47. Section 7.3 and its subsections are deleted in their entirety and replaced with the following:

### **7.3 PAYMENT FILE RECONCILIATION**

7.3.1 Within thirty (30) days after the 820 Payment File is made available, Contractor shall notify the Department of any discrepancies, and Contractor and the Department will work together to resolve the discrepancies. Discrepancies include the following:

7.3.1.1 Enrollees who Contractor believes are in its plan but who are not included on the 820 Payment File;

7.3.1.2 Enrollees who are included on the 820 Payment File but who Contractor believes have not been enrolled with Contractor; and

7.3.1.3 Enrollees who are included on the 820 Payment File but who Contractor believes are in a different rate cell.

7.3.2 Contractor shall notify the Department within sixty (60) days of identifying Capitation or other payment amounts in excess of amounts specified in this Contract.

48. Subsection 7.4.1 is deleted in its entirety and replaced with the following:

7.4.1 Capitation rates under this Contract, excluding the portion attributable to supplemental payments and other fees not retained by the MCOs, will be risk-adjusted by each population category against the other full-risk MCOs providing Covered Services to the same population category within the same rate-setting region. The population categories that will be risk-adjusted are adults and Children eligible under Title XIX and Title XXI; Affordable Care Act expansion—eligible adults; Medicaid-eligible older adults; adults with disabilities who are not eligible for Medicare; Dual-Eligible Adults receiving LTSS, excluding those receiving partial benefits or enrolled in the Illinois Medicare-Medicaid Alignment Initiative (MMAI); and Special-Needs Children, excluding Children in the care of DCFS. Beneficiaries under the age of two (2) will not be risk-adjusted. Capitation rates calculated under this Contract will be adjusted in accordance with publicly available risk-adjustment software. Risk adjustment will be performed on a semiannual basis. For an Enrollee's individual claims data to be the basis for a risk adjustment score hereunder, such Enrollee must have been enrolled in the HFS Medical Program (i.e., either managed care or Fee-For-Service) for at least six (6) full months during the time period from

which claims data are used to calculate the adjustment. In the event an Enrollee has not been enrolled in the HFS Medical Program for at least six (6) full months, then such Enrollee shall receive a risk score equal to Contractor's average risk score. The risk scores shall be established for each MCO across all rate cells. As necessary, the risk scores will be established using a credibility formula for each MCO. The credibility formula to be used will be determined by an independent actuary. All diagnosis codes submitted by Contractor shall be included in calculations of risk scoring irrespective of placement of such diagnosis codes in the Encounter Data records. Diagnosis codes from claims or encounters that included a lab and radiology procedure or revenue code on any line, with the exception of those associated with an inpatient hospital claim, will not be collected for the risk-adjustment analysis. It is assumed that these diagnosis codes could be for testing purposes and may not definitively indicate a beneficiary's disease condition. Encounter records may not be supplemented by medical record data. Diagnosis codes may only be recorded by the Provider at the time of the creation of the medical record and may not be retroactively adjusted except to correct errors. A significant change in risk scores by an MCO may warrant an audit of the diagnosis collection and submission methods. To the extent that the Department's contracted actuarial firm believes Encounter Data limitations are resulting in risk score variances between MCOs, the Department reserves the right to request diagnosis codes and other information to perform risk adjustment.

49. Subsection 7.5.1 is deleted in its entirety and replaced with the following:

7.5.1 The Capitation rates provide for all reasonable, appropriate, and attainable costs that are required under terms of the Contract and for the operation of the managed Health Plan for the time period and population covered under the terms of the Contract, and such Capitation rates were developed in accordance with the requirements under 42 CFR 438.4(b).

50. Section 7.7 is deleted in its entirety and replaced with the following:

#### **7.7 ADJUSTMENTS**

Adjustments shall be retroactive up to twenty-four (24) months. Adjustments can go beyond twenty-four (24) months at the discretion of the Department in instances including but not limited to death, incarceration, or other systematic corrections made by the Department. The Department will make retroactive enrollments only in accordance with sections 4.6 and 4.11.

51. Subsection 7.9.1 is deleted in its entirety and replaced with the following, and is further amended by adding new subsections 7.9.1.1 and 7.9.1.2:

7.9.1 The Department shall apply a withhold, defined as a withhold arrangement under 42 CFR 438.6(a), percentage of total Capitation rates each month. The withheld amount will be one percent (1%) in the first measurement year, one-and-one-half percent (1.5%) in the second measurement year, and two percent (2%) in the third and subsequent measurement years. Contractor may earn a percentage of the withhold based on its performance with respect to a Department-determined combination of: (i) quality metrics set forth in Attachment XI; (ii) operational and implementation

metrics as defined and published on the Department's website. The Department and Contractor will agree to the measures through a counter-signed letter annually. The letter will include any weighting assigned to quality, operational or implementation metrics as it relates to the withhold.

7.9.1.1 Withhold arrangements shall be available to both public and private contractors under the same terms of performance.

7.9.1.2 Participation by Contractor in withhold arrangements are not a condition of Contractor entering into or adhering to intergovernmental transfer arrangements.

52. Subsection 7.9.6 is amended by adding new subsections 7.9.6.1 and 7.9.6.2:

7.16.17.1 impose a late fee of up to US \$50,000 for the initial determination;

7.16.17.2 impose a late fee of up to US \$50,000 for each subsequent determination;

7.16.17.3 impose an enrollment hold on Contractor; or

7.16.17.4 impose both.

**7.16.18 Other failures.** If the Department determines that Contractor is in substantial noncompliance with any material terms of this Contract, or any State or federal laws affecting Contractor's conduct under this Contract, that are not specifically enunciated in this article VII but for which the Department reasonably determines imposing a performance penalty or other sanction is warranted, the Department, may:

7.16.18.1 impose a performance penalty of US \$20,000 to US \$50,000;

7.16.18.2 impose an enrollment hold on Contractor; or

7.16.18.3 impose both.

## Appendix A General Implementation Procedures:

1. The 2019 EUM Data Methodology report details the guidelines for the spend data to be included and provided in Appendix A. Failure to send accurate spend data by the deadline will result in both the Financial Penalty and Auto-Assignment shut-off to occur.

All final Medicaid spend data submitted must be accompanied by an attestation letter (provided in Appendix A) signed by Contractor’s Executive Director or CEO. This attestation letter must be printed, signed, and emailed to HFS; it cannot be signed electronically. An attestation letter is not required for the preliminary Medicaid spend data submission.

2. The Financial Penalty is up to \$100,000 per Evaluation Period. The Financial Penalty will be assessed if the All Services EUM score OR any identified Subcategory EUM score is below the percentages listed above.
3. **HFS Accepted Encounter greater than MCO Reported Spend** – The Medicaid spend should not be less than the amount of HFS accepted encounters, which would result in a scored percentage of greater than 100%. For subcategories of service where the HFS accepted encounter expenditures are greater than the MCO reported Medicaid spend, the amount of HFS accepted encounters above the amount of the reported spend in a subcategory will not be included for purposes of calculating the total “All Services” percentage. For example, if dental services are reported by the plan at \$100,000 and HFS has accepted encounters of \$150,000, the value used to score this subcategory would be \$100,000 resulting in a score of 100%. The remaining \$50,000 would not be included in the subcategory score or the total composite score.
4. Contractor shall email all related data to the Department’s designated e-mail account ([HFS.encounters@illinois.gov](mailto:HFS.encounters@illinois.gov)) and Milliman ([Milliman.IL.Encounters@milliman.com](mailto:Milliman.IL.Encounters@milliman.com)). The file name should include the name of the MCO and the date of submission (e.g. “MCO Name Prelim Appendix A CY19 Eval 1 – 20190131”).
