Announcement regarding the Asian American Advisory Council Institute Day FY 2020

The Asian American Advisory Council has decided not to host its Institute Day this year. The original date selected was Friday, June 26, 2020. The Council is disappointed that it will not be able to host its training day but due to public health concerns related to COVID-19 and in-line with precautions that the governor and public health officials have advised, we will not conduct training workshops this year.

Please review the Illinois Department of Public Health website for all current and official updates as well as guidance regarding COVID-19.
