State Mandates Catalog

STATE MANDATES CATALOG - 2019 - EXECUTIVE SUMMARY

This document satisfies the requirement outlined in the State Mandates Act (30 ILCS 805) that requires the Department of Commerce and Economic Opportunity (DCEO) to provide a State Mandates Catalog. The State Mandates Act became effective January 1, 1981 and was created in response to a nationwide effort to slow requirements that increase local government costs without providing the means to pay for them. The Act defines a State Mandate as "any State- initiated statutory or executive action that requires a local government to establish, expand, or modify its activities in such a way as to necessitate additional expenditures from local revenue." There are five types of mandates:

LOCAL GOVERNMENT ORGANIZATION AND STRUCTURE MANDATES - This refers to actions relating to (1) the form of local government and the adoption and revision of statutes on the reorganization of local government; (2) the establishment of multi-county districts or councils of government; (3) the holding of local elections; (4) the designation of public offices, and their duties, powers, and responsibilities; and (5) the prescription of administrative practices and procedures for local governing bodies.

DUE PROCESS MANDATES - These concern such matters as (1) administration of justice; (2) notification and conduct of public hearings; (3) procedures for administrative and judicial review of actions taken by local governing bodies; and (4) protection of the public from malfeasance, misfeasance, or nonfeasance by local government officials.

SERVICE MANDATES - These mandates pertain to the creation or expansion of governmental services or delivery standards, such as (1) elementary and secondary education; (2) community colleges; (3) public health; (4) hospitals; (5) public assistance; (6) air pollution control; (7) water pollution control; and (8) solid waste treatment and disposal.

TAX EXEMPTION MANDATES - Mandates of this type exempt private property or other specified items from the local tax base.

PERSONNEL MANDATES - This category of mandates affect local government (1) salaries and wages; (2) employee qualifications and training; (3) hours, location of employment, and other working conditions; and (4) fringe benefits, including insurance, health, medical care, retirement, and other benefits.

State reimbursement of 100% of the increased cost to local governments due to the imposition of Personnel and Tax Exemption Mandates is required under the Act. Reimbursement of 50% to 100% is required for the cost of Service Mandates, and no reimbursement is required due to the imposition of Local Government Organization and Structure Mandates or Due Process Mandates.

The Act also identifies five situations in which no reimbursement is required. The five exclusions are for situations where the Mandate: (1) accommodates a request from local governments or organizations thereof; (2) imposes additional duties of a nature which can be carried out by existing staff and procedures at no appreciable net cost increase; (3) creates additional costs, but also provides offsetting savings; (4) imposes a cost that is wholly or largely recovered from federal, State, or other external financial aid; or (5) imposes additional annual net

cost of less than \$1,000 for each of the local governments affected, or less than \$50,000, in the aggregate, for all local governments affected. However, the applicable exclusion must be explicitly stated in the bill creating the Mandate before the State is relieved of reimbursement liability.

DCEO, the Illinois State Board of Education, and the Illinois Community College Board are all assigned responsibilities under the State Mandates Act. One of the requirements imposed on DCEO is the preparation of a catalog of State Mandates that impose requirements on units of local government. Information on State mandates is to be provided to the General Assembly and the public.

This edition of the Catalog identifies State Mandates which have been enacted by law upon local governments, other than school districts and community college districts, from the second session of the 87th General Assembly through the second session of the 99th General Assembly (1992-2016). It contains a listing of Public Acts which have been determined to impose a cost to one or more local governments, including: (1) the type of local government affected; (2) estimated annual cost necessitated by the Mandate, if possible; (3) State entity charge with supervision, if any; (4) a brief description of the Mandate; and (5) a citation of its origin in statute. Those Mandates with a citation of New Act are recent public acts and have not yet been assigned a numeric location in State statute.

The Mandates in this Catalog have been divided into two groups. The first group is entitled “Non Reimbursable,” which includes Public Acts creating Mandates which have been exempted from the Act, excluded by citation of an exclusion contained within the Act, or that create Due Process or Local Government Organization and Structure Mandates. The second group contains Mandates determined by the Department to be “Reimbursable” under the Act.

There are over 6,800 different types of local governments including, but not limited to: 1,288 municipalities, 102 counties, 1,433 townships, and 3,068 miscellaneous special districts and authorities. Local governments reviewing Mandates affecting them should search categories by type of local government and the “All Governments” category.

In summary, there are 108 Mandates in this Catalog, creating 4 Due Process Mandates, 32 Local Government Organization and Structure Mandates, 21 Personnel Mandates, 50 Service Mandates, and 1 Tax Exemption Mandate.

Comments and inquiries regarding the Catalog and DCEO’s duties under the State Mandates Act are welcome and should be directed to the following:
