Re: Sterigenics US LLC
Illinois Clean Air Act Permit Program Permit No. 95120085

Dear Ms. Hoffman:

The Illinois Environmental Protection Agency (Illinois EPA) shares the concerns of other state and federal agencies over the findings expressed in the Letter Health Consultation (ATSDR Letter) issued by the Agency for Toxic Substances and Disease Registry (ATSDR), dated August 21, 2018. In order to address these findings, the Illinois EPA must obtain and review the most accurate and up-to-date information relevant to this matter.

Accordingly, Sterigenics must immediately provide the final results of recent stack testing to the Illinois EPA and other interested parties. Sharing this information will not only help to demonstrate Sterigenics' commitment to working with state and federal agencies, as well as the Village of Willowbrook, it will also allow for a more well-informed dialogue over what is happening at the facility.

Therefore, the Illinois EPA requests that Sterigenics provide the stack results immediately. This action will be to the benefit of all parties, most importantly to the residents of Willowbrook and surrounding communities.

If you have any questions, please do not hesitate to contact me. Thank you.

Cordially,

A handwritten signature in blue ink that reads "Alec Messina".

Alec Messina
Director
