

Site: 1130200042/McLean County
Bloomington/ADS-McLean County Landfill 2

Sampling Date: November 7, 2018

Description of sampling: Groundwater samples were collected by personnel from the Illinois EPA and Andrews Engineering. The samples were split for analysis by each party.

Monitoring wells sampled: G110, G115, G215, and G222.

Laboratories performing analysis: Illinois EPA samples were analyzed by Illinois EPA's in-house laboratory. Andrews Engineering samples were analyzed by First Environmental Laboratories.

Sampling results: On the whole, comparison of the relative percent difference between the sample results indicated that the facility's results were acceptable. Copies of the sample results are attached, along with a table comparing the results and their relative percent difference (RPD). ADS-McLean County Landfill 2 is required to address any exceedances observed in its own data set in accordance with the terms of its permit.
