The Area

Hamilton County State Fish and Wildlife Area, also known as Dolan Lake, is a 1,583 acre site ideal for outdoor enjoyment. The lake is the facility's main attraction.

Located about 8 miles southeast of McLeansboro off Route 14, the property was acquired by the State of Illinois in 1960 as a 99-acre parcel. An earthen dam was constructed in 1962, and the lake was filled shortly thereafter. Subsequent purchases brought the acreage to its present-day total, which includes the 75-acre lake with 3 miles of shoreline and a maximum depth of 18 feet.

Hunting and Field Trials

The site is one of gently rolling hills, with 1,300 acres being open for hunting. Most of the hunting area consists of small, open fields bordered by heavy fence rows, border plantings of warm season grasses, iespedeza and pine trees with small patches of brush and timber. Food for the upland game is supplied by patch planting in the area.

Hamilton County State Fish and Wildlife Area is noted for its extensive sporting dog field trial program in which some of the best trained beagles and bird dogs compete for regional and national honors. Many of the competitions use equestrian trails, with dog handlers and observers following the action from horseback. Hunters are required to stop at the check station for permits. Shotgun or bow and arrow hunting is allowed; deer hunting with bow and arrow only, by permit. Hamilton County State Fish and Wildlife Area is known for its prime upland game hunting.
