

FLOODPLAIN MANAGEMENT RESOURCE GUIDE for ILLINOIS COMMUNITIES

July 2002

(Revised Draft April 2009)

Introduction

The purpose of this document is to provide a resource of floodplain management programs and technical assistance available to local communities in Illinois. Many of the programs listed in this document can help communities in their efforts to reduce or eliminate flood risks. The Resource Guide is organized in three categories: Federal Agencies, State Agencies and Private or Non-profit organizations. Communities are encouraged to contact each agency for specific information on programs.

An index in the back of this manual will list programs and assistance by topic (i.e.: mitigation, floodproofing, stormwater, wetlands, etc..). A key has been developed to identify eligible groups for each program or grant after the title of the grant:

Key to group eligibility:

- "I" individuals eligible
- "G" local units of government
- "O" all organizations eligible to apply
- "P" private not-for-profit (501C3) groups only eligible
- "E" educational institutions
- "U" unknown or eligibility varies, need to contact administrators.

Some of these programs and grants may not have water resources or flood reduction as a specific goal, but could be used to achieve multiple objectives which include these goals. Other programs and grants are also included in this guide which may compliment a buyout or floodplain restoration program.

This document is provided as a public service and does not constitute a recommendation or endorsement of any particular grant or program; also note that the absence of any particular grant or program does not constitute a negative endorsement. While an effort has been made to provide an accurate listing, funding information is constantly changing and omissions or errors may occur. Please recycle previous editions. For corrections, comments or additional copies of this summary, please contact IDNR/Water Resources.

A special thanks goes to Keith Eichorst, NRCS Planner for his input and assistance with this document. Much of the material in this document was obtained from a similar publication produced by the Natural Resource and Conservation Service (NRCS) and entitled Grant Information Summary for Conservation Projects.

Federal Sources

The federal government is an excellent place to investigate sources for water resources projects. Once you identify your specific requirements, the Catalog of Federal Domestic Grants (CFDA) is the single best place to look for federal funding sources-the catalog should be available at your local library or you can view the CFDA on-line:

Catalog of Federal Domestic Assistance:

<http://www.cfda.gov>

Web site for federal forms and grant administration procedures:

<http://www.whitehouse.gov/omb/grants/index.html> or www.grants.gov

Web sites of federal agencies may give you more information about individual government programs as well as provide information on other opportunities for assistance. The web site for each federal agency is listed under the agency title and address.

Department of Agriculture (USDOA)

NATURAL RESOURCES CONSERVATION SERVICE

Natural Resources
Conservation Service (NRCS)
2118 W. Park Court
Champaign, IL 61820
(217) 353-6600

<http://www.il.nrcs.usda.gov>

Topics: Public Information, Floodplain Planning, Emergency Management Planning, Multi-Objective Management, Mitigation Techniques.

NRCS primarily serves rural areas. NRCS staff provides information on land use planning, conservation planning, resource development, water management and flood prevention to farmers, community officials, and land developers. While mostly a general information and technical assistance operation, NRCS also funds flood protection projects. In addition, NRCS can assist local officials with review of subdivision proposals, erosion and sedimentation control, and other development plans. NRCS recently announced a Floodplain Easement Program (See NRCS website for info.)

Small Watershed Program PL-566(G)

Technical assistance is provided in designing and installing watershed works of improvement. Financial assistance is provided for sharing costs of measures for watershed protection, flood prevention, water management, sedimentation control, wildlife habitat, and recreation. Watershed area must not exceed 250,000 acres. Capacity of a single structure is limited to 25,000 acre-feet of total capacity and 12,500 acre-feet of floodwater detention capacity.

Cooperative River Basin Program, Section 6, Public Law 83-566(G)

- Cooperative River Basin studies are for appraising water and related land resources and formulating alternative plans for conservation use and development.
- Studies are of limited scope and short duration to provide specific information needed for planning.
- Plans may include management and land measures or combinations thereof that would meet existing and projected needs and objectives.

Conservation 2000 — Streambank Stabilization & Restoration Program (SSRP): G, O, I.

- Eligible projects include naturalized stream bank stabilization practices in rural and urban communities.
- Application deadlines are January, May and September.
- 25% match required, 20% for qualified watershed planning areas.

- Contact the local Soil & Water Conservation District that services your county. Offices are listed in the phone book under Alocal government.

Habitat Restoration Fund for the Fox and Kishwaukee River Watersheds: (I, O, E, G).

- Eligible projects include native plantings, upland habitat & wetland restoration.

- Deadlines in March and August.

- 75% cost-share, up to \$5,000.

- Contact the Lake, Kane-DuPage, DeKalb, Boone, McHenry or North Cook Soil and Water Conservation Districts for more information.

Point of Contact:

The NRCS work is conducted through local soil and water conservation districts. The point of contact is the District Conservationist who usually has an office in the county seat. (Check the local telephone directory under USDA) or www.nrcs.usda.gov/NRCstate.html.

**Please Note: The Association of Soil and Water Conservation Districts (217) 744-3414 can guide you to your county Soil and Water Conservation District office.

Farm Service Agency (FSA)

Illinois State FSA Office P. O. Box 19273

3500 West Wabash Springfield, Illinois 62711 217-241-6600 Ext. 2217-241-6619 FAX
Emergency Conservation Program: (I, G)

Following a natural disaster, the county FSA committee determines to make the program available in the county.

Emergency cost sharing is limited to new conservation problems created by natural disasters, which, if not treated, will impair or endanger the land.

Point of Contact:

Contact the local county FSA office following a disaster.

Department of Defense

U.S. ARMY CORPS OF ENGINEERS

Within Illinois, the U.S. Army Corps of Engineers is represented in four District offices, see the U.S. Army Corps of Engineers web site to determine in which District you are located.

<http://www.usace.army.mil/>

Corps of Engineers District offices:

Chicago District. <http://www.lrc.usace.army.mil/>

St. Louis District. <http://www.mvs.usace.army.mil/>

Rock Island District. <http://www.mvr.usace.army.mil/>

Louisville District. <http://www.lrl.usace.army.mil/>

Topics: Public Information, Data Sources. Floodplain Management Planning, Mitigation Techniques, Emergency Management Planning

The Silver Jackets Program is being implemented to further develop and improve interagency coordination of flood risk management. Through the Silver Jackets program, state agencies work with USACE, FEMA and other Federal and local agencies to ensure continuous interagency collaboration at the state level, leveraging available resources and information. The program has created a mechanism to collaboratively solve issues, and also recommend and implement solutions, while increasing and improving flood risk communication and outreach. State Silver Jackets teams facilitate strategic, life-cycle planning to reduce flood risk and provide assistance in implementing state-identified high-priority actions.

Local USACE contact for Silver Jackets:

Hank DeHaan
Program Manager
U.S. Army Corps of Engineers
Rock Island District
Clock Tower Building, P.O. Box 2004
Rock Island, IL 61204-2004
Phone: 309-794-5853

Civil Works (G, O, P)

- The nation's primary water resources development program. It involves engineering works such as major dams, reservoirs, levees, harbors, waterways, locks, and many other types of structures.

- Planning assistance is provided to states and other non-federal entities

REGULATORY JURISDICTIONAL BOUNDARIES

for the comprehensive management of water resources, including pollution abatement works.

- Conducts feasibility studies and builds flood damage reduction projects.

- Major projects require specific authorization and funding by Congress, while small projects can be implemented with agency authority.

Floodplain Management Services Program (G, U)

The Floodplain Management Services Program provides the full range of technical services and planning guidance needed to support effective floodplain management. The follow-

ing types of assistance are available:

* General Technical Services. The program develops or interprets site specific data on obstruction to flood flows, flood formation and timing; flood depths or stages; flood water velocities.

* General Planning Assistance. ASpecial Studies@ are performed on all aspects of Floodplain management planning.

Examples include:

- Floodplain delineation/flood hazard management
- Flood warning/preparedness
- Dam break analysis
- Urbanization impact
- Flood proofing

- Inventory of floodprone structures

Services are provided at no cost to state, regional and local governments. Other federal agencies and the private sector can obtain the services on a 100% cost recovery basis.

Planning Assistance to States (G)

The Corps of Engineers provides assistance to states, local governments and other non-federal entities in the preparation of comprehensive plans for the development, utilization, and conservation of water and related land resources.

The individual states determine the needed planning assistance. Every year, each state can provide the Corps its request for studies under the program and the Corps then accommodates as many studies as possible within the funding allotment.

Essentially, anything can be studied under this program. Typical studies are only planning level of detail; they do not include detailed design for project construction.

- Types of studies conducted include:

- Water supply and demand studies
- Water quality studies
- Environmental conservation/restoration studies
- Wetland evaluation studies
- Flood damage reduction studies
- Planning Assistance to State studies are cost shared on a 50% federal - 50% non-federal basis. Also, a portion of the non-federal cost may be performed as in-kind work rather than having to pay all cash. This must be negotiated before the study agreement is finalized.

Section 14 Emergency Streambank and Erosion Protection (G, I, O)

These projects are designed to provide emergency streambank and shoreline protection to threatened

public facilities. A project is approved for construction after investigation shows engineering, economic and environmental feasibility. The investigation generally lasts 6 months to a year. These projects are cost shared 65% federal and 35% non-federal. Each project is limited to a federal cost of \$1 million.

Projects may protect:

- Highways
- Highway bridges
- Water and sewer lines
- Churches
- Public and non-profit schools and hospitals
- Other non-profit Public facilities

Section 205 Small Flood Control Projects (G)

These projects are designed to reduce major flooding problems. A project is approved for construction after investigation shows engineering, economic and environmental feasibility. The investigation generally lasts 1 to 3 years. These projects are cost shared 65% federal and 35% non-federal. Each project is limited to a federal cost of \$7 million.

A project may consist of one of more of the following:

- Channel enlargement
- Channel realignment or paving
- Obstructions removal
- Levee and wall construction
- Bank stabilization

Section 206 of the 1960 Flood Control Act, as amended (Floodplain Management Services Program) (G)

Provides floodplain information and technical assistance to states, counties, and cities for prudent use of land subject to flooding from streams, lakes and oceans.

Examples of projects include developing and interpreting flood and flood plain data such as flood hazard mapping; providing a broad assessment

of the impact of structural and nonstructural flood damage reduction measures; providing technical assistance on flood proofing systems and techniques; and assessing the possible impacts of land use changes on the physical, socio-economic and environmental conditions of the floodplain.

Section 208 Snagging and Clearing for Flood Control (G)

Corps of Engineers designs and constructs the project. Each project must be engineering feasible, complete within itself, and economically justified. The nonfederal sponsor must provide all lands, easements, and rights of way. Non-Federal sponsor pays all project costs in excess of the Federal limit of \$500,000. Sponsor agrees to maintain the project.

Section 1135 Project Modifications for the Improvement of the Environment (G, P, U)

Federal funds and technical assistance available for studies, planning, engineering, construction and administration.

Cost-share up to \$5 million plus non-federal match, 25% for project costs.

Contact Army Corps of Engineers at (312) 846-5330, (309)794-5156 or 314) 331-8068

Section 206 Aquatic Ecosystem Restoration (G, P, U)

Projects include funding and assistance to carry out ecosystem restoration and enhancement that is documented to be in the public interest, will improve the environment, and is cost effective.

Federal cost-share of up to \$5 million is available, 35% non-federal cost-share required.

Contact the Army Corps of Engineers at 312-353-6400, 309-794-

5590 or 314-331-8404

DEPARTMENT OF ENERGY

US Department of Energy
Chicago Regional Office
9800 S Cass Ave
Argonne, IL 60439

(630)252-2110

Topics: Land Use Planning, Disaster Planning

Sustainable Development

Department of Energy provides a very detailed web site with volumes of information on community planning, land use planning, disaster planning, and sustainable development. On this website, you will be able to:

Read about other communities that have discovered the benefits of sustainable development;

Locate technical and financial resources that can help you community plan and carry out sustainable development projects; and

Access model codes and ordinances other communities have used to implement sustainable development.

United States Department of Housing and Urban Development (HUD):

<http://www.hud.gov>

HUD has many programs and grants dealing with urban development and housing. HUD is also one of the primary agencies for low interest loans following disaster events.

Department of the Interior

U.S. GEOLOGICAL SURVEY (USGS)

U.S. Geological Survey
Water Resources Division
1201 W University, Suite 100
Urbana, IL 61801
(217) 334-0037

<http://www.usgs.gov/>

Topics: Data Sources, Emergency Management Planning

As one of the 48 Districts in the Water Resources Division of the U.S. Geological Survey, the Illinois District is an integral part of a Federal agency devoted to data collection, applied science, scientific research, and dissemination of information. The USGS performs surveys, inves-

tigations and research, covering topography, geology, hydrology, and the mineral resources of the United States. They classify lands as to their mineral water resources and publish and disseminate data relative to the foregoing activities. The USGS also publishes flow rates, and peak flows of certain streams and rivers.

National Water Data Exchange (I, G, O, P, E, U)

- Each state has a User Assistance Center. These centers can provide:

- Factual information on flood peaks and discharges, flood depths and velocities, profiles of the water surface and areas inundated during major floods, time-of-travel of flood wave, and sediment transport information

- Interpretative information regarding flood frequency relations, estimates of 10-, 50-, 100-, and 500-year flood discharges, computed water surface profiles, and flood-prone areas delineated on topographic maps

- Assistance in minimizing flood losses by quickly identifying areas of potential flood hazards

- Additional information on the hydrology of floodplains.

Point of Contact:
(217) 334-0037

National Park Service

<http://www.nps.gov/>

The objectives of the National Park Service are to administer the properties under its jurisdiction, to protect

the natural environment of the areas, and to assist States, local governments, and citizen groups in the development of park areas, the protection of the natural environment, and the preservation of historic properties.

Rivers, Trails and Conservation Assistance Program (G, O, P, E)

- The Rivers, Trails and Conservation Assistance Program provides National Park Service staff for assistance to communities for river and trail corridor planning and open space preservation efforts.

- Program personnel are acknowledged experts in facilitating cooperative planning efforts.

- Projects are all based on substantial involvement of varied community interests.

- Targeted National Park Service assistance with grassroots planning can help communities make informed choices based upon consensus about future growth and development that will help avoid future flood losses.

Point of Contact:

FISH AND WILDLIFE SERVICE

Great Lakes - Big River Region
U.S. Fish and Wildlife Service
1 Federal Drive
BHW
Federal Building

Fort Snelling, MN 55111
Phone: (612) 713-5360

<Http://www.fws.gov/>

Topics: Multi-Objective Management, Mitigation Techniques

The mission of the U.S. Fish and Wildlife Service is to work with others, to conserve, protect, and enhance fish and wildlife and their habitats for the continuing benefit of the American people. Their major responsibilities are: migratory birds, endangered species, freshwater and anadromous fish, the National Wildlife Refuge System, wetlands, conserving habitat, and environmental contaminants.

The Fish and Wildlife Service provides expertise on questions relating to fish, wildlife, and habitat resource, preservation and maintenance. They also review wetland projects as part of the U.S. Army Corps of Engineers' 404 permit program.

Partners for Fish and Wildlife (O, I, E, G)

- Eligible projects include restoration or enhancement of wildlife habitat, does not fund land acquisition or salaries.

- Need to call for application deadlines.

- Matching or in-kind services preferred, 10-year habitat development agreement required.

- Contact the US Fish and Wildlife Service (USFWS) at (847) 381-2253 or 1250 S Grove, Suite 103, Barrington IL 60010 for information.

Point of Contact:

<http://offices.fws.gov/directory/listofficestate.cfm>

Region 3: Twin Cities, Minnesota (Illinois, Iowa, Indiana, Michigan, Minnesota, Missouri, Ohio, Wisconsin)

(612) 713-5361

Northeastern Illinois Wetlands Conservation Account (I, G, O, P, E)

Eligible projects include restoration, enhancement, and preservation of wetlands. Other eligible projects include those that promote understanding, appreciation, and stewardship of wetlands

-Application deadlines vary. \$5,000-\$150,000 grant range.

-Matching funds preferred but not required. Limited to Northeastern Illinois area.

- Contact the U.S. Fish and Wildlife Service at (847) 381-2253 for information.

Point of Contact:

<http://offices.fws.gov/directory/listofficestate.cfm>

Region 3: Twin Cities, Minnesota (Illinois, Iowa, Indiana, Michigan, Minnesota, Missouri, Ohio, Wisconsin)

(612) 713-5361

Challenge Grant Program (O, I, E, G)

- Purpose for wildlife habitat restoration, streambank stabilization, or education.

-Application deadlines from June to August. Grant ranges vary up to \$10,000.

-50% Match required.

-Contact U.S. Fish and Wildlife Service at (847) 381-2253 or (309) 793-5800.

Point of Contact:

Federal Emergency Management Agency (FEMA)

Region V - Flood Insurance and Mitigation Division
536 South Clark Street
Chicago, IL 60605
(312) 408-5500

<http://www.fema.gov>

Topics: Floodplain Management, Floodplain Mapping, Risk Assessment, Mitigation Planning, Mitigation Techniques.

FEMA Region V has a Division that handles the administration of the National Flood Insurance Program (NFIP), mitigation programs, and helps states, communities and private entities interpret the federal regulations.

NATIONAL FLOOD INSURANCE PROGRAM (NFIP)

Floodplain mapping, and Floodplain Management (I, G, O, P, E, U)

Regional staff includes engineers and planners assigned to help communities.

They provide technical assistance and publications to help citizens and local officials understand NFIP flood maps and the regulatory requirements for communities to participate

in the NFIP.

Point of Contact:

Natural Hazards Specialists
FEMA, Region V
536 South Clark, 6th Floor
Chicago, Illinois 60605

(312) 408-5500

Hazard Mitigation Grant Program (G)

The Hazard Mitigation Grant Program will pay for 75% of the eligible costs of such mitigation projects.

The projects should be consistent with the recommendations of the state's mitigation plans and strategies.

Projects must be shown to be cost-effective, and they may mitigate hazards other than the one that caused the disaster.

Point of Contact:

Mitigation Specialist
FEMA, Region V
536 South Clark, 6th Floor
Chicago, Illinois 60605

(312) 408-5591

Flood Mitigation Assistance (FMA)(G)

To assist states and local governments to implement cost-effective measures that will reduce future flood damage and reduce future flood insurance claims.

Examples of eligible projects include acquisition or elevation of National Flood Insurance Program-insured buildings, and minor drainage improvement projects.

Also hazard mitigation plans can be generated with these funds.

Point of Contact:

Mitigation Specialist
FEMA, Region V
536 South Clark, 6th Floor
Chicago, Illinois 60605

(312) 408-5591

Pre-Disaster Mitigation (G)

To assist states and local governments to implement cost-effective hazard mitigation activities that compliment a comprehensive mitigation program, and reduce injuries, loss of life, and damage and destruction of property.

Emphasis is on the development of state and local multi-hazard mitigation plans that meet the DMA 2K criteria.

Eligible activities include state management costs, information dissemination, planning, technical assistance and mitigation projects.

Point of Contact:

Mitigation Specialist
FEMA, Region V
536 South Clark, 6th Floor
Chicago, Illinois 60605

Emergency Management Institute (I, G)

FEMA's National Emergency Training Center in Emmitsburg, MD, is the home of the Emergency Management Institute (EMI) and the National Fire Academy.

Classes in many areas of emergency management, including emergency planning, exercise design and evaluation disaster management, hazardous materials response, and fire service management.

EMI course are also given by many states.

An Independent Study Program is also available to private citizens.

Special seminars and workshops are offered via satellite as part of FEMA's Emergency Education Network, called EENET.

Courses of special interest to engineers, architects and building code officials are:

- Retrofitting Floodprone Residential Buildings
- Multihazard Building Design Summer Institute
- Digital Hazard Data Course
- Managing Floodplain Development Through the National Flood Insurance Program
- National Flood Insurance Program
- Community Rating System

Point of Contact:

www.training.fema.gov/

Community Rating System (CRS) (G)

The CRS is a program that gives flood insurance reduction credits to communities for proper floodplain management efforts.

Flood insurance policy holders are eligible for major premium reductions based on how well a community regulates future floodplain development activities and steps taken to reduce current flood risks.

Point of Contact:

ISO/CRS Specialist for Illinois
1126 Schuyler St
Peru, IL 61354
(815) 220-1002
Scoford@iso.com

Increased Cost of Compliance (ICC)

ICC is available on all National Flood Insurance Program (NFIP) flood insurance policies. This coverage provides an additional \$20,000 to elevate, relocate, demolish, or floodproof substantially damaged

structures. A home is considered substantially damage when the cost of repairs equal or exceeds 50% of the structures pre-damage market value. Communities have the option of adopting a cumulative substantial damage provision where ICC coverage can become available when a structure's cumulative damages equal or exceed 50% of the market value.

Point of Contact:

Topics: Multi-Objective Management, Mitigation Funding

Funding to provide support to grassroots organizations to develop watershed partnerships in part comes from the EPA. Eight Federal agencies are responsible for developing a Clean Water Action Plan. As a result of this plan, in 1998 the EPA selected the River Network to administer and coordinate the Watershed Assistance Grants. Agencies responsible for developing the Action Plan include Defense, Interior, Agriculture and others. SBA offers low interest loans after floods.

Watershed Assistance Grants (I, G, O, P)

The purpose of the Watershed Assistance Grants program is to provide small grants to local watershed partnerships to support their organizational development and long term effectiveness.

These grassroots citizens' organizations are dedicated to protecting and restoring the watershed in their area.

Interested persons should use the self-screening process, which is

available to assure that persons and organizations are eligible to receive a grant and that the activities being proposed meet the program criteria.

Point of Contact:

This is one of the Federal agencies coordinating development of the Clean Water Plan.

Scenic Byway Program (U)

Purpose is to create or preserve treasured American byways or roads. Grants are available for states and communities to develop scenic roadways and associated open space.

<http://www.byways.org>

State Sources

The State of Illinois administers numerous programs for community-based water resource management. Some of the money for these programs originates at the federal level and is a pass-through funding, but much comes directly from the State.

Useful State websites:
<http://www.illinois.gov/>

Catalog of State Assistance to Local Governments:
<http://www.legis.state.il.us/commission/igcc/catalog1999.pdf>

Contact your local state legislative office for application details.

The Illinois Department of Agriculture/Division of Natural Resources works closely with the Natural Resource and Conservation Service (NRCS) and local Soil and Water Conservation Districts to provide technical assistance to land owners regarding flooding or erosion problems.

<http://www.ildceo.net/dceo/>

Community Development Assistance Program (Community Development Block Grant) (G)

Eligible projects must include activities that improve community welfare, specifically in moderate or low-income areas. Conservation-related projects can possibly include the acquisition of real property (e.g., flood-prone areas), construction of water or sewer facilities, and initiatives for energy conservation. Funding competition is intense.

Application deadlines vary; no match required.

Money originates at the federal level as the Community Development Block Grant and is administered directly to entitlement communities such as the urbanized counties in Northeastern Illinois and selected

Illinois Emergency Management Agency (IEMA)

Illinois Emergency Management Agency
2200 S. Dirksen Pkwy
Springfield, Illinois 62703-4528
217/782-7860
www.state.il.us/iema

The primary responsibility of the Illinois Emergency Management Agency (IEMA) is to better prepare the State of Illinois for natural, manmade or technological disasters, hazards, or acts of terrorism. IEMA coordinates the State's disaster mitigation, preparedness, response and recovery programs and activities, functions as the State Emergency Response Commission, and maintains a 24-hour Communication Center and State Emergency Operations Center (SEOC). The SEOC acts as lead in crisis/consequence management response and operations to notify, activate, deploy and employ state resources in response to any threat or act of terrorism. IEMA assists local governments with multi-hazard emergency operations plans, mitigation plans, and maintains the Illinois Emergency Operations Plan as well as the FEMA required State Mitigation Plan.

The Illinois Emergency Management Agency (IEMA) also administers the Public Assistance Program and the Individual Assistance Program. The Public Assistance (PA) Program provides federal disaster

assistance to state and local government organizations for debris removal, emergency protective measures and the permanent restoration or replacement of public facilities that are owned and operated by an eligible organization. Assistance may also be provided to certain private non-profit organizations that provide services of a governmental nature open to all persons within the community. Under the Individual Assistance Program, IEMA works closely with the Federal Emergency Management Agency (FEMA) and the Small Business Administration (SBA) to provide disaster assistance to individuals, families, and businesses following Presidential disaster declarations. Disaster assistance may come in the form of loans or grants to restore the disaster area to pre-disaster condition.

IEMA provides training for municipal and county emergency managers and first responders on a wide range of topics such as emergency planning, unified command, exercise design and evaluation, mitigation and terrorism planning.

The Illinois Emergency Management Agency offers many different Grant opportunities for local jurisdictions to prepare for or to mitigate their hazards. Below are two examples:

Hazard Mitigation Assistance Program: (G)

Governments must be enrolled and in good standing with the National Flood Insurance Program (NFIP).

Eligible initiatives for projects include acquisition of insured structures and underlying real property for open space uses.

Provides up to 75% of project costs, 25% match required.

Pre-Disaster Mitigation (G)

Assist local governments to implement cost-effective hazard mitiga-

tion activities that compliment a comprehensive mitigation program, and reduce injuries, loss of life, and damage and destruction of property.

- Emphasis is on the development of local multi-hazard mitigation plans that meet the DMA 2K criteria.
- Eligible activities include information dissemination, planning, technical assistance and mitigation projects.

Illinois Department of Natural Resources
Office of Water Resources
One Natural Resources Way
Springfield, IL 62701
(217) 782-3863

www.dnr.state.il.us

The Illinois Department of Natural Resources/Office of Water Resources (IDNR/OWR) is the state agency that regulates construction activities in the state's rivers, lakes, and streams. The agency is also very active in the planning and funding of structural flood control projects when deemed appropriate. The IDNR receives many requests for assistance to solve urban flooding and other related water resources problems, each of which leads to some category of study or action. IDNR/OWR also coordinates the National Flood Insurance Program, mitigation activities, and floodplain mapping issues in the state.

State and local floodplain regulations and NFIP coordination (I, G, O, P, E)

Provides community-wide or individual assistance and training to communities trying to regulate floodplain development activities and reduce existing flood problems.

Can provide communities with training manuals, model floodplain and

stormwater ordinances, technical assistance, risk assessment, and floodplain mapping.

Point of Contact:

Paul Osman (Statewide Manager)
(217) 782-4428
Posman@dnrmail.state.il.us

Small Projects Fund (G)

Provides direct assistance to rural and smaller communities to reduce stormwater related flood damages by alleviating localized, significant drainage and flood problems.

Provides funding for planning and implementation of flood control projects in accordance with an adopted plan.

Relies on cooperative utilization of local resources

Limited to \$100,000 at a single locality.

Point of Contact:

Tom Maloney
(217) 782-4615
tom.maloney@illinois.gov

OPEN SPACE LANDS ACQUISITION AND DEVELOPMENT (OSLAD) PROGRAM & OPEN LANDS TRUST GRANT PROGRAM (G)

Eligible projects include money for

acquisition and development of public parks for passive recreation/open space.

Application deadlines vary. Conservation easement required with both programs.

Funding is reimbursable up to 50% of project costs, reimbursable up to \$2 million for the Trust Grant.

Contact Illinois Dept. of Natural Resources (IDNR) for both programs at 217-782-7481.

<http://dnr.state.il.us/ocd/>

Education grants (U)

<http://www.dnr.state.il.us/lands/education/classrm/grant>

Greenways and Trails Planning Assistance Program (G)

Eligible units of government include counties and communities > 10,000

\$20,000 maximum awarded, 50% in-kind contribution required.

Must follow a planning process

Contact IDNR at 217-782-3715

<http://www.dnr.state.il.us/OREP/PLANNING/greenwaybro2.pdf>

Illinois Trail Grant Programs (G, P, O)

-A collection of various trail programs where eligible projects include acquiring or constructing non-motorized bicycle and snowmobile paths and facilities.

- Deadline is March and May.

- 0%-50% match required, depending upon which type of trail grant.

- Contact IDNR at 217-782-7481.

[Http://www.dnr.state.il.us/ocd/newtrail2.htm](http://www.dnr.state.il.us/ocd/newtrail2.htm)

URBAN & COMMUNITY FORESTRY GRANT PROGRAM (G)

- Purpose is to create or enhance local forestry programs in communities with a local forestry ordinance.
- May deadline.
- 50% match required, reimbursement up to \$5,000.

Contact IDNR at 217-782-2361.

Illinois Wildlife Preservation Fund (I, O, U)

- Eligible projects include those that deal with management, site inventories or on-going education programs.
 - Deadline is April.
 - Funding up to \$1,000 per project, match preferred but not required.
 - Contact IDNR at (217) 785-8774. FAX: (217) 785-2438
- DNR.SPECIALFUNDS@illinois.gov
<http://dnr.state.il.us/ORC/WPF/>

Conservation 2000—Ecosystems Program (O)

Eligible projects include habitat protection or improvement, technical assistance, and education.

The Ecosystems Program provides financial and technical support to groups (ecosystem partners) which seek to maintain and enhance ecological and economic conditions in key watersheds of Illinois.

February deadline, contact IDNR at (217) 785-5500.

<http://dnr.state.il.us/OREP/pfc/>

State Tax Incentives for Conservation (O, I)

Urban land that is environmentally sensitive may qualify for significant property tax reductions:

Real Property Conservation Rights Act (765 ILCS 120/1 et seq.).

If land is qualified by having a conservation easement, it may be assessed at 8 1/3 fair market value.

Illinois Natural Areas Preservation Act (525 ILCS 30/1 et seq)/17 Ill Adm. Code.

If land is qualified by being designated as an Illinois Nature Preserve, it may be assessed at \$1/year in perpetuity.

OPEN SPACE ASSESSMENT (ILLINOIS PROPERTY TAX CODE SECTIONS 10-155).

A lower use evaluation is used for land in open space, 10 acre minimum area, not applicable in Cook County.

Preferential Assessment of Common Areas (Illinois Property Tax Code Sections 10-35).

Purpose is to encourage open space in residential developments, if qualifying, assessment is reduced to \$1/year.

Other tax incentives may also apply, contact IDNR regarding the Real Property Conservation Rights Act and the Illinois Natural Areas Preservation Act at (217) 785-8686. Contact your local township or county assessor to determine eligibility under the Open Space Assessment and Preferential Assessment of Common Areas.

Illinois State Water Survey

The Illinois State Water Survey is the scientific and technical branch of U of I. The Illinois State Water Survey maintains the state repository for flood history, floodplain mapping and hydrologic studies.

Surface Water and Floodplain Services Program (I, G, O, P)

A variety of information and technical services related to surface water resources and floodplain management are provided to individuals, industry, business professionals, public agencies, and governmental units. The Illinois State Water Survey functions as the Floodplain Information Repository maintaining a library of information and technical data related to flooding. The library also includes a complete set of National Flood Insurance Program (NFIP) maps and studies as well as engineering data and supportive studies related to flooding, a complete set of National Wetlands Inventory Maps and US Geological Survey topographic quadrangles, and the Survey's Surface Water Data Files. This information may be viewed by the public during regular business hours. The Water Survey also completes flood hazard zone

determinations and calculates approximate base flood elevations. Minimal fees are charged for some services.

Point of Contact:

Illinois Tomorrow Program (G)

Initiative is a bold, coordinated approach to balanced growth for communities throughout the state of Illinois. It promotes voluntary state/local partnerships and focuses on state programs that invest in existing communities. ILLINOIS TOMORROW is a comprehensive effort guided by the core principles of reducing traffic congestion, preserving open space, encouraging reinvestment and redevelopment, enhancing the quality of life, and encouraging local government partnership.

As part of his ILLINOIS TOMORROW initiative, the Corridor Planning Grant Program is designed to help local governments develop land use and infrastructure plans that promote the efficient use of transportation facilities and enhance quality of life.

Point of Contact:

<http://www.dot.il.gov/corridorplanning/corridor.html>

Private and Non-Profit Organizations

Private sources for community projects include associations, corporations, and individuals that have established foundations for charitable purposes. Many corporate foundations focus their philanthropy in areas near their operations, so local retailers, businesses, or the local chamber of commerce might be a source of revenue for your project. Most, but not all, require that the group applying for funding be sponsored by a not-for-profit [501(c)(3)] corporation. Information about private foundations can be identified through organizations that specialize in grant information research. Fees for services or products may be charged by these organizations, so be sure to clarify if charges will be incurred. For do-it-yourselfers, local grant data collection centers are available throughout Illinois. Some clearing houses for information include:
