As the world transitions out of the pandemic, interest in exporting is on the rise. To assist Illinois exporters in their global export strategy, the Office of Trade and Investment will profile five regions in this year's global market forecast: Asia-Pacific, Europe, Africa, Middle East and the Americas.

Illinois exported \$66 billion globally in 2021, an increase of 117% in the last two decades. Join us for a session on economic forecasts for the regions, export opportunities, market challenges and insights for solutions.

In this webinar you will get an overview of the economic prospects, sector opportunities, and insight into the challenges and solutions for each region.
