

Healthcare Consortium of Illinois Coordinated Care Entity (HCI-CCE)

OVERVIEW

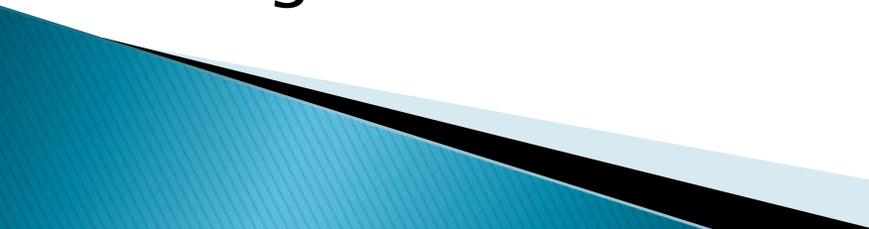

1350 East Sibley Blvd.
Dolton, IL 60419

HCI – The Mission

The Healthcare Consortium of Illinois is an organization of partners committed to developing and maintaining targeted, community-based, integrated health and human service delivery systems which increase the well-being of individuals, families and communities throughout Illinois by means of advocacy, awareness and action.

HCI – A History of Care Coordination

- ▶ Established in 1991 to respond to fragmented, duplicative and inefficient healthcare system in southern regions of metro-Chicago area
 - ▶ Goal – to establish a network of physicians and community-based organizations
 - ▶ Started with 4 hospitals – now 37 diverse organizations
- 

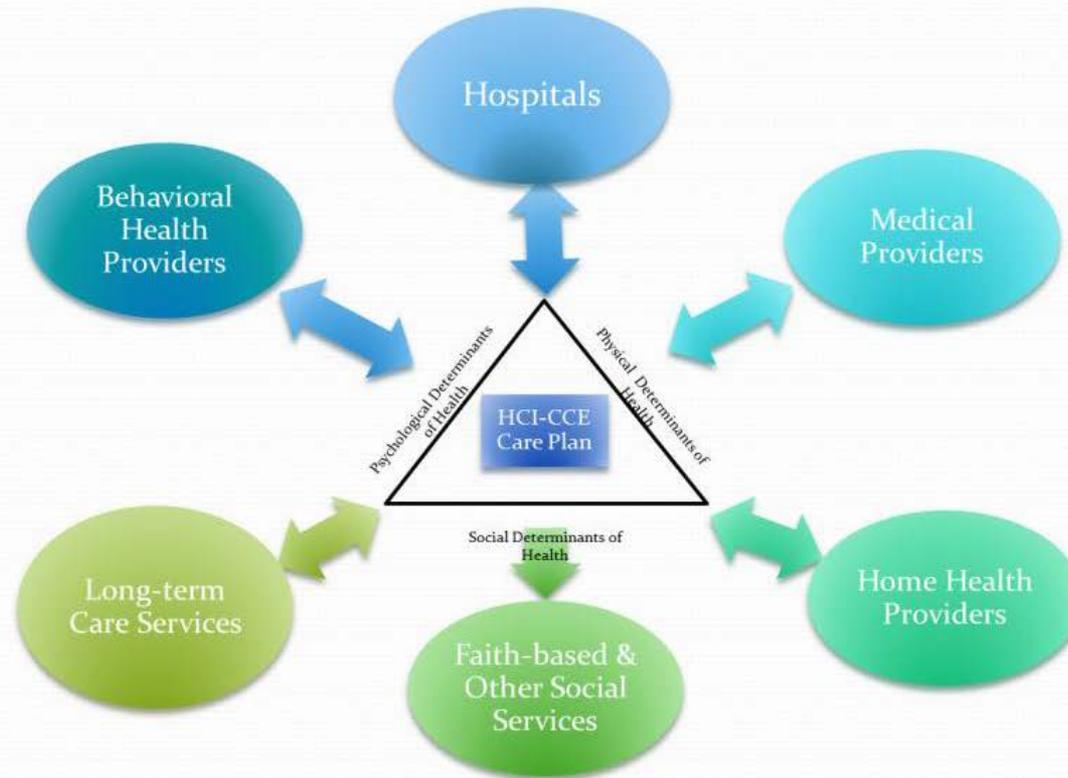

Current HCI Programs serving individuals, families & communities

- ▶ Senior Care – Comprehensive Care Coordination, Flexible Senior Services, Elder Abuse & Neglect, Money Follows the Person
 - ▶ Healthy Start Southeast Chicago – health and social support to pregnant women and newborns
 - ▶ Work Force Development – SNAP, TANF, Senior Employment Services
 - ▶ Neighborhood Recovery Initiative
 - ▶ Faith-based Initiatives
- 

HCI-CCE's Care Coordination Model

- Person-Centered
 - Assessment-Based
 - Interdisciplinary Approach
 - Collaborative Team
 - Identifies a Senior's required clinical care and non-clinical services and facilitates linkages between all facets of the care and services
- 

HCI – CCE CARE COORDINATION MODEL

HCI-CCE >>

The HCI-CCE care coordination model addresses the inter-relational aspects of physical, psychological, and social determinants on a Senior's health status.

Healthcare Consortium of Illinois
Coordinated Care Entity
(HCI-CCE)

Goals and Objectives

1. To increase healthier lifestyle options
 2. To decrease unnecessary emergency room visits
 3. To decrease unnecessary hospital admissions and re-admissions
 4. To decrease provider duplicate services and billing
- 

HCI-CCE Population to be Served

- ▶ The priority population to be served by this collaboration is persons 55 years and older residing in the community and members of their households who also qualify and require care coordination
-

Healthcare Consortium of Illinois Coordinated Care Entity (HCI-CCE)

What makes HCI different from other CCE's?

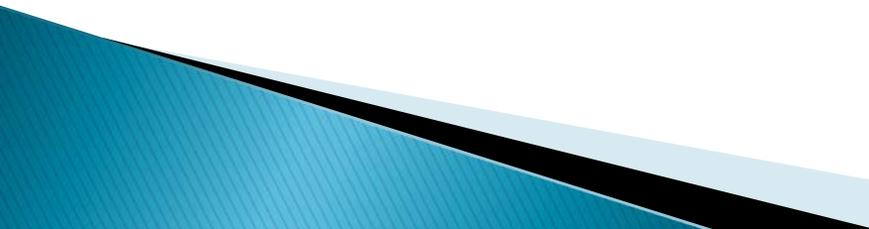

HCI's two innovative components :

- ▶ 1. Bringing care coordination to the home through the use of Patient Navigators and in-home medical services, if required.
 - ▶ 2. Linking all providers to the individualized care plan via a secure, web-portal.
- 

HCI-CCE Collaborators

- ▶ Chosen based on location to provide broadest coverage in geographic area
 - ▶ Scope of services and experience currently serving the medical, behavioral and social needs of population
 - ▶ Financial stability to enroll and retain eligible Senior in care coordination
 - ▶ Many key collaborators are members of HCI and have representative who sit on the HCI Board
- 

HCI-CCE Initial Collaborators

- ▶ Hospitals – University of Chicago Medicine, St. Bernard Hospital, Roseland Hospital & South Shore Hospital
 - ▶ Physicians – Beloved Community Family Wellness Center & Home Health Medical, LLC & Associates
 - ▶ Behavioral Health/Substance Abuse – Human Resources Development Institute (HRDI)
 - ▶ Home Care – Comprehensive Quality Care
 - ▶ And the list continues to grow
-
