Central Management Services (CMS):
CMS has streamlined the State’s operations by sharing resources and saving taxpayer money while improving the business services of state government.

By bringing private-sector discipline to its public-sector mission, the department leads the cost-effective administration of purchasing, property management, information technology, telecommunications, internal audit and outside legal services for the State’s executive agencies, personnel and benefits for all State employees and retirees, and the State’s employee and vendor diversity programs.

Illinois Entrepreneurship Network (IEN):
IEN is the umbrella for all Illinois’ small business consultation and training services. Services are provided by the Entrepreneurship Centers, Illinois Small Business Development Centers, Illinois Procurement Technical Assistance Centers, International Trade Centers and the Small Business Environmental Assistance Program. For more information, call the IEN Business Information Center Helpline at 1-800-252-2923 or visit www.ienconnect.com.
If you qualify, take advantage of both programs!
