Vol. 30, No.9

ENVIRONMENTAL REVIEWS COMPLETED

Project reviews completed from February 16 to March 15 are listed below. These projects have been screened through the internal environmental review process for potential impacts on wetlands, threatened and endangered species, and cultural and archaeological resources, etc. Through the review process it was determined that environmental impacts have been kept to a minimum and mitigated as necessary, that they do not meet the criteria for significant actions as defined in the environmental review process, and may proceed. All these projects are in compliance with the Endangered Species Protection Act, Natural Areas Preservation Act, Interagency Wetlands Policy Act and cultural resource statutes.

- **Channahon State Park**

2110254—This project will repair the roof of an existing comfort station that was damaged by a falling tree. Project originally submitted for review on 2-09-2021.
