

FREE COMPREHENSIVE ASSESSMENTS

FOR ILLINOIS FOOD AND BEVERAGE MANUFACTURERS, PROCESSING FACILITIES,
AND THEIR DIRECT SUPPLIERS AND SUPPORTING INDUSTRIES

FUNDING FOR THIS PROJECT PROVIDED BY U.S. EPA REGION V

SYSTEM-WIDE ASSESSMENTS

The Illinois Sustainable Technology Center's Technical Assistance Program (TAP) looks at your whole organization, its underlying parts, and the connections between the parts, to uncover sustainable opportunities in technologies, materials and practices. Our process includes:

BENEFITS TO YOUR COMPANY

TAP's comprehensive assessment can reduce your business costs, energy costs, water consumption, wastewater generation, hazardous materials, and emissions, which:

- promotes sustainable manufacturing and growth,
- improves profitability and competitiveness,
- reduces environmental impacts while gaining a competitive advantage, and
- increases capacity to attract new business.

INCREASED

- + profitability, productivity, competitiveness
- + recycling and/or diversion of by-products

REDUCED

- operating costs
- water use, energy, and materials
- waste volume and/or toxicity
- emissions (VOC, HAP, & GHG)
