

Adoption Listing Service Family Registration Agreement

I have discussed, with my worker, the following benefits of registering as a waiting family with the Adoption Listing Service of Illinois:

- 1) Being entered into the Adoption Listing Service family database and included in weekly computer match searches with waiting children.
- 2) Receiving, along with my worker, directly from ALS, notices of matches made with our family and waiting children.

I understand that I can register as a waiting family with ALS at any time, or my worker, at my request, may register me.

At this time (please check one):

- I wish to **register myself** as a waiting family with the Adoption Listing Service.
- I wish to have **my worker register me** as a waiting family with the Adoption Listing Service.
- I **decline** to be registered as a waiting family with the Adoption Listing Service.
-
