Vol. 22, No.1

ENVIRONMENTAL REVIEWS COMPLETED

Project reviews completed from June 15 to July 15 are listed below. These projects have been screened through the internal environmental review process for potential impacts on wetlands, threatened and endangered species, and cultural and archaeological resources, etc. Through the review process it was determined that environmental impacts have been kept to a minimum and mitigated as necessary, that they do not meet the criteria for significant actions as defined in the environmental review process, and may proceed. All of these projects are in compliance with the Endangered Species Protection Act, Natural Areas Preservation Act, Interagency Wetlands Policy Act and cultural resource statutes.

- **Pere Marquette State Park**

1216302 - This project involves placement of bollards in several locations. These bollards prevent vehicles from driving off rocky bluff outcroppings. Project was submitted for review on 6-11-12.

- **Pere Marquette State Park**

1216222 - This project involves techniques to prevent erosion and soil loss; including: subsurface placement of field tile, stand pipes, and sediment control basins. Project was submitted for review on 6-6-12.

- **Waukegan Beach**

1216224 - This project involves installation of five Big Belly Standalone Waste Stations. To minimize impact on beach, dunes, and open areas, stations are only to be installed immediately adjacent to existing road or parking areas. Project was submitted for review on 6-8-12.

Questions and Comments

All questions and comments about the environmental review process or this newsletter should be directed to:

Illinois Department of Natural Resources
Division of Ecosystems and Environment
