Additional Service Area Information

Indicate which region(s) you intend to apply for by selecting the check box in front of the region name. Then select each of the zip codes within that region that you intend to serve. Certain priority zip codes are indicated with bold, underline text. HFS will give preferential consideration to proposals that include more of these priority zip codes. HFS will consider additional zip codes that a PACE organization may wish to include in their application so long as they meet the time and distance standards (30-mile travel distance maximum to serve members in urban settings and maximum 60 miles to serve rural settings). PACE organizations should identify the additional zip codes they wish to cover in the boxes provided below each service region. HFS has the authority to assign priority or other zip codes to any contiguous service region for awarded PACE organizations.
