| c. Mar 18, 2021 | 10:00 am | IDNR – TBD                            |

An Illinois State Water Plan was first published in March of 1967 and was entitled “Water for Illinois, A Plan for Action”. This plan remained the primary water plan in Illinois until 1980 when the development of a new Water Plan was mandated, resulting in a 1984 report entitled “Illinois State Water Plan”. The Task Force which compiled the 1984 report continued to meet and publish several subsequent documents to continue the planning process and to provide updated information. That “State Water Plan Task Force” (SWPTF) continues to meet quarterly to address issues related to the waters of Illinois.

The State Water Plan Task Force is comprised of state agency representatives and invited federal and local partners.
