Section 13.1 Purpose

The purpose of this Administrative Procedure is to describe the Department's Foster Child Damage Reimbursement Program commonly referred to as "FCDRP" and the procedures for filing claims. No Claim may be submitted to the FCDRP more than 12 months after the incident.

Section 13.2 Description

Through the FCDRP, the Department endeavors to provide third party coverage to Department and private agency foster parents and relative caregivers caring for children for whom the Department is legally responsible, as well as for those "innocent victims", or other claimants who may be harmed or suffer damages by the verifiable actions of foster children. The coverage is against personal injury, property damage and bodily injury caused by actions of foster children. In addition, first party coverage may be provided to foster parents/relative caregivers, innocent victims, or other claimants for their own property damage and bodily injury caused by a foster child while the child is in the care, custody and control of the foster parent/relative caregiver.

The Program is not insurance, nor does the Department use any insurance company to process or handle Claims for this Program. All payments made to claimants are drawn directly from the Department's operating budget during the fiscal year in which they occur. Therefore, any Claims submitted 120 days or more after the close of the fiscal year in which they occur may be found ineligible for reimbursement under this Program. Because FCDRP is not an insurance program, nor is it a program operated by any insurance company, the Department of Children and Family Services does not participate in subrogation with insurance companies. This program is not intended to provide coverage for damages resulting from inadequate supervision on the part of the designated foster parent/relative caregiver or as a result of the lack of supervision when foster parents/relative caregivers do not comply with the standards and requirements set forth by the Department.

FOSTER CHILD DAMAGE REIMBURSEMENT PROGRAM

April 12, 2013

The coverage provided by this program is excess coverage over and above any other valid and collectable insurance which the foster parents/relative caregivers; innocent victims; or other claimants have in effect with respect to first party claims. In the event of theft, personal injury, or damage to the home, business, or auto of a foster parent/relative caretaker, innocent victim; or other claimant; that person shall first file the formal claim with their own personal health, home, apartment, business, or auto insurance provider. If there is no other collectable insurance available to the first party foster parents/relative caregivers, an affidavit, or letter from the first party's insurance provider must be presented to the FCDRP Coordinator. When no insurance provider exists, the claimant must submit a signed and notarized statement that there is no other primary coverage available. If it is later discovered that such excess coverage does exist, the Department shall have the right to collect the amount that the Department paid to the first party claimant. Depending upon a child's individual age, development, and responsibility, some foster children may be held accountable for "proven" damages which he/she caused and may be subjected to the withholding of personal allowance or another written plan for restitution in accordance with Department Rules 402, (Section 402.21), Licensing Standards for Foster Family Homes.

Section 13.3 Definitions

"Actual Cash Value" means the amount it would cost to repair or replace the damaged property with material or item(s) of like kind and quality, less allowable deductions for normal physical deterioration and depreciation based on the age, condition and normal life expectancy of the property. There must be clear evidence of the purchase and ownership of the missing or damaged property. Examples of such evidence are: the purchase receipt from the original vendor; the dated credit card purchase record; the manufacturer's warranty record that establishes the date the property was purchased, the brand, model and warranty coverage date; an independent certified appraiser's dated and certified evaluation of the property that establishes the age and value of the item; and similar documents of proof that establish the purchaser, the purchase price, and the actual date of first acquisition. Supplemental documentation may include, but is not limited to: photographs of the property; an insurance company's determination of the value of the property; if an automobile, a minimum of two (2) estimates for the repair and the generally accepted "Blue Book" value of the automobile; if damage to a home, at least three (3) independent home repair estimates plus the insurer's determination of the value of the repair. The FCDRP shall not be responsible for an item, which is obsolete or no longer available or manufactured, other than to arrive at a fair and equitable value. If ownership, and, "actual cash value" cannot be reliably determined the Department cannot be held responsible for reimbursement. The description of "Actual Cash Value" shall apply to any and all forms of tangible property, whether owned by the foster parent/relative caregiver or under coverage of damage to tangible property of others. **ALL COVERED LOSSES SHALL BE SETTLED ON AN ACTUAL CASH VALUE BASIS.**

"Bodily Injury" means any bodily injury sustained by any person which is caused by the foster child including death.
