I. PURPOSE

In the coming months, day care licensing rules will be amended to reflect these statutory changes.

II. PRIMARY USERS

The primary users of this Policy Guide are Department and POS licensing and placement staff.

III. BACKGROUND AND SUMMARY

Any alleged violation of statute needs to be taken as a licensing complaint and processed accordingly. Amendments to respective rules will be proposed to add the language in the Policy Guide. Until the rules are amended, violation codes will be identified per section of the Child Care Act or Food Handling Regulation Enforcement Act as noted below:

Child Care Act, Section 5.5 (amended by P.A. 99-343)

Effective August 11, 2015, based upon U.S. government findings regarding second hand smoke and its special risks to children's health, the following shall be monitored, recorded and regulated:

- It is a violation for any person to smoke tobacco in any area of a licensed day care center, day care home or group day care home. This includes smoking in a licensed day care facility outside of times of operation and/or when children are not present. It also includes any area of a licensed day care facility that is not licensed specifically for childcare, but is part of the same structure.
- It is a violation for any person responsible for the operation of the licensed day care facility to knowingly allow, or encourage anyone to smoke in a licensed day care facility. This includes any person who is the owner, director and/or teacher of the licensed child care facility.
