Landowner IFDA Forestry Management Plans Admin Rules Changes ...

As of March 31, 2017 the Illinois DNR Division of Forest Resources' Administrative Rules that guide the Forestry Development Act's forest management plans and forest practices cost-share for landowners have officially changed.

These "Admin Rule" changes were initiated years ago by the division's forestry leadership to specifically benefit the forest resources of Illinois—most of which (85%) are privately owned. Complete details may be found in IFDA Administrative Rules 1536 & 1537. Here are the basics:

Forest Management Plans have additional standards to insure sound science and data based forestry decisions are outlined for each landowner's plan. Other standards were relaxed to ease the development of recommendations on smaller forest stands.

Cost-share dollar rates for approved forest practices

Buy, Sell and Saw Illinois Wood!

have been adjusted upward across the board and are aligned to the actual prevailing costs of the forestry work contractors charge. Three new practice categories have been added to enhance comprehensive management of a landowner's forest. The three additions are best management practices for water quality, prescribed fire, and invasive/exotic treatments. Though fire is not always an easy practice to hire and execute it is available as a cost-sharable practice if required for a forest. Invasive -exotic plant treatment and control is regularly required for landowners depending on the severity and it is often required before a participating landowner is approved to open the forest canopy via a timber harvest. Best Management Practices for protecting streams and roads from soil erosion, due to management or logging operations in a forest, are also often required in forest management plans and more often so when a harvest of timber is planned. The rules also allow aerial spraying.

Wooden Dollars Monthly

is published on the first of each month by Illinois Division of Forest Resources to provide woodland owners market outlets for forest products, to protect and sustain the woodland resources of Illinois, and help supply industry with information and raw materials—all for the benefit of society. This document is a PDF available electronically and posted on the IDNR Forest Resources website.

Policy Statements:

Illinois forests and woodlands are critical to the citizens of Illinois and globally far beyond the singular value of wood and fiber production. The Division of Forest Resources integrates and requires on state land and cooperating private lands that important other concerns of soil, water, wildlife, habitats, recreation, aesthetics and cultural resources are addressed while growing, harvesting and regenerating forests. We advocate and outreach forest management principles to all Illinois forest owners.

Demands on Illinois forest resource for all goods and services the forest can provide continue to increase while nearly 90% of Illinois forests remain privately owned. To conserve, enhance and expand the benefits and critical function of Illinois forests it is necessary that forest landowners, government agencies, forest industry and citizens at large work together.

Equal opportunity to participate in programs of the Illinois Department of Natural Resources and those funded by the U.S. D.A. and other agencies is available to every individual regardless of race, sex, national origin, disability, age, religion, or other non-merit factors. If you believe you have been discriminated against contact civil rights office and/or the Equal Opportunity Officer, IDNR, One Natural Resources Way, Springfield, IL 62702-1271; 217-785-0067; TTY 217-782-9175.

Marked Timber: Stumpage For Sale

This newsletter is posted on the IDNR Forest Resources website monthly. Deadline for each monthly issue is the third Thursday of the month prior. All submissions of marked timber for sale by consulting foresters, procurement foresters or others must be submitted by the second Thursday. Submissions by consulting foresters working with IFDA cooperators must adhere to the timber recommendations approved in the landowner's written management plan. Foresters working with landowners at-large must adhere to recommended silviculture for Illinois forest types. Submissions may be sent US Mail to "ORC-Forestry" at our Springfield office or by email to paul.deizman@illinois.gov.

The following **two sales** were marked for cutting by a forester of the Illinois Division of Forest Resources or was marked by a consulting forester or similar professional and reviewed by the Illinois Division of Forest Resources. Volumes have been estimated using the Doyle Rule unless otherwise indicated. Deductions have been made for defects. No volume is tallied for culls. Any interested buyers should contact the landowner or their representative directly. The Illinois Division of Forest Resources does not establish the selling price of timber. Buyers must show proof they are currently licensed or an agent of a licensee under the Illinois Timber Buyers Licensing Act.

SALE #1:

NOTICE OF TIMBER FOR SALE
Edmonds Tract, Macoupin County, IL
June 15, 2017

Sealed bids are now being accepted for the following marked timber on the woodland of **Mr. Richard Edmonds**, located in the **SW ¼ of Section 17 & W ½, of Section 20, Honey Point Township, Macoupin County, IL (Stand 1, 2, and parts of Stand 3 surrounded by Stand 1)**. Merchantable volume was determined by using the *Doyle Tree Scale* (Girard Form Class 78). The individual saleable trees are marked with **ONE BLUE DOT** of paint on the stump and on the main bole. Cull trees were marked with a **BLUE X** and are to be girdled and left if there is no merchantable volume (no merchantable volume was tallied for cull trees).

All licensed buyers bidding on this timber must first contact the seller or his agent and then satisfy themselves by examination as to the quality and quantity of timber offered and accepts the timber with all faults. A prepayment of 10% shall be payable upon award of and as condition of contract.

Tree Species	Number of Trees	Avg. Tree Diameter @ 4.5 ft. (DBH)	Estimated Volume (Board Feet)
White Oak	275	17.7	28,733
Hickory	148	15.6	12,170
Black Oak	90	18.4	11,462
Shingle Oak	61	15.8	4,584
Black Walnut	33	16.2	2,580
Elm	27	16.3	2,065
Ash	18	18.1	2,099
Red Oak	17	20.7	3,435
Pin Oak	10	16.8	992
Black Cherry	7	14.4	400
Hackberry	7	17.7	697
Sycamore	6	18.2	974
Cottonwood	5	22.5	1,105
Totals	704	17.2	62,729
Sale Comments:	This is a good quality sale on around 175 acres of timber. Some steep terrain and watercourse navigation may be necessary. Some logging road structure and staging areas are present. Please notify landowner when visiting the property.		
Timber Sale Requirements:	Illinois Best Management Practices (BMP's) are required for this sale and are explicitly stated in the landowner's timber sale contract.		

Bid Sale: Submit in advance, or bring in person, Attn: Edmonds, a sealed timber bid by June 15th, 2017. The successful bidder must sign a timber sale contract with the seller within **10 days** of receipt of notice award. The seller has the right to reject any or all bids and to waive any defects or irregularities in the bids. Phone-in bids will **not** be accepted.

Landowner's Address: Mr. Richard and Carol Edmonds, 19328 Evans Rd. Carlinville, IL 62626.

TIMBER SALE

Invitation For Bids

Three properties, totaling 298.3 woodland acres, owned by Robert Koehn, Susan Koehn and Charles Koehn, has been marked for timber harvest by Mike Long of Long Forestry Consultation. The properties consist of multiple cutting unit, all accessible from Koehn Rd. The cutting units are all accessible from ridgetop fields. The three properties are broken up into 3 unit's dependent on ownership. Units 1 and 3 are owned by Robert and Susan Koehn, and Unit 2 is owned by Charles Koehn.

All three units will be sold to the highest lump sum bidder. *All three properties are also free of Japanese stilt grass. Therefore, it will be mandatory that all equipment entering the forest on any of the units be cleaned of all dirt to eliminate the spread of Japanese stilt grass. Equipment will have to be inspected prior to unloading.*

Crop damage will have to be paid if harvesting is done in the summer months at the rates listed below:

Corn \$350.00 per acre

Soybeans \$200.00 per acre

Wheat \$325.00 per acre

Silvicultural Objectives

All cutting units were marked to remove over mature white oak, black walnut, and red oak. Secondary objectives are to reduce stocking levels and release mid-story oak species into the canopy. Directional felling will have to be used to prevent damage to residual growing stock. *It will be mandatory that no oak saplings are smashed during tree felling, or used for bumper or turn trees. If an oak must have a tree dropped on it, then it must be cut at the stump first.*

All trees were marked with orange paint at breast height and at the stump.

All marked trees, including "X" trees, were recorded with a Garmin 76CSx GPS unit to record tree locations. "X" trees were not included in the stocking tables and can be harvested at the loggers discretion. Species specific diameter distributions, waypoints, and GIS shapefiles of the property are available upon request. Please email any request to mike@longforestry.com. Volumes were calculated using the Doyle scale, Form Class 78, Mesavage and Girard (1956), 2 inch DBH classes. All volumes are estimated. Long Forestry assumes no responsibility for volume totals.

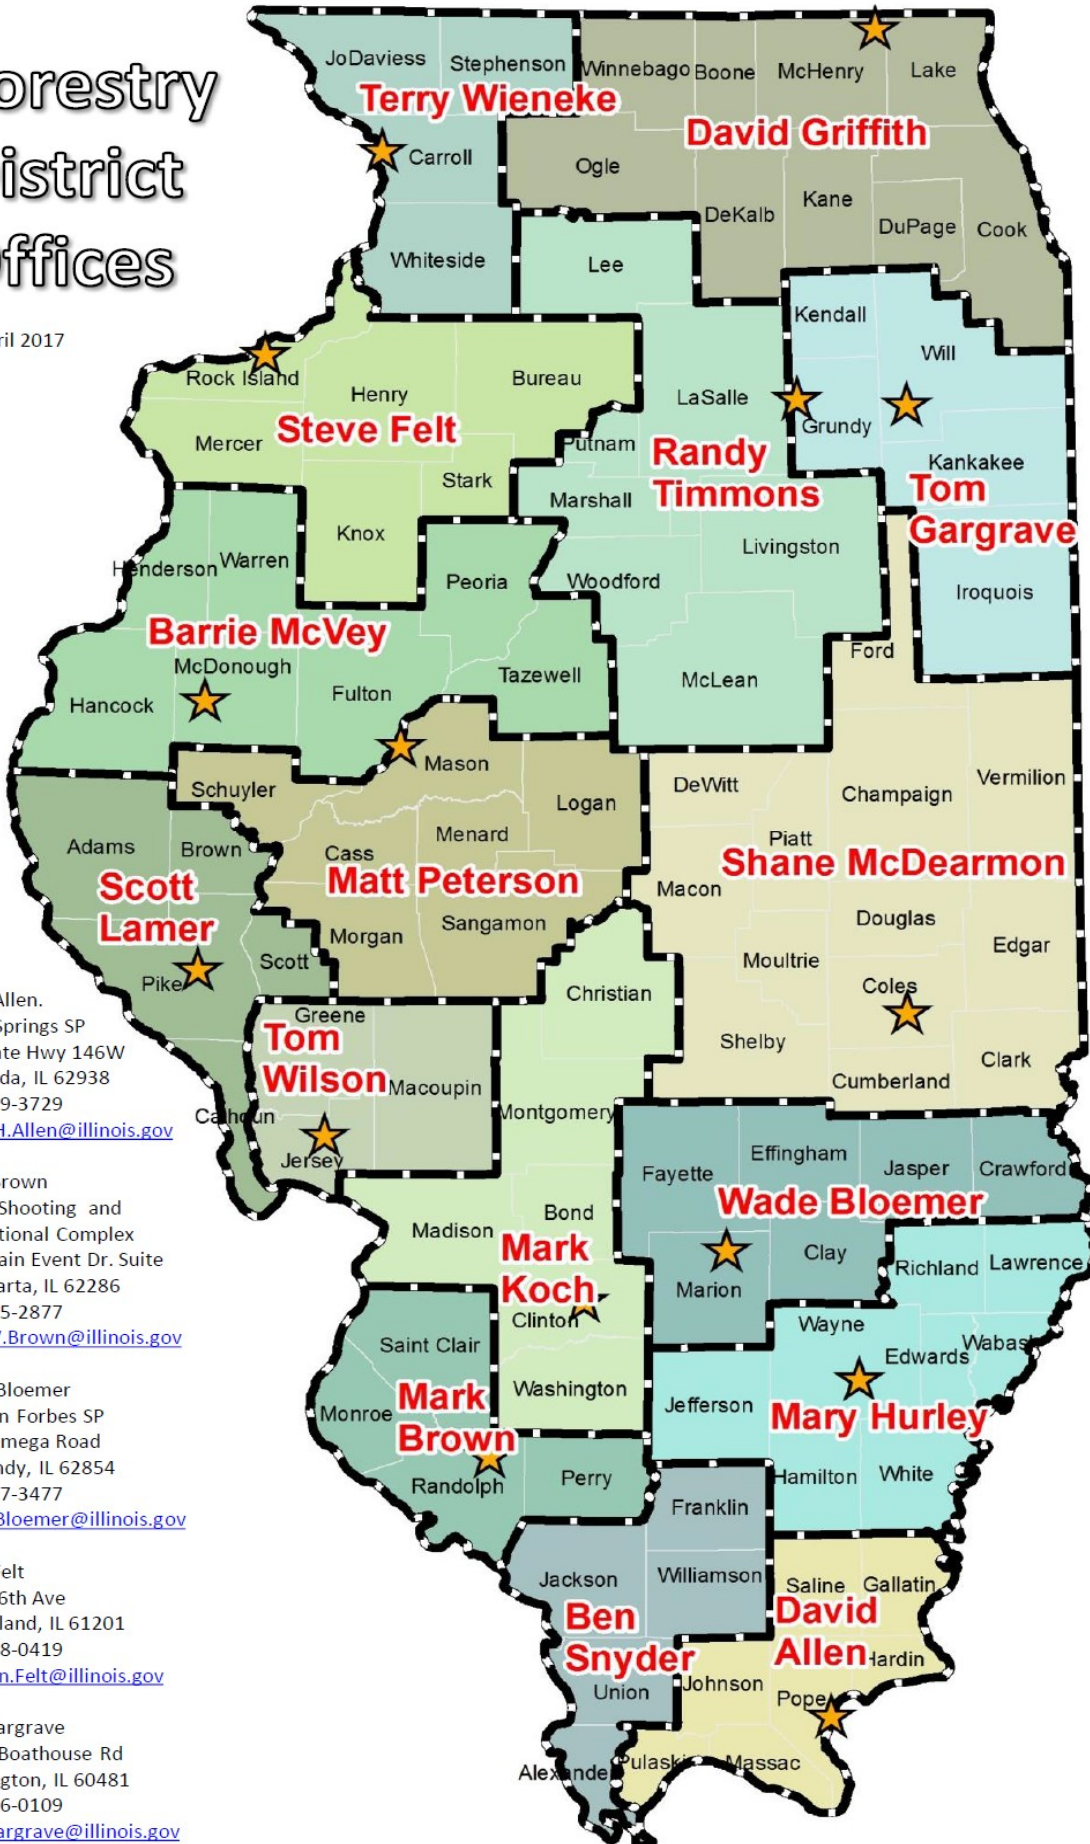

Location: Sec. 11, 12, 13, T8S R5W, Jackson County, Illinois. (see attached maps and aerials). It is highly encouraged that prospective bidders look at the timber to be sold. To view the timber, call Mike Long at (618) 203-4248 to make him aware of your presence on the property.

	# of Trees	Total Bd. Ft.	Ave. Bd. Ft./Tree
Unit 1	315	85777	272
Unit 2	219	61682	282
Unit 3	630	212774	338

Bid Opening: Bids will be opened on June 9, 2017 at 10AM at the offices of Long Forestry. Bidders are welcome to attend the bid opening. All bidders will be notified after the opening.
