LICENSING STANDARDS FOR DAY CARE CENTERS
June 12, 2020 – P.T. 2020.10

SUBPART A: INTRODUCTION, DEFINITIONS, AND APPLICABILITY

Section 407.40 Purpose and Applicability

- a) The purpose of this Part is to prescribe the minimum standards for licensure as a day care center and to describe how to apply for a license. This Part also establishes requirements for the daily operation of day care centers that serve children. The Child Care Act of 1969 excludes some facilities from the requirement to be licensed. These exclusions from the licensing requirement may be found in Section 2.09 of the Child Care Act of 1969 [225 ILCS 10/2.09] and are explained in Department rules 89 Ill. Adm. Code 377, Facilities and Programs Exempt from Licensure.
- b) The licensing standards set forth in this Part are applicable to day care centers as defined in the Child Care Act of 1969 that are also known as child care centers.
- c) All the standards of this Part apply to partially exempt programs as defined in Section 407.45 unless the standard states those programs are exempt.
- d) Individuals, corporations, associations and groups may write to the Department of Children and Family Services and request a declaratory ruling with regard to the applicability of this Part to their circumstances when the requestor has requested an interpretation from the local licensing authority, but has been unable to obtain such an interpretation or is not satisfied with the response obtained.
- e) Such requests for declaratory rulings shall be addressed to the Department of Children and Family Services, Office of Rules and Procedures, 406 E. Monroe Street, Station # 65, Springfield, Illinois 62701, shall fully outline the facts of their inquiry, shall provide names and addresses of any Department staff who have been involved in evaluating the applicability of this Part to their circumstances, and shall include a copy of any written interpretations or directions received from the local licensing authority.
- f) The Department may provide declaratory rulings upon receipt of the initial request or may ask the inquirer to provide additional information within 15 days before a declaratory ruling is issued. Failure to provide the additional requested information within the 15-day period will terminate the request for a declaratory ruling.
- g) A declaratory ruling regarding the applicability of this Part upon the inquirer will be issued in writing within 60 days after receipt of a complete inquiry which fully states the question and accurately outlines the facts of the inquiry.
- h) A request for a declaratory ruling shall not delay the implementation of any licensing enforcement action including but not limited to corrective plans, refusal to renew, revocation or other enforcement activities.

LICENSING STANDARDS FOR DAY CARE CENTERS
June 12, 2020 – P.T. 2020.10

- i) *Declaratory rulings shall not be appealable.* (Section 5-150(a) of the Illinois Administrative Procedure Act [5 ILCS 100/5-150(a)])
- j) The Department shall maintain as a public record in its principal office and make available for public inspection and copying any such declaratory rulings. The Department shall delete trade secrets or other confidential information from the ruling before making it available to the public. (See Section 5 of the Freedom of Information Act [5 ILCS 140/5].)

APPENDIX B

**MINIMUM EQUIPMENT AND SUPPLIES:
 PRESCHOOL PROGRAMS**

This list of minimum equipment and supplies and their arrangement is not intended to define nor limit any program’s philosophical approach. A minimum quantity and variety of materials is require to stimulate the development of preschool children. This list takes into account the following characteristics of preschool children:

- short attention span
- needs for active and quiet play over a short time period
- need to learn through concrete activities

Unless otherwise noted, the same item may fit into more than one category. For example, a particular cognitive game may be acceptable under the Small Muscle category or the Cognitive category. A center may choose under which category to count an item, but may not count an item under more than one category.

Numbers of children refer to licensed capacity, not enrollment or attendance.

LARGE MUSCLE - OUTDOORS

In the following chart, the numbers of children refer to one-quarter of the center’s licensed capacity **OR** the number of children who use the playground at any one time, whichever is greater. Playgrounds are required to accommodate at least one-quarter of the center’s licensed capacity. However, some playgrounds are big enough to accommodate more than one-quarter of the licensed capacity. A center licensed for 40 children with a playground that can accommodate 10 children would need enough equipment for 10 children, while a center licensed for 40 children with a large playground that all 40 children use at once would need adequate equipment for 40 children.

LARGE EQUIPMENT		MEDIUM EQUIPMENT		SMALL EQUIPMENT
Two items from this column for every 20 or fewer children: <div style="text-align: center;"> Climber* Slide Sand Box Building Blocks/Pieces (Set of 40 Large Blocks) Water Play Equipment (Water Trough, Hose, Sprinkler, Etc.) </div>	PLUS	One item from this column for every 10 or fewer children: <div style="text-align: center;"> Wheel Toy (Tricycle, Wagon, Etc.) Balance Beam Tunnel Rocking Boat, Etc. </div>	PLUS	One item from this column for every 7 or fewer children: <div style="text-align: center;"> Ball Jump Rope Hula Hoop, Etc. </div>

*On a large climber with several sections, each section counts as 1 item.

EXAMPLE: A center with 37 children using the playground at the same time would require: 4 items from the large equipment column; 4 items from the medium equipment column; and 6 items from the small equipment column.

NOTE: Indoor large muscle equipment may also be counted as outdoor equipment, if it is available outdoors when the children are outdoors.

Programs that operate for 3 hours per day or less and provide outdoor play, programs that carry equipment to a remote outdoor play area and programs with playgrounds serving fewer than 20 children may substitute for the large equipment as follows: one medium equipment item for every 3 children, plus one small equipment item for every 7 children **OR** one small equipment item for each child.

APPENDIX C

**MINIMUM EQUIPMENT AND SUPPLIES:
SCHOOL-AGE PROGRAMS**

The quantities of equipment and supplies for school-age programs may be defined in three possible ways:

- 1) The proportion for the total program size, as defined by the maximum daily attendance of the entire school-age program.
- 2) The proportion required for each functional group, defined as the maximum group size allowed in a defined space that can offer a certain activity.

Example 1: If a school-age child care program had 60 participants in three self-contained rooms each containing 20 children and one or more staff, and the lead staff member in each room independently did program planning, the program would contain three functional groups.

Example 2: A program with 60 participants divided into groups of 20 with a carefully planned curriculum based on rotating each group through specially equipped, limited-purpose rooms would have a functional group size of 20 to 60, depending on how many rooms would potentially have children utilizing a certain function simultaneously.

- If Arts and Crafts could be done in only one of the rooms which held a maximum of 20 children, the functional group size for Arts and Crafts would be 20.
- If Dramatic/Creative Play could occur simultaneously with a group of 20 in the gym and another group of 20 in a different room, the functional group size for Dramatic/Creative Play would be 40.
- If Fine Motor Activities were potentially available in all three rooms, the functional group size for Fine Motor Activities would be 60.

- 3) The absolute number of items required regardless of program size or type of scheduling/space utilization.

LICENSING STANDARDS FOR DAY CARE CENTERS
June 12, 2020 – P.T. 2020.10

Section 407. APPENDIX H Playground Surfacing & Critical Height

Partially exempt programs are exempt from this standard.

Critical Height is a term used to describe the shock absorbing performance of a surfacing material and is used in this Part as an approximation of the maximum fall height from which a life-threatening head injury would not be expected to occur.

The surfacing material used under and around a particular piece of playground equipment should have a Critical Height Value of at least the height of the highest accessible part of the equipment.

Acceptable surfacing materials are available in two basic types, unitary or loose-fill.

Unitary materials are generally rubber mats or a combination of rubber like materials held in place by a binder that may be poured in place at the playground site. Persons wishing to install a unitary material as a playground surface should request test data from the manufacturer that should identify the Critical Height of the desired material. Site requirements should also be obtained from the manufacturer because some unitary materials require installation over a hard surface, while for others this is not required.

Loose-fill materials can also have acceptable shock absorbing properties. These materials include, but are not confined to, sand, gravel and shredded wool products. Loose-fill materials should not be installed over hard surfaces such as asphalt or concrete.

Many vendors are unlikely to have information on the shock absorbing performance of loose-fill materials. For that reason the U.S. Consumer Product Safety Commission has conducted tests to determine the relative shock absorbing properties of some loose-fill materials commonly used as surfaces under and around playground equipment. The table below identifies the Critical Heights of these materials when tested at various depths.

Critical Height of Tested Materials				
Material	6 inch uncompressed depth	9 inch uncompressed depth	12 inch uncompressed depth	9 inch compressed depth
Wood Mulch	7 feet	10 feet	11 feet	10 feet
Double Shredded Bark Mulch	6 feet	10 feet	11 feet	7 feet
Uniform Wood Chips	6 feet	7 feet	12 feet	6 feet
Fine Sand	5 feet	5 feet	9 feet	5 feet
Course Sand	5 feet	5 feet	6 feet	4 feet
Fine Gravel	6 feet	7 feet	10 feet	6 feet
Medium Gravel	5 feet	5 feet	6 feet	5 feet

The above material was reproduced with permission from the Handbook for Public Playground Safety by the U.S. Consumer Product Safety Commission.

Executive Order 2020-10

EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 8)

WHEREAS, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area on March 9, 2020 (Gubernatorial Disaster Proclamation) in response to the outbreak of Coronavirus Disease 2019 (COVID-19); and,

WHEREAS, in a short period of time, COVID-19 has rapidly spread throughout Illinois, necessitating updated and more stringent guidance from federal, state, and local public health officials; and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19;

WHEREAS, COVID-19 has resulted in significant economic impact, including loss of income and wages, that threaten to undermine housing security and stability;

WHEREAS, the enforcement of eviction orders for residential premises is contrary to the interest of preserving public health and ensuring that individuals remain in their homes during this public health emergency;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(2), 7(8), 7(10), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective March 21, 2020 at 5:00 pm and for the remainder of the duration of the Gubernatorial Disaster Proclamation, which currently extends through April 7, 2020:

Section 1. Stay at Home; Social Distancing Requirements; and Essential Businesses and Operations

1. **Stay at home or place of residence.** With exceptions as outlined below, all individuals currently living within the State of Illinois are ordered to stay at home or at their place of residence except as allowed in this Executive Order. To the extent individuals are using shared or outdoor spaces when outside their residence, they must at all times and as much as reasonably possible maintain social distancing of at least six feet from any other person, consistent with the Social Distancing Requirements set forth in this Executive Order. All persons may leave their homes or place of residence only for Essential Activities, Essential Governmental Functions, or to operate Essential Businesses and Operations, all as defined below.

Individuals experiencing homelessness are exempt from this directive, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged to make

such shelter available as soon as possible and to the maximum extent practicable (and to use in their operation COVID-19 risk mitigation practices recommended by the U.S. Centers for Disease Control and Prevention (CDC) and the Illinois Department of Public Health (IDPH)). Individuals whose residences are unsafe or become unsafe, such as victims of domestic violence, are permitted and urged to leave their home and stay at a safe alternative location. For purposes of this Executive Order, homes or residences include hotels, motels, shared rental units, shelters, and similar facilities.

2. **Non-essential business and operations must cease.** All businesses and operations in the State, except Essential Businesses and Operations as defined below, are required to cease all activities within the State except Minimum Basic Operations, as defined below. For clarity, businesses may also continue operations consisting exclusively of employees or contractors performing activities at their own residences (i.e., working from home).

All Essential Businesses and Operations are encouraged to remain open. To the greatest extent feasible, Essential Businesses and Operations shall comply with Social Distancing Requirements as defined in this Executive Order, including by maintaining six-foot social distancing for both employees and members of the public at all times, including, but not limited to, when any customers are standing in line.

3. **Prohibited activities.** All public and private gatherings of any number of people occurring outside a single household or living unit are prohibited, except for the limited purposes permitted by this Executive Order. Pursuant to current guidance from the CDC, any gathering of more than ten people is prohibited unless exempted by this Executive Order. Nothing in this Executive Order prohibits the gathering of members of a household or residence.

All places of public amusement, whether indoors or outdoors, including but not limited to, locations with amusement rides, carnivals, amusement parks, water parks, aquariums, zoos, museums, arcades, fairs, children's play centers, playgrounds, funplexes, theme parks, bowling alleys, movie and other theaters, concert and music halls, and country clubs or social clubs shall be closed to the public.

This Executive Order supersedes Section 2 of Executive Order 2020-07 (COVID-19 Executive Order No. 5), which prohibited gatherings of 50 people or more.

4. **Prohibited and permitted travel.** All travel, including, but not limited to, travel by automobile, motorcycle, scooter, bicycle, train, plane, or public transit, except Essential Travel and Essential Activities as defined herein, is prohibited. EXECUTIVE ORDER 2020-32
(COVID-19 EXECUTIVE ORDER NO. 30)

WHEREAS, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,

WHEREAS, it is also critical that the State's health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a novel severe acute respiratory illness that has spread among people through respiratory transmissions, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has reported more than 3 million confirmed cases of COVID-19 and 200,000 deaths attributable to COVID-19 globally as of April 30, 2020; and,

WHEREAS, a vaccine or treatment is not currently available for COVID-19 and, on April 24, 2020, the World Health Organization warned that there is currently no evidence that people who have recovered from COVID-19 and have antibodies are protected from a second infection; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, the CDC currently recommends that all United States residents take precautions to contain the spread of COVID-19, including that they: (1) stay home as much as possible; (2) if they must leave their home, practice social distancing by maintaining 6 feet of distance from others and avoiding all gatherings; (3) wear cloth face coverings in public settings where other social distancing measures are difficult to maintain; (4) be alert for symptoms such as fever, cough, or shortness of breath, and take their temperature if symptoms develop; and (5) exercise appropriate hygiene, including proper hand-washing; and,

WHEREAS, the CDC also recommends the following precautions for household members, caretakers and other persons having close contact with a person with symptomatic COVID-19,

during the period from 48 hours before onset of symptoms until the symptomatic person meets the criteria for discontinuing home isolation: (1) stay home until 14 days after last exposure and maintain social distance (at least 6 feet) from others at all times; (2) self-monitor for symptoms, including checking their temperature twice a day and watching for fever, cough, or shortness of breath; and (3) avoid contact with people at higher risk for severe illness (unless they live in the same home and had the same exposure); and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve, there have been frequent changes in information and guidance from public health officials as a result of emerging evidence; and,

WHEREAS, as of April 30, 2020, there have been nearly 53,000 confirmed cases of COVID-19 in 97 Illinois counties and 2,350 deaths from COVID-19; and,

WHEREAS, studies suggest that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals, meaning that individuals can pass the virus to others without knowing; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State has developed and now requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, Illinois is using a high percentage of hospital beds, ICU beds, and ventilators as a result of the number of COVID-19 patients that require hospitalization and, if cases were to surge higher, the State would face a shortage of these critical health care resources; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds with 3,631 ICU beds, of which, as of April 30, 2020, only 33% of hospital beds and 25% of ICU beds were available statewide, and only 17% of ICU beds were available in the Chicago region; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze two months' worth of daily data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State's modeling shows that its health care resource utilization will not peak until May, and that health care resources will continue to be limited after the peak; and,

WHEREAS, the State's modeling shows that without extensive social distancing and other precautions, the State will not have sufficient hospital beds, ICU beds or ventilators; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds, and the State's modeling shows that without a "stay at home" order, more than 100,000 hospital beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,631 ICU beds, and the State's modeling shows that without a "stay at home" order, more than 25,000 ICU beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,378 ventilators, and the State's modeling shows that without a "stay at home" order, upwards of 20,000 ventilators would be necessary; and,

WHEREAS, the State's modeling shows that without a "stay at home" order, the number of deaths from COVID-19 would be between 10 to 20 times higher than with a "stay at home" order in place; and,

WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances surrounding the threatened shortages of hospital beds, ICU beds, ventilators, and PPE, and critical need for increased COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people;” and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take measures consistent with public health guidance to slow and stop the spread of COVID-19 and to prevent shortages of hospital beds, ICU beds, ventilators, and PPE and to increase COVID-19 testing capacity;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective May 1, 2020:

Executive Order 2020-38

EXECUTIVE ORDER 2020-38
(COVID-19 EXECUTIVE ORDER NO. 36)

Restoring Illinois – Protecting Our Communities

WHEREAS, since early March 2020, Illinois has been faced with a disaster caused by a pandemic that has taken the lives of thousands of residents, infecting over 100,000 and growing, and resulting in extraordinary sickness and loss of life; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, as Illinois enters the fourth month of responding to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that has spread and continues to spread rapidly among people through respiratory transmissions and continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders and governments throughout the State is unprecedented; and,

WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 5.5 million confirmed cases of COVID-19 and 350,000 deaths attributable to COVID-19 globally; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,

WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, emergency room capacity, and ventilators, and the inadequate testing capacity, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the thousands of lives lost to COVID-19 in Illinois, the continued increase of cases, the continued threat of shortages of hospital beds, emergency room capacity, and ventilators, the improved but still insufficient testing capacity, and the financial destruction caused by the virus, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, the CDC advises that limiting face-to-face contact with others is the best way to reduce the spread of COVID-19, and that social distancing – staying at least 6 feet away from other people, not gathering in groups, and staying out of crowded places – is among the best tools to slow the spread of the virus; and,

WHEREAS, the CDC recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, the CDC recommends other critical precautions to slow the spread of COVID-19, such as frequent hand washing, covering coughs and sneezes, and cleaning and disinfecting frequently touched surfaces; and,

WHEREAS, there have been over 117,000 confirmed cases of COVID-19 in 101 Illinois counties; and,

WHEREAS, Illinois has had more than 5,200 deaths resulting from COVID-19, and many days more than 100 Illinoisans lose their lives to the virus; and,

WHEREAS, although the number of new COVID-19 cases has stabilized and potentially begun to decrease in recent weeks, the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, while hospitalizations have very recently stabilized, Illinois is using a significant percentage of hospital beds, ICU beds, and ventilators to treat COVID-19 patients that require hospitalization and, if cases were to surge higher, the State could face a shortage of one or more of these critical health care resources; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State’s modeling showed that its health care resource utilization would peak in May, and that health care resources would continue to be limited after the peak, updated modeling now shows that the peak may have been delayed, with the tail extending several more weeks; and,

WHEREAS, the State’s modeling continues to show that without extensive social distancing and other precautions, the State will face a shortage of hospital beds, ICU beds and/or ventilators; and,

WHEREAS, in addition to causing the tragic loss of more than 5,200 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, 40 million people have filed unemployment claims since the start of the pandemic – representing one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate rose to 16.4% in April, with 762,000 jobs lost during that month; and,

WHEREAS, over 180,000 small businesses in Illinois have received over \$22 billion in COVID-19 related financial support through the federal Paycheck Protection Program in an effort to prevent these businesses from closing; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that impact the health and safety of residents; and,

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective immediately:

Restoring Illinois – Protecting Our Communities

1. **Intent of this Executive Order**. The intent of this Executive Order is to safely and conscientiously resume activities that were paused as COVID-19 cases rose exponentially and threatened to overwhelm our healthcare system. As Illinoisans resume these activities, we must not backslide on the progress we have made. We cannot risk overwhelming our healthcare system, and we must prioritize the health and lives of all Illinoisans, especially the most vulnerable among us. While protecting our communities, we will restore our economy and begin to repair the economic damage that the virus has caused. The intent of this Executive Order is to effectuate those goals.

This Executive Order supersedes Executive Order 2020-32 and Section 1 of Executive Order 2020-07.

2. **Public health requirements for individuals**. Individuals must take the following public health steps to protect their own and their neighbors' health and lives:
 - a. **Practice social distancing**. To the extent individuals are using shared spaces when outside their residence, including when outdoors, they must at all times and as much as reasonably possible maintain social distancing of at least six feet from any other person who does not live with them.
 - b. **Wear a face covering in public places or when working**.¹ Any individual who is over age two and able to medically tolerate a face covering (a mask or cloth face covering) shall be required to cover their nose and mouth with a face covering when in a public place and unable to maintain a six-foot social distance. This requirement applies whether in an indoor space, such as a store, or in a public outdoor space where maintaining a six-foot social distance is not always possible.

¹ Throughout this Executive Order, any reference to a face covering requirement excludes those two years old and younger and those for whom wearing a face covering is not medically advisable. Guidance on use of face coverings from the Illinois Department of Human Rights is available here: https://www2.illinois.gov/dhr/Documents/IDHR_FAQ_for_Businesses_Concerning_Use_of_Face-Coverings_During_COVID-19_Ver_2020511b%20copy.pdf

- c. **Elderly people and those who are vulnerable as a result of illness should take additional precautions.** People at high risk of severe illness from COVID-19, including elderly people and those with a health condition that may make them vulnerable, are urged to stay in their residence and minimize in-person contact with others to the extent possible.
 - d. **Limit gatherings.** Any gathering of more than ten people is prohibited unless exempted by this Executive Order. Nothing in this Executive Order prohibits the gathering of members of a household or residence. Because in-person contact presents the greatest risk of transmission of COVID-19, Illinoisans are encouraged to continue limiting in-person contact with others and to expand their social contact cautiously. Gathering remotely continues to be the safest way to interact with those outside a household or residence.
 - e. **Go outdoors.** Public health guidance suggests that the risks of transmission of COVID-19 are greatly reduced outdoors as opposed to indoors. Where possible, Illinoisans are encouraged to conduct their activities outdoors.
3. **Public health requirements for businesses, nonprofits, and other organizations.** For the purposes of this Executive Order, covered businesses include any for-profit, non-profit, or educational entity, regardless of the nature of the service, the function it performs, or its corporate or entity structure. Those entities must take the following public health measures to protect their employees, their customers, and all others who come into physical contact with their operations:
- a. **Requirements for all businesses.** All businesses must:
 - continue to evaluate which employees are able to work from home, and are encouraged to facilitate remote work from home when possible;
 - ensure that employees practice social distancing and wear face coverings when social distancing is not always possible;
 - ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
 - ensure that all visitors (customers, vendors, etc.) to the workplace can practice social distancing; but if maintaining a six-foot social distance will not be possible at all times, encourage visitors to wear face coverings; and
 - prominently post the guidance from the Illinois Department of Public Health (IDPH) and Office of the Illinois Attorney General regarding workplace safety during the COVID-19 emergency.²

The Department of Commerce and Economic Opportunity (DCEO), in partnership with IDPH, has developed industry-specific guidance and toolkits to help businesses operate safely and responsibly. These documents are available at: <https://www2.illinois.gov/dceo/Pages/RestoreILP3.aspx>.

- b. **Requirements for retail stores.** Retail stores must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance from customers and other employees at all times;
 - cap occupancy at 50 percent of store capacity, or, alternatively, at the occupancy limits based on store square footage set by the Department of Commerce and Economic Opportunity;
 - communicate with customers through in-store signage, and public service announcements and advertisements, about the social distancing and face covering requirements set forth in this Order; and
 - discontinue use of reusable bags.
- c. **Requirements for manufacturers.** Manufacturers must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
 - ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
 - modify and downsize operations (staggering shifts, reducing line speeds, operating only essential lines, while shutting down non-essential lines) to the extent necessary to allow for social distancing and to provide a safe workplace in response to the COVID-19 emergency.
- d. **Requirements for office buildings.** Employers in office buildings must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which may include:
- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
 - consider implementing capacity limits where the physical space does not allow for social distancing;
 - allow telework where possible; and
 - develop and prominently post plans and signage to ensure social distancing in shared spaces such as waiting rooms, service counters, and cafeterias.

- e. **Requirements for restaurants and bars.** All businesses that offer food or beverages for on-premises consumption—including restaurants, bars, grocery stores, and food halls—must suspend service for and may not permit on-premises consumption, except as permitted by DCEO guidance. Such businesses are permitted and encouraged to serve food and beverages so that they may be consumed off-premises, as permitted by law, through means such as in-house delivery, third-party delivery, drive-through, and curbside pick-up. In addition, customers may enter the premises to purchase food or beverages for carry-out. However, establishments offering food or beverages for carry-out, including food trucks, must ensure that they have an environment where patrons maintain adequate social distancing.

Bars and restaurants located in airports, hospitals, and dining halls in colleges and universities are exempt from the requirements of this Executive Order. Hotel restaurants may continue to provide room service and carry-out. Catering services may continue. Schools and other entities that typically provide food services to students or members of the public may continue to do so under this Executive Order on the condition that the food is provided to students or members of the public on a pick-up and takeaway basis only.

All businesses covered in this section may permit outdoor on-premises food and beverage consumption in accordance with DCEO guidance and when permitted by local ordinances and regulations.

- f. **Requirements for fitness and exercise gyms.** Fitness and exercise gyms may be open for the following activities, but must conduct business in a manner consistent with DCEO guidance: Personal training sessions involving one trainer and one customer; outdoor training in groups no larger than 10 with social distancing; sale of retail merchandise; and onsite filming or streaming of remote classes conducted by a single trainer. Fitness and exercise gyms may not allow other activities, including member workouts, because of the heightened risk of transmission of COVID-19 when people exercise together and share equipment in an indoor space.
- g. **Requirements for personal services facilities.** Personal services facilities such as spas, hair salons, barber shops, nail salons, waxing centers, tattoo parlors, and similar facilities may be open but must ensure the use of face coverings, adherence to social distancing requirements, and use of capacity limits in accordance with DCEO guidance.
- h. **Requirements for outdoor recreation, youth day camps, and youth sports.** Businesses offering outdoor recreation, youth day camps, and youth sports may

be open but must ensure the use of face coverings, adherence to social distancing requirements, and must take other public health steps in accordance with DCEO guidance.

- i. **Places of public amusement.** Except as permitted by this Executive Order or by DCEO guidance, places of public amusement must remain closed to the public. Places of public amusement include but are not limited to, locations with amusement rides, carnivals, amusement parks, water parks, aquariums, zoos, museums, arcades, fairs, children’s play centers, playgrounds, theme parks, bowling alleys, movie and other theaters, and concert and music halls. Places of public amusement, like other businesses, may continue to:
 - i. Perform necessary activities to maintain the value of the business’s inventory, preserve the condition of the business’s physical plant and equipment, ensure security, process payroll and employee benefits, or for related functions.
 - ii. Perform necessary activities to facilitate employees of the business being able to continue to work remotely.
 - iii. Fulfill online and telephonic retail orders through pick-up or delivery.

4. **Exemptions.**

- a. **Free exercise of religion.** This Executive Order does not limit the free exercise of religion. To protect the health and safety of faith leaders, staff, congregants and visitors, religious organizations and houses of worship are encouraged to consult and follow the recommended practices and guidelines from the Illinois Department of Public Health.³ As set forth in the IDPH guidelines, the safest practices for religious organizations at this time are to provide services online, in a drive-in format, or outdoors (and consistent with social distancing requirements and guidance regarding wearing face coverings), and to limit indoor services to 10 people. Religious organizations are encouraged to take steps to ensure social distancing, the use of face coverings, and implementation of other public health measures.
- b. **Emergency functions.** All first responders, emergency management personnel, emergency dispatchers, court personnel, law enforcement and corrections personnel, hazardous materials responders, child protection and child welfare personnel, housing and shelter personnel, military, and other governmental employees working for or to support the emergency response are exempt from

³ This guidance is available at: <https://www.dph.illinois.gov/covid19/community-guidance/places-worship-guidance>

- c. **Governmental functions.** This Executive Order does not apply to the United States government and does not affect services provided by the State or any municipal, township, county, subdivision or agency of government and needed to ensure the continuing operation of the government agencies or to provide for or support the health, safety and welfare of the public.
5. **Social Distancing, Face Covering, and PPE Requirements.** For purposes of this Executive Order, social distancing includes maintaining at least six-foot distance from other individuals, washing hands with soap and water for at least twenty seconds as frequently as possible or using hand sanitizer, covering coughs or sneezes (into the sleeve or elbow, not hands), regularly cleaning high-touch surfaces, and not shaking hands.
- a. **Required measures.** Businesses must take proactive measures to ensure compliance with Social Distancing Requirements, including where possible:
 - i. **Designate six-foot distances.** Designating with signage, tape, or by other means six-foot spacing for employees and customers to maintain appropriate distance;
 - ii. **Hand sanitizer and sanitizing products.** Having hand sanitizer and sanitizing products readily available for employees and customers;
 - iii. **Separate operating hours for vulnerable populations.** Implementing separate operating hours for elderly and vulnerable customers;
 - iv. **Online and remote access.** Posting online whether a facility is open and how best to reach the facility and continue services by phone or remotely; and
 - v. **Face Coverings and PPE.** Providing employees with appropriate face coverings and requiring that employees wear face coverings where maintaining a six-foot social distance is not possible at all times. When the work circumstances require, providing employees with other PPE in addition to face coverings.
6. **Enforcement.** This Executive Order may be enforced by State and local law enforcement pursuant to, *inter alia*, Section 7, Section 15, Section 18, and Section 19 of the Illinois Emergency Management Agency Act, 20 ILCS 3305.

Businesses must follow guidance provided or published by the Illinois Department of Commerce and Economic Opportunity regarding safety measures during Phase III, and the Illinois Department of Public Health, local public health departments, and the Workplace Rights Bureau of the Office of the Illinois Attorney General with respect to Social Distancing Requirements. Pursuant to Section 25(b) of the Whistleblower Act, 740 ILCS 174, businesses are prohibited from retaliating against an employee for disclosing information where the employee has reasonable cause to believe that the information discloses a violation of this Order.

7. **No limitation on authority.** Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing the State or any county, or local government body to order (1) any quarantine or isolation that may require an individual to remain inside a particular residential property or medical facility for a limited period of time, including the duration of this public health emergency, or (2) any closure of a specific location for a limited period of time, including the duration of this public health emergency. Nothing in this Executive Order shall be construed as an exercise of any authority to order any quarantine, isolation, or closure. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing a county or local government body to enact provisions that are stricter than those in this Executive Order.

8. **Savings clause.** If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable. This Executive Order is meant to be read consistently with any Court order regarding this Executive Order.
