

Pere Marquette State Park
Special Fall Archery Hunt Regulations 2021-2022

- 1) A Windshield Card must be displayed on the dash of your vehicle any time you are parked in the area for hunting or scouting. Your Windshield Card ID is available online at the IDNR website. Instructions for printing out the ID are on the reserve side of this page. You are required to return to the IDNR website to report your harvest for each permit you have, including permits for the public hunting areas and special hunt areas. Please phone or stop by the park Visitor Center (618/786-3323) if you have any questions.
- 2) While hunting or scouting, hunters will be allowed to park along the group camp access roads, but no vehicles will be allowed on trails or inside the group camps. Additional parking is available on Route 100 at Crull Hollow and the Dabbs area (near grain bins along highway south of Crull Hollow).
- 3) No hunting is allowed in the Nature Preserve (noted on map).
- 4) **Scouting is allowed until the start of the first season.** No firearms or bows are allowed while scouting. If camp gates are closed, scouting will be walk-in only. Hunters are not permitted inside the camps at any time, whether the camps are occupied or not. The main camp gates will be open 24/7 during hunting seasons.
- 5) No hunting is permitted within 100 yards of any main access road, picnic area, or camp.
- 6) All tree stands must be portable. Tree stands may be left unattended between October 1st and December 31st. Stands must be legibly marked with owner's name, address and phone number.
- 7) Hunters must have in their possession their Illinois Archery Deer Permit. Hunters with more than one archery permit may fill those tags.
- 8) Hunters with a valid archery turkey permit may harvest a turkey during their hunt.
- 9) All state hunting regulations apply.
- 10) While held to a minimum, successful applicants should be aware that natural resource management activities such as prescribed burning and non-native plant control may be conducted during the archery season. **The park hopes to be aerial spraying for bush honeysuckle during the fall dormancy period. This activity will result in a 24 hour closure. Field monitoring of foliage will determine the exact date of spraying. Those whom will be effected will be notified premised on information provide on the application.**
- 11) Attached is survey which we ask that you complete and submit back the visitor center either by mail, fax or electronic email.
