Rossi

Additional Introductions

- ▶ State Staff
- ▶ Members of the Public

Workgroup Purpose & Scope

- ▶ Advise HFS with respect to the implementation and usage of the IM+CANS in the behavioral health service delivery system.
- ▶ Provide feedback on IM+CANS related policy, operations, technical, and quality improvement activities and initiatives.

Workgroup Structure

- ▶ HFS will serve as technical advisors and administrative support to the workgroup.
- ▶ Meeting schedule, location information, agendas, minutes, and other materials will be posted to the HFS website:
<https://www2.illinois.gov/hfs/MedicalProviders/behavioral/CommunityMentalHealthCenter/Pages/IATP.aspx>.
- ▶ Meetings are open to the public – members of the public will be given opportunities at designated times to provide comments to the Workgroup.
- ▶ Assigned Workgroup Members must vote on approval of minutes and any formal recommendations to HFS.

Ground Rules

- ▶ A quorum must be met for a vote to take place.
- ▶ A majority of the quorum of members may not meet to discuss the committee's business outside of the committee.
 - ▶ 5 or more workgroup members
- ▶ Participate actively in conversation and group work.
- ▶ Encourage others to provide their thoughts.
- ▶ Respect differing points of view.
- ▶ Make the meeting productive and solution-focused.
- ▶ Others?

Meeting Frequency & Schedule

- ▶ Propose meeting every 2 weeks
- ▶ 1st and 3rd Wednesdays?

Purpose of the IM+CANS

- ▶ Provide a foundation for transformation of the behavioral health system.
- ▶ Provide a comprehensive, standardized, integrated platform for assessing the global needs and strengths of customers across the lifespan who require mental health treatment.
- ▶ Link assessment and treatment planning, ensuring there is a thread between identified needs, strengths, and treatment recommendations.
- ▶ Create consistency, standardization, and baseline across the behavioral health system.

Vision of the IM+CANS

1. Person-Centered Treatment
 - a. “Mass customization”
2. Data-Driven Decision Making
 - a. Establishes a baseline dataset from which quality improvement initiatives and outcomes can be measured
3. Workforce Development Initiative
 - a. User certification carries across provider organizations
4. Multi-Payer, Multi-System Platform
 - a. Allows for the reduction of duplicate collection of administrative and clinical data points

Brainstorm – Areas for Discussion
