the process.

Recommendations provided by Asian American Employment Advisory Council, DHR, CMS or the Auditor General:

None
Does your Agency have an Asian American Advisory Committee?

No

If the agency has Asian American Advisory Committee what recommendations have they made to your agency?

NA

If no Asian American Advisory Committee exists, how does your agency assess the staffing needs to serve the Asian American community?

Staffing needs are determined by the geographic community being serviced. Input from that respective community is the best determinant as to what is needed to appropriately service that community.

Provide results of your agency’s studies and monitoring success concerning the number of Asian Americans and Asian language-speaking bilingual persons employed by your agency in the EEOC categories:

While there exists underutilization of Asians, opportunities to address underutilization continue to be extremely rare within HFS. Targeted networking may be the appropriate approach to reach the desired community.

Were there any increases or decreases in those levels from the prior year? If so, please provide specific details (Note: Please explain reasons for any decreases).

The overall numbers of Asians in the HFS workforce increased from 59 (2.8%) in FY 12 to 65 (3.1%) in FY 13. There was an increase of .7% in Officials/Administrators; 1% increase of Professionals; a 1.3% increase of Technicians and a .6% increase of Office/Clericals.

Please provide your plan to increase the number of Asian Americans and Asian American languages-speaking bilingual staff employed by your agency for FY 14.

We are also looking into networking with community organizations who service the Asian population for more diverse recruiting methods in an attempt to include more Asians as candidates for potential vacancies. We are also exploring a minority mentorship program which may assist in the upward mobility of current Asian employees.

FY12 total Asian underutilization = 25  FY13 total Asian underutilization = 43  FY14 total Asian underutilization = 138  Most of the EEO categories evidenced slight increases in the underutilization from last year. What steps has your agency undertaken to ensure that all administrative staff responsible for hiring, interviewing, recruitment and EEO are complying with all legislative mandates of the Asian American Employment Plan?

Our Agency is constantly monitoring for underutilization in accordance with Affirmative Action Reporting. Each Quarter, our EEO/AA Officer reviews the Agency to ensure parity in these areas. The past fiscal year, we did not experience any underutilization. If this occurs, we will have to set up a senior staff meeting to implement a strategy to address the issue.

How does your agency assess bilingual skills when filling positions as bilingual option? (Example: structured oral interview, written test)

Our Agency uses a written exam that is to translate a topic from English to specified language and vice versa.

How does your agency determine your need for Asian language-speaking bilingual staff?

Our Agency has a proprietary tracking mechanism that is available for all bilingual staff. They are to enter the data for the appropriate language as needed and our CIO collects the data and distributes to senior staff to determine if we have enough coverage for the specified languages.

List employment strategies used in FY 13 to increase the number of available bilingual/Asian American employees to service the needs of your Asian language-speaking public:

Our Agency does not receive a high volume of Asian American clients seeking services which could be for various reasons. We are actively looking to add a bilingual position to allow us to cater to this community, which we feel is larger than we are getting at the current time due to our...
lack of marketablity in the specified community.

Describe your processes for communicating with Asian American clients who are limited English speakers who call for services and advocacy at your agency in addition to walk-ins:

The only bilingual options we have in our Agency at this time are Spanish and Polish. We do treat any clients that come to our Agency calling for services informally and make note of the translation for future study.

How has your agency ensured that all appropriate staff are complying with the mandatory Hiring and Promotion Monitor requirements:

Our Agency Human Resources Director is also the EEO/AA Officer and ensures that for each hire, a monitor for hiring and promotion is filled out accordingly and submitted as part of the new hire process.

Does your Agency have an Asian American Advisory Committee?

No

If the agency has Asian American Advisory Committee what recommendations have they made to your agency?

N/A

If no Asian American Advisory Committee exists, how does your agency assess the staffing needs to serve the Asian American community?

The data entered into our proprietary LEP tracking program allows us to study and create a need, when necessary, depending upon the volume of the language needing to be addressed.

Provide results of your agency’s studies and monitoring success concerning the number of Asian Americans and Asian language-speaking bilingual persons employed by your agency in the EEOC categories:

Our Agency is looking to create a position to address the need for the Asian American community. We currently handle our clients informally and have nobody to provide paid bilingual services to the community internally. This results in a community likely not coming to us for our services due to our lack of support and translation capabilities.

Were there any increases or decreases in those levels from the prior year? If so, please provide specific details (Note: Please explain reasons for any decreases).

Our LEP was implemented for 2013, so there is no sample size to compare. However, it seems as the volume of clients has increased, naturally the needs for various languages will also increase.

Please provide your plan to increase the number of Asian Americans and Asian American languages-speaking bilingual staff employed by your agency for FY 14.

Our Agency is looking to add an Asian American bilingual paid option to a current position we have at our Agency to allow current and future staff opportunity to move and grow in these positions as well as to allow our clients to have a larger base of bilingual staff to get assistance from.

What steps has your agency undertaken to ensure that all administrative staff responsible for hiring, interviewing, recruitment and EEO are complying with all legislative mandates of the Asian American Employment Plan?

All hiring staff have been made aware of the importance of diversifying IDOT’s Rutan interview panels. Continuing the partnership with the Illinois Tollway, for the first Diversity Symposium. The purpose is to reach out to diverse community organizations that are advocates for underutilized persons seeking employment. These organizations participated in a discussion with IDOT and the Tollway to determine the best way to connect with the clients they serve and to understand actual or perceived barriers to employment. This group will collaborate with IDOT and the Tollway on ways to address those barriers. IDOT’s multi-year Strategic Plan indicates a high priority will be given to the recruitment of qualified, diverse employees. The Diversity Recruitment and Outreach Office was created to implement various methods in recruiting individuals from under-represented groups using various mechanisms. Although several job classifications will be recruited, special emphasis will be placed on increasing the diversity in the Civil Engineer Trainee, Engineer Technician, and Highway Maintainer applicant pools.

List all agency activities undertaken in implementing the State Asian American Employment Plan including recruitment/employment, internships, and community linkages:

This is the Department's first year administering this plan. The Department is interested working with Asian Employment Plan Council members to identify activities that will support this. Currently, in partnership with College of Lake County and Joliet Junior College launched a revised Engineer Technician training program. The revised program was developed with the assistance of IDOT engineers. This semester-long classroom and experiential educational opportunity is to help increase the qualified applicant pool for IDOT entry level Engineer Technicians. IDOT has a Minority Outreach website showing current diversity programs and providing opportunities to join the IDOT Professional and Academic Network Alliance. The network provides updates of position postings, career fairs, and outreach efforts to a statewide database of interested individuals, community organizations, and elected officials. Individuals from multiple regions (statewide) represent business owners, Hispanic American Construction Industry Association
(HACIA), ministers, and other catalysts to reach underutilized populations with employment and training opportunities. Developed an external Recruitment Taskforce of community partners and stakeholders to review barriers in recruitment and hiring, perceived or actual that will bring suggested solutions to IDOT to help overcome those identified barriers. Informational sessions given routinely at local community colleges (i.e. Olive Harvey, Prairie State, etc.) to provide necessary information on application procedures for the Highway Maintainer permanent position and application information for the IDOT temporary Highway Maintainer "Snowbird" position. Partnerships through the above listed outreach efforts, committees, and projects with Illinois Department of Employment Security (IDES), Illinois Department of Veterans' Affairs (IDVA), Secretary of State (SOS), Central Management Services (CMS) and the Illinois Department of Commerce and Economic Opportunity (DECO).

FINDINGS

Agency in compliance    X    Agency in non-compliance

RECOMMENDATIONS/COMMENTS

*The agency did not meet the minimum compliance criteria for females due to the fact that there are few females in the applicant pool. Furthermore, when reviewing the female and male hiring data both are hired at a comparable rate. For minorities, that agency had few opportunities throughout the state to adequately address the minority goals. The agency continues to make a good faith effort by recruiting females and minorities by participating in job fairs and contact with professional organizations.

The agency is commended for doing considerable outreach and recruitment in regards to minority candidates. The Department of Human Rights’ standard for minority affirmative action performance was reached. Further, the agency used the Successful Disability Opportunities program list and addressed its disability goals. This agency failed to meet the DHR standard of 37% for female goals, in that it addressed such goals only 12% of the time. The agency should target recruitment efforts to organizations that can refer qualified female candidates. ISP will be referred to the Department of Central Management Services for assistance in providing training to meet the affirmative action goals.
