## July 2019

*A Wood Utilization & Marketing Resource*

### Illegal Logging versus Deforestation:

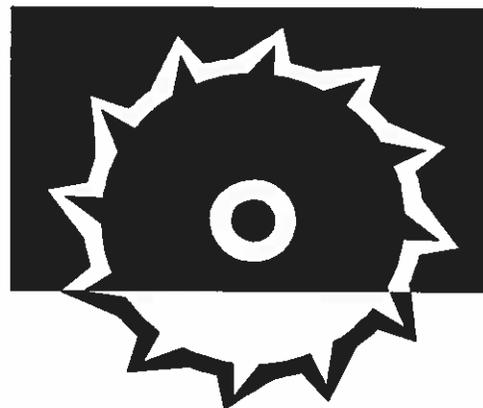

#### Inside this issue:

Tropical / Prices	1
Purpose/Policy	2
Timber Bid Sale	3-6
Timber Bid Sale	7-10
State Foresters	11

A story from the Sydney Morning Herald (which published the photos) reads:

*"In May, deforestation in Brazil reached the fastest rate in ten years. About 740 square kilometers - nearly 200,000 acres - were cleared in 30 days. This is likely due to higher activity by illegal loggers after President Bolsonaro loosened environmental protections."*

Land that is deforested is often done so in tropical countries for agriculture use such as cattle, plantations, ect. These photos are lands that likely won't be forest again

**Buy, Sell and Saw Illinois Wood!**

anytime soon. Illegal logging is different, and worldwide continues to be of similar magnitude to deforestation. Illegal logging usually are logs, trees and/or forest stands extracted from forests without permissions, permits, approvals and is usually outright theft. Illegally logged forests usually recover depending on what and how much of what species are removed.

Globally 100s of tons of protected and non-protected tree species are traded each quarter from dozens of tropical forests worldwide eventually reaching the same markets as some of America's fine hardwoods.

#### Summer 2018 Timber Price Report

The Division of Forest Resources publishes a timber price report every six months. Summer 2018 is now published and can be found at the following link:

[www.dnr.illinois.gov/conservation/Forestry/Documents/IllinoisTimberPrices](http://www.dnr.illinois.gov/conservation/Forestry/Documents/IllinoisTimberPrices)

The Winter 2018-2019 Timber Price Report is due to be published in early August when the department will send summer 2019 surveys and tabulate reports from actual reported sales.

“And into the forest I  
go, to lose my mind  
and find my soul. “

*John Muir*

**Policy Statements:**

Illinois forests and woodlands are critical to the citizens of Illinois and globally far beyond the singular value of wood and fiber production. The Division of Forest Resources integrates and requires on state land and cooperating private lands that important other concerns of soil, water, wildlife, habitats, recreation, aesthetics and cultural resources are addressed while growing, harvesting and regenerating forests. We advocate and outreach forest management principles to all Illinois forest owners.

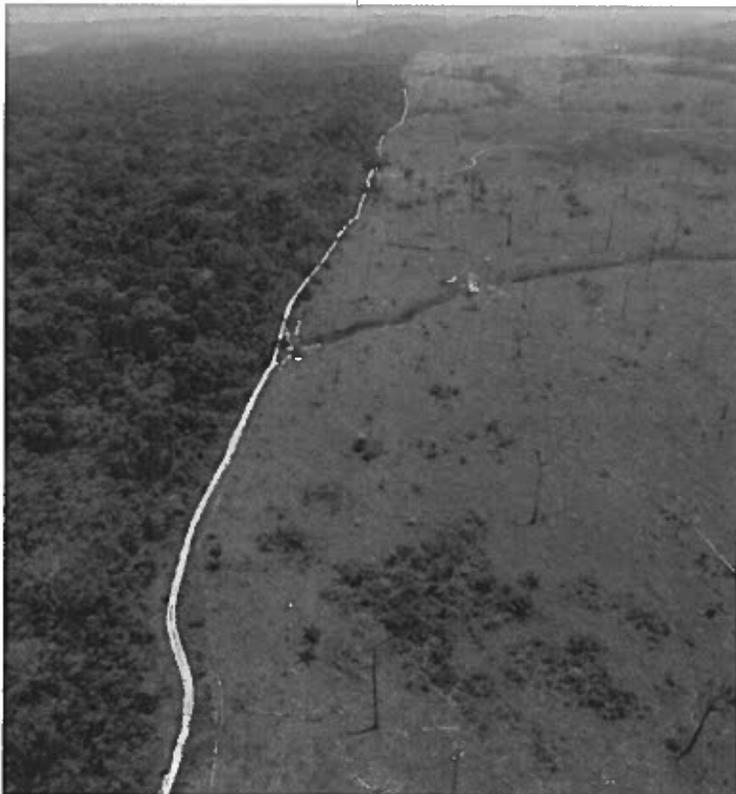

Demands on Illinois forest resource for all goods and services the forest can provide continue to increase while nearly 90% of Illinois forests remain privately owned. To conserve, enhance and expand the benefits and critical function of Illinois forests it is necessary that forest landowners, government agencies, forest industry and citizens at large work together.

Equal opportunity to participate in programs of the Illinois Department of Natural Resources and those funded by the U.S. D.A. and other agencies is available to every individual regardless of race, sex, national origin, disability, age, religion, or other non-merit factors. If you believe you have been discriminated against contact civil rights office and/or the Equal Opportunity Officer, IDNR, One Natural Resources Way, Springfield, IL 62702-1271; 217-785-0067; TTY 217-782-9175.

**Marked Stumpage Sales:**

This newsletter is posted on the IDNR Forest Resources website bi-monthly on odd months (6 issues/yr.) Deadline for each bi-monthly issue is the third Thursday of the even month prior. All submissions of marked timber for sale by consulting foresters, procurement foresters or others must be submitted by the second Thursday even month prior. Submissions by consulting foresters working with IFDA cooperators must adhere to the timber recommendations approved in the landowner’s written management plan. Foresters working with landowners at-large must adhere to recommended silviculture for Illinois forest types. Submissions may be sent US Mail to “ORC-Forestry” at Springfield DNR or [paul.deizman@illinois.gov](mailto:paul.deizman@illinois.gov).

All sales marked for cutting are by a forester of the Illinois Division of Forest Resources or by a consulting forester and/or reviewed by the Illinois Division of Forest Resources. Volumes are estimated using the Doyle Rule unless otherwise indicated. Deductions are made for defects. No volume is tallied for culls. Any interested buyers should contact the landowner or their representative directly. The Illinois Division of Forest Resources does not establish the selling price of timber. Buyers must show proof they are licensed.

**Two (2) timber sales this July 2019 issue follow:**

## **REQUEST FOR TIMBER BIDS**

**LEGNER TRACT**

**90+ ACRES PRINCETON, ILLINOIS**

### **TIMBER LOCATION:**
