

Do you know what the Clean Air Act means to your business?

The Clean Air Act Amendments have brought more small businesses into the regulatory process than ever before. If you are not sure what it means to your business, we have a program for you!

If you bake, coat, dry clean, electroplate, fabricate, cremate, work with concrete, mill, renovate, demolish, pave, finish, manufacture, paint, repair cars, service refrigerators/air conditioners, woodwork and much more, you are likely to be affected by one or more provisions of the Clean Air Act.

Environmental Assistance

for regulatory
compliance

Are You a Small Business Owner?

The Small Business Environmental Assistance Program provides the following:

- FREE and CONFIDENTIAL answers to your environmental questions on the toll-free helpline 800/252-3998.

- Training seminars and workshops
- Factsheets summarizing various environmental rules
- Environmental recordkeeping tools
- Permit assistance for Clean Air Act requirements
- Assistance with the Registration of Smaller Sources (ROSS) program
- FREE newsletter

For solutions to questions like:

- “Is my business affected by this rule?”
- “How do I come into compliance with the law?”
- “Do I need a permit or do I need to register through ROSS?”
- “How long will it take for my air permit or ROSS registration to be approved?”
- “What are National Emission Standards for Hazardous Air Pollutions (NESHAPs) and how can I reduce their effects on my company?”
- “Do I need to complete an Annual Emissions Report? If so, how do I complete that report?”
- “Do I need to report greenhouse gases?”
- “What are the federal and state requirements for emergency generators?”
- “Do I need to hire an environmental professional, and how do I find one?”
- “How long do I have to keep records?”
- “What are the requirements for handling asbestos in my facility?”

Free and confidential help navigating through the regulatory process.

The Small Business Environmental Assistance Program Web site can be accessed at ILDCEO.net/enviro

The Web site provides:

- State air permit application forms
- Clean Air Act Permit Program application forms
- ROSS registration forms
- Fact sheets and guides
- Consultant directory
- Links to environmental sites
- Clean Air Clips newsletter
- Recordkeeping tools
- Training schedules
- Links to e-pay system for ROSS site fees
