Safe Disposal of Medicine

Protect your family and the environment by properly disposing your medications at a pharmaceutical collection location.

Pharmaceutical Collection Locations

Return your medications in the original container to one of many pharmaceutical collection locations throughout the state. Always blackout personal information on the container before returning it to a collection location.

Commonly accepted items include:
- Most prescription and over-the-counter products
- Vitamins and other dietary supplements
- Homeopathic remedies
- Pet medications

Commonly prohibited items Include:
- Illegal drugs
- Medications that include special safety protocols or registration with the drug manufacturer

Special Items
Sharps are only taken by certain sites. Be sure to check!

Questions?
Contact your pharmacist or your nearest collection location about the disposal options for your specific medication.

Programs
The best way to dispose of unwanted medicine is through a collection program. In addition, events, drop-off sites, and instructions on how to properly dispose of your medications from home may be found at https://bit.ly/2HZ4fLy.
