Therefore, psychiatric hospitals may not receive reimbursement for services provided to patients over the age of 20 and under the age of 65. In the case of a patient receiving psychiatric services immediately preceding his/her 21st birthday, reimbursement for psychiatric services shall be provided until the earliest of the following:

In accordance with subsection (a)(5) of this Section, distinct part psychiatric units and psychiatric hospitals located in the State of Illinois, or within a 100 mile radius of the State of Illinois, must execute a Coordination of Care Agreement in order to participate as a provider of inpatient psychiatric services. The Coordination of Care Agreement shall set forth an agreement between the DHS operated mental health center (State-operated facility) and the hospital for the coordination of services, including but not limited to crisis screening and discharge planning to ensure efficient use of inpatient care. The agreement shall also set forth the manner in which linkage to aftercare services with community mental health agencies or private practitioners shall be carried out.

7) Coordination of Care – General Provisions. The general provisions of the Coordination of Care Agreement described in subsection (a)(6) of this Section are as follows:

agency's resources and other appropriate community alternatives shall be considered prior to making a referral to the State-operated facility for admission;

C) Complete any forms necessary and consistent with the Mental Health and Developmental Disabilities Code in the event of a referral for involuntary or judicial admission;

D) Notify the community mental health agency or private practitioner of the date and time of discharge and invite their participation in the discharge planning process;

E) Refer to the State-operated facility only those individuals for whom less restrictive alternatives are documented not to be appropriate at the time based on a clinical determination by the community mental health agency, a private practitioner (if applicable), or the hospital; and

F) Notify the State-operated facility prior to planned transfer of an individual and transfer the individual at such time as to assure arrival of the person prior to 11 a.m. Monday through Friday. In unusual situations, transfers may be made at other times after prior discussion between the hospital and the State-operated facility. The individual will only be transported to the State-operated facility when, based on a clinical determination, he/she is medically stable as determined by the transferring physician. A copy of the transfer summary from the hospital must accompany the recipient at the time of admission to the State-operated facility.

9) Coordination of Care – Special Requirements of the State-Operated Facility. The State-operated facility shall:

A) Admit individuals who have been screened as defined in the Coordination of Care Agreement and are appropriate for admission consistent with the provisions of the Mental Health and Developmental Disabilities Code.

referral point for a mental health screening and assessment of the patient, pursuant to 59 Ill. Adm. Code 131.40;

B) For admissions authorized through a SASS screening, involve the SASS provider in the patient's treatment plan during the inpatient stay and in the development of a discharge plan in order to facilitate linkage to appropriate aftercare resources.

11) A participating hospital not enrolled for inpatient psychiatric services may provide psychiatric care as a general inpatient service only on an emergency basis for a maximum period of 72 hours or in cases in which the psychiatric services are secondary to the services for which the period of hospitalization is approved.

b) Inpatient Rehabilitation Services

1) Payment for inpatient rehabilitation services shall be made only to a general hospital, as defined in Section 148.25(b), with a functional unit of the hospital, as defined in Section 148.25(c)(2), which specializes in, and is enrolled with the Department to provide, physical rehabilitation services or a hospital, as defined in 89 Ill. Adm. Code 149.50(c)(2), which holds a valid license as, and is enrolled with the Department as, a physical rehabilitation hospital.

d) Hospital-Based Organized Clinic Services. Hospital-based clinics, as described in Section 148.25(b)(4), must meet the requirements of 89 Ill. Adm. Code 140.461(a). The following two categories of hospital-based organized clinic services are recognized in the Medical Assistance Program:

1) Psychiatric Clinic Services
A) Psychiatric Clinic Services (Type A). Type A psychiatric clinic services are clinic service packages consisting of diagnostic evaluation; individual, group and family therapy; medical control; optional Electroconvulsive Therapy (ECT); and counseling, provided in the hospital clinic setting.

B) Psychiatric Clinic Services (Type B). Type B psychiatric clinic services are active treatment programs in which the individual patient is participating in no less than social, recreational, and task-oriented activities at least four hours per day at a minimum of three half days of active treatment per week. The duration of an individual patient's participation in this treatment program is limited to six months in any 12 month period.

C) Coverage. Psychiatric clinic services are covered for all Medicaid-eligible individuals. The services are not covered for TANF participants who are 18 years of age or older.

D) Approval. The Department of Human Services and HFS are responsible for approval and enrollment of community hospitals providing psychiatric clinic services. In order to participate as a provider of psychiatric clinic services, a hospital must have previously been enrolled with the Department for the provision of inpatient psychiatric services on or after June 1, 2002 or must be currently enrolled for the provision of inpatient psychiatric services and execute a Psychiatric Clinic Services Type A and B Enrollment Assurance with DHS and HFS, which assures that the hospital is enrolled for the provision of inpatient psychiatric services and meets the following requisites:

(d)(1)(D) of this Section shall be in effect for a period of two years from the date HFS approves the psychiatric clinic's enrollment. The approval may be terminated by HFS or DHS with cause upon 30 days written notice to the hospital. Accordingly, the hospital must submit a 30 day written notification to HFS and DHS when terminating delivery of psychiatric clinic services.

2)  Physical Rehabilitation Clinic Services

A)  Physical rehabilitation clinic services include the same rehabilitative services provided to inpatients by hospitals enrolled to provide the services described in Section 148.40(b). Clinic services should be utilized when the patient's condition is such that it does not necessitate inpatient care and adequate care and treatment can be obtained on an outpatient basis through the hospital's specialized clinic.

B)  Physical rehabilitation clinic services are not covered for TANF participants who are 18 years of age or older.

e)  Maternal and Child Health Clinics. Maternal and Child Health Clinics, as described in 89 Ill. Adm. Code 140.461(f) and Section 148.25(b)(5), must meet the requirements of 89 Ill. Adm. Code 140.461(f).

3)  In the case of a hospital that was determined by the Department to be a rural hospital at the beginning of the rate period described in Section 148.25(g)(2)(A), those hospitals that shall be treated as sole community hospitals, as described in 89 Ill. Adm. Code 149.125(b), shall elect one of the following payment methodologies to be used by the Department in reimbursing that hospital for inpatient services during the rate period described in Section 148.25(g)(2)(A):

   A)  the DRG PPS, as described in 89 Ill. Adm. Code 149, or

   B)  the rate calculated under Section 148.260.

4)  In the case of a hospital that was not determined by the Department to be a rural hospital at the beginning of the rate period described in Section 148.25(g)(2)(A), those hospitals that shall be treated as sole community hospitals, as described in 89 Ill. Adm. Code 149.125(b), shall elect one of the following payment methodologies to be used by the Department in reimbursing that hospital for inpatient services during the rate period described in Section 148.25(g)(2)(A):

   A)  the DRG PPS, as described in 89 Ill. Adm. Code 149, or

   B)  the rate calculated under Section 148.260.
148.25(g)(2)(A), but was subsequently reclassified by the Department as a rural hospital, as described in Section 148.25(g)(3), on July 14, 1993, those hospitals that shall be treated as sole community hospitals, as described in 89 Ill. Adm. Code 149.125(b), shall elect one of the following payment methodologies to be used by the Department in reimbursing that hospital for inpatient admissions, or, if applicable, for inpatient services provided on October 1, 1993, and for the duration of the rate period described in Section 148.25(g)(2)(A):

A) the DRG PPS, as described in 89 Ill. Adm. Code 149, subject to the provisions of 89 Ill. Adm. Code 149.100(c)(1), or

B) the rate calculated under Section 148.260 that would have been in effect for the rate period described in Section 148.25(g)(2)(A) if the hospital had been designated as a sole community hospital on October 1, 1992.

5) For the rate periods described in Section 148.25(g)(2)(B), hospitals, as described in 89 Ill. Adm. Code 149.125(b), shall elect one of the following payment methodologies to be used by the Department in reimbursing that hospital for inpatient admissions, or, if applicable, for inpatient services provided during such rate periods described in Section 148.25(g)(2)(B):

A) the DRG PPS, as described in 89 Ill. Adm. Code 149, subject to the provisions of 89 Ill. Adm. Code 149.100(c)(1), or

B) the rate calculated under Section 148.260.

g) Annual Irrevocable Election

1) Hospitals described in subsections (f)(2) and (f)(3) of this Section may elect to be reimbursed under the special arrangements described in subsections (f)(2) and (f)(3) at the beginning of each rate period.

2) Hospitals described in subsection (f)(4) of this Section may elect to be reimbursed under the special arrangements described in subsection (f)(4) effective with admissions, or, if applicable, with inpatient services provided, on October 1, 1993, and for the duration of the rate period described in Section 148.25(g)(2)(A).

3) Hospitals described in subsection (f)(5) of this Section may elect to be reimbursed under the special arrangements described in subsection (f)(5) at the beginning of each rate period described in Section 148.25(g)(2)(B).

4) Once a sole community hospital elects to be reimbursed under the DRG PPS, it may not later in that rate period elect to be classified as exempt. Once a sole community hospital elects to be reimbursed as exempt, it may not later in that rate period elect to be reimbursed under the DRG PPS.

5) Hospitals that, on August 31, 1991, had a contract with the Department under the Illinois Health Finance Reform Act may elect to continue to be reimbursed at rates stated in such contracts for general and specialty care. Once such election has been made, the hospital may not later in that rate period elect to be reimbursed under any other methodology.
6) Hospitals that, on August 31, 1991, had a contract with the Department under the Illinois Health Finance Reform Act and have elected to be reimbursed under the DRG PPS may not later elect to be reimbursed at rates stated in such contracts.

h) Notification of Reimbursement Methodology

1) Hospitals shall receive notification from the Department with respect to the reimbursement methodologies that shall be in effect for admissions occurring during the rate period.

2) Hospitals described in subsections (f)(2), (f)(3), (f)(4), and (f)(5) of this Section shall receive notification of their reimbursement options accompanied by a Choice of Reimbursement form. Each hospital described in subsections (f)(2), (f)(3), (f)(4), and (f)(5) shall have 30 days after the date of such notification to file, with the Department, the reimbursement method of choice for the rate period. In the event the Department has not received the hospital's Choice of Reimbursement form within 30 days after the date of notification, as described in this Section, the hospital will automatically be reimbursed for the rate period under the reimbursement methodology that would have been in effect without benefit of the election described in subsection (g) of this Section.

i) Zero Balance Bills. The Department requires a hospital to submit a bill for any inpatient service provided to an Illinois Medicaid eligible person, including newborns, regardless of payor. A "zero balance bill" is one on which the total "prior payments" are equal to or exceed the Department's liability on the claim. The Department requires that zero balance bills be submitted subsequent to discharge in the same manner as are other bills so that information can be available for the maintenance of accurate patient profiles and diagnosis-related grouping (DRG) data, and information needed for calculation of disproportionate share and other rates. The provisions of this subsection apply to all hospitals regardless of the reimbursement methodology under which they are reimbursed.

Section 148.50 Covered Hospital Services

a) The Department shall pay hospitals for the essential provision of inpatient, outpatient, and clinic diagnostic and treatment services not otherwise excluded or limited which are provided by a hospital, as described in Section 148.25(b), or a distinct part unit, as described in Section 148.25(c), and which are provided in compliance with hospital licensing standards. Payment may be made for the following types of care subject to the special requirements described in Section 148.40:

1) General/specialty services;
2) Psychiatric services;
3) Rehabilitation services; and
4) End-Stage Renal Disease Treatment (ESRDT) services.

b) Certain programs are administered as hospital covered services with certain restrictions. These programs include hospital residing long term care services, subacute alcoholism and substance abuse treatment services, and the transplant program.

c) Hospital Residing Long Term Care Services

1) Long term care services are not considered by the Department to be hospital services unless the hospital is enrolled with the Department specifically to provide hospital residing long term care services as a hospital-based long term care facility. Hospital residing long term care is care provided by hospitals to non-acute patients requiring chronic, skilled nursing care when a skilled nursing facility bed is not available, or non-acute care provided by hospitals that is not routinely performed within a skilled setting, such as ventilator care, when appropriate placements are not available to discharge the patient. Hospitals may not utilize the following beds or facilities for hospital services unless the hospital is enrolled with the Department to provide hospital residing long term care:

A) A special unit or specified beds which are certified for skilled nursing facility services under the Medicare Program; or
B) A special unit or separate facility administratively associated with the hospital and licensed as a long term care facility.

2) There are three categories of service for hospital residing long term care. These categories are as follows:

A) Skilled Care – Hospital Residing (category of service 37)
Reimbursement is available for hospitals providing hospital residing long term care when the patients' needs reflect routine skilled care and the inability to place the patient is due to unavailability of a skilled nursing bed. Reimbursement for this type of care is at the average statewide rate for skilled nursing care. For a hospital to be eligible for such reimbursement, the following criteria must be met:

i) The hospital must document its attempt to place the patient in at least five appropriate facilities.

ii) Documentation (form DPA 3127) must be attached to the appropriate claim form and submitted to the Department.

iii) Reimbursement is limited to services provided after the minimum number of contacts have been made. Reimbursement will not be made for services which were billed as acute inpatient care and denied as not being medically necessary. Reimbursement will be made for up to a maximum of 31 days before additional documentation must be submitted to extend the eligibility for additional reimbursement.

B) Exceptional Care – Hospital Residing (category of service 38)
Reimbursement is available for hospitals providing hospital residing long term care when the level of care is not routinely performed within a skilled setting, such as ventilator care, and the patient cannot be placed in a skilled nursing facility because the level of care is not available. Exceptional care is defined by the Department as the level of care required by persons who are medically stable and ready for discharge from a hospital but who require a multidisciplinary level of care for physician, nurse, and ancillary specialist services with exceptional costs related to extraordinary equipment and supplies that have been determined to be a medical necessity. This includes, but is not limited to, persons with acquired immune deficiency syndrome (AIDS) or a related condition, head injured persons, and ventilator dependent persons. Reimbursement for this type of care is at the average statewide rate for exceptional care. For a hospital to be eligible for such reimbursement, the following criteria must be met:

i) The hospital must document its attempt to place the patient in at least five appropriate facilities.

ii) Documentation (form DPA 3127) must be attached to the appropriate claim form and submitted to the Department.
iii) Reimbursement is limited to services provided after the minimum number of contacts have been made. Reimbursement will not be made for services which were billed as acute inpatient care and denied as not being medically necessary. Reimbursement will be made for up to a maximum of 31 days before additional documentation must be submitted to extend the eligibility for additional reimbursement.

C) DD/MI Non-Acute Care – Hospital Residing (category of service 39)
Reimbursement is available for hospitals providing hospital residing long term care when the pre-admission screening agent has not completed the assessment, planning or discharge process. Reimbursement for this type of care is at the average statewide DD/MI rate. For a hospital to be eligible for such reimbursement, the following criteria must be met:

i) The hospital must document that the pre-admission screening agent has not completed the assessment, planning or discharge process.

ii) Reimbursement is limited to a maximum of three non-acute level of care days. Reimbursement will not be made for services which were billed as acute inpatient care and denied as not being medically necessary.

d) Subacute Alcoholism and Substance Abuse Treatment Services

1) Subacute alcoholism and other substance abuse treatment is a covered service for clients under Title XIX (Medicaid) and for children 13 to or through 18 years of age in Family and Children Assistance cases in the City of Chicago.

2) Only acute alcoholism and substance abuse treatment services (detoxification) are covered as hospital services. Regulations regarding reimbursement for subacute alcoholism and substance abuse treatment services may be found under Sections 148.340 through 148.390.

e) Transplant Program
The Medical Assistance Program provides for payment for organ transplants only when provided by a certified transplantation center as described in Section 148.82. Payment for kidney and cornea transplants does not require enrollment as an approved transplantation center. Payment for kidney and cornea transplants is made in accordance with the appropriate methodology described in Sections 148.160, 148.170, 148.250 through 148.300, or 89 Ill. Adm. Code 149.100 and 149.150. Kidney acquisition costs shall be reimbursed in accordance with 89 Ill. Adm. Code 149.150(c)(5). Payment for bone marrow, heart, liver, pancreas, kidney/pancreas and other types of transplant procedures may be covered and reimbursed in accordance with Section 148.82 provided the hospital is certified by the Department to perform the transplant.

Section 148.60 Services Not Covered as Hospital Services

Certain services, although included in the Medical Assistance Program and under certain circumstances provided in the hospital setting or by an entity associated with the hospital, are not reimbursed by the Department as hospital services. In addition, certain services currently provided in the hospital outpatient and hospital-based clinic setting are subject to fee-for-service payment methodologies. This means that for these services, hospitals shall be required to conform to the policies and billing procedures in effect for other non-hospital providers of services. Payment for these services shall be based on the same fee schedule that applies to these services when they are provided in the non-hospital setting. Services not covered or reimbursed as hospital services are as follows:

a) Private Duty Nursing Services. Private duty nursing services for hospitalized program participants are not covered under the Medical Assistance Program. Hospitals are expected to provide all required nursing services.

b) Sitter Services. Sitter services for hospitalized program participants are not covered under the Medical Assistance Program.

c) Dental Services. Hospitals may not enroll to provide dental services. When dental services are provided in the outpatient/clinic setting of a hospital, the dentist shall submit charges to the Department according to the provisions of the Dental Program.

d) Nurse Anesthetist Services. Payment for general anesthesia services not reimbursed under 89 Ill. Adm. Code 140.400 shall be made only to hospitals that qualify for these payments under the Medicare Program (Social Security Act, Title XVIII) and shall be made to such hospitals when provided by a hospital employed nonphysician anesthetist (Certified Registered Nurse Anesthetist or "CRNA").

e) Pharmacy Services. Policy and reimbursement for pharmacy services are described in 89 Ill. Adm. Code 140.440 through 140.450. A hospital pharmacy may enroll on a fee-for-service basis for services provided to a patient in:

1) A specified bed or special hospital unit which is certified for skilled nursing facility services under the Medicare Program;

2) A special hospital unit or separate facility which is administratively associated with the hospital and is licensed as a long term care facility; or
3) The outpatient/clinic setting when the services provided are not unique to the hospital setting.

f) Medical Transportation Services. A hospital that owns and operates medical transportation vehicles as a separate entity (for example, a private corporation) must enroll as a medical transportation provider. A hospital that owns and operates medical transportation vehicles that are included on the hospital's cost report as a cost center of the hospital may not submit a separate claim for transportation services provided to persons admitted as inpatients. Policy and reimbursements for medical transportation services is described in 89 Ill. Adm. Code 140.490 through 140.492.

g) Home Health Services. Home health services are not considered by the Department to be hospital services. A home health agency that is administratively associated with a hospital and that is certified for participation as a home health agency by the Medicare Program may apply for participation for the provision of home health services. Policy and reimbursement for home health services is described in 89 Ill. Adm. Code 140.470 through 140.474.

h) Subacute Alcoholism and Substance Abuse Treatment Services. Only acute alcoholism and substance abuse treatment services (i.e., detoxification) are covered as hospital services. Regulations regarding reimbursement for subacute alcoholism and substance abuse treatment services may be found under Sections 148.340 through 148.390.

i) Hospice Services. Hospice is an alternative to traditional Medicaid coverage. The Hospice Program is responsible for all the client's medical needs related to a terminal illness. If a client chooses the Hospice Program, a physician must certify that the client is terminally ill and has a life expectancy of six months or less.

Section 148.70 Limitation On Hospital Services

a) Payment for inpatient hospital care in general and specialty hospitals, including psychiatric hospitals, shall be made only when it is recommended by a qualified physician, and the care is essential as determined by the appropriate utilization review authority. For hospitals or distinct part units reimbursed on a per diem basis under Sections 148.160 through 148.170 and 148.250 through 148.300, payment shall not exceed the number of days approved for the recipient's care by the appropriate utilization review authority (see Section 148.240). If Medicare benefits are not paid because of non-approval by the utilization review authority, payment shall not be made on behalf of the Department.

b) For hospitals or distinct part units reimbursed on a per case basis, payment for inpatient hospital services shall be made in accordance with 89 Ill. Adm. Code Part 149.

c) For hospitals, or distinct part units reimbursed on a per diem basis, under Sections 148.160 through 148.170 and 148.250 through 148.300, payment for inpatient hospital services shall be made based on calendar days. The day of admission shall be counted. The day of discharge shall not be counted. An admission with discharge on the same day shall be counted as one day. If a recipient is admitted, discharged and re-admitted on the same day, only one day shall be counted.

d) In obstetrical cases, payment for services to both the mother and the newborn child shall be made at one per diem rate, or one per case rate, whichever is applicable. Only in instances in which the medical condition of the newborn, as certified by the utilization review authority, necessitates care in other than the newborn nursery, shall payment be made in the child's name separately.

e) Payment for inpatient psychiatric hospital care in a psychiatric hospital, as defined in 89 Ill. Adm. Code 149.50(c)(1), shall be made only when such services have been provided in accordance with federal regulations at 42 CFR 441, subparts C and D.

f) Payment for transplantation costs (with the exception of kidney and cornea transplants), including organ acquisition costs, shall be made only when provided by an approved transplantation center as described in Section 148.82. Payment for kidney and cornea transplantation costs does not require enrollment as an approved transplantation center and is only provided to hospitals reimbursed on a per case
basis in accordance with 89 Ill. Adm. Code 149.

**g)** Effective with inpatient hospital admissions on or after July 1, 2012, the Department shall reduce the payment for a claim that indicates the occurrence of a provider preventable condition during the admission as specified in this subsection (g).

1) Until such time as the All Patient Refined Diagnosis Related Groups (APR-DRG) is implemented by the Department in rule, as authorized by Section 14-11 of the Public Aid Code, the Department shall reduce each claim that indicates the occurrence of a health care acquired condition (HAC) by $900.

2) After the APR-DRG is implemented by the Department in rule, as authorized by Section 14-11 of the Public Aid Code, the Department shall reduce each claim by the amount that the payment on the claim is increased directly due to the occurrence of and treatment for the HAC.

3) The Department shall not pay for services related to Other Provider Preventable Conditions (OPPCs).

4) For HACs, hospitals shall code inpatient claims with a Present on Admission (POA) indicator for principal and secondary diagnosis codes billed. For OPPCs, hospitals shall submit claims to report these incidents and will be instructed to populate the inpatient claims with specific supplementary diagnosis coding.

5) Definitions. As used in this subsection (g), the following terms are defined as follows:

"Provider Preventable Condition" means a health care acquired condition as defined under the federal Medicaid regulation found at 42 CFR 447.26 (2012) or an Other Provider Preventable Condition.

"Other Provider Preventable Condition" means a wrong surgical or other invasive procedure performed on a patient, a surgical or other invasive procedure performed on the wrong body part, or a surgical procedure or other invasive procedure performed on the wrong patient.

**h)** Payment for caesarean sections shall be at the normal vaginal delivery rate unless a caesarean section is medically necessary.

Section 148.80  Organ Transplants Services Covered Under Medicaid (Repealed)

(Source:  Repealed at 17 Ill. Reg. 14643, effective August 30, 1993)
Section 148.82 Organ Transplant Services

a) Introduction
The Department of Public Aid will cover organ transplants as identified under subsection (b) of this Section that are provided to United States citizens or aliens who are lawfully admitted for permanent residence in the United States under color of law pursuant to 42 USC 1396a(a) and 1396b(v). Such services must be provided by certified organ transplant centers which meet the requirements specified in subsections (c) through (h) of this Section.

b) Covered Services

1) Inpatient heart, heart/lung, lung (single or double), liver, pancreas or kidney/pancreas transplantation. Inpatient bone marrow transplants, inpatient and outpatient stem cell transplants.

2) Inpatient intestinal (small bowel or liver/small bowel) transplantation for children only (see subsection (d)(1)(H) of this Section).

3) Other types of transplant procedures may be covered when a hospital has been certified by the Department as a transplant center eligible to perform such transplants. Centers must complete the certification process established in subsection (c) of this Section and provide the necessary documentation of the number of transplant procedures performed and the survival rates.

4) Medically necessary work-up.

c) Certification Process

1) In order to be certified to receive reimbursement for transplants performed on Medical Assistance and KidCare patients, the hospital must:

A) Request an application from the Bureau of Comprehensive Health Services;

B) Submit a completed application to the Department for the type of transplant for which the center is seeking certification;
C) Meet certification criteria established in subsection (d) of this Section, based upon review and recommendation of each application by the State Medical Advisory Committee (SMAC); and

D) Submit a detailed status report on each patient for the type of transplant for which the hospital is seeking certification. Such reports must include the patient's diagnosis, date of transplant, the length of hospitalization, charges, survival rates, patient-specific transplant outcome, and complications (including cause of death, if applicable) for all transplants performed in the time frames required for the type of transplant indicated in subsections (d)(1)(C), (D), (E), (F), (G), (H), (I) or (J) of this Section. To protect the privacy of patients included in this report, names of patients who are not covered under Medical Assistance or KidCare are not required.

2) The Department shall notify the hospital of approval or denial of the hospital as a transplant center for Medical Assistance and KidCare eligible patients.

3) In the event the Department receives a request for prior approval to provide a service from a hospital not formally certified under this Section, the Department may approve the request if it determines that circumstances are such that the health, safety and welfare of the recipient would best be served by receiving the service at that hospital. In making its determination, the Department shall take into account the hospital's and its medical staff's ability and qualifications to provide the service, the burden on the recipient's family if a certified hospital is a great distance from their home, and the urgent nature of the transplant.

4) A joint application combining the statistical data for the adult and pediatric programs from two affiliated hospitals that share the same surgeons may be submitted for review by the State Medical Advisory Committee. The hospitals must meet the criteria under subsections (d)(1)(A), (B), (K), (L), (M), (N), (O), (P) and (Q), the applicable criteria under subsections (d)(1)(C), (D) or (J) and (d)(1)(R), subsections (d)(2), (3) and (4), and subsection (e) of this Section for certification and recertification.

d) Certification Criteria

1) Hospitals seeking certification as a transplant center shall submit documentation to verify that:

A) The hospital is capable of providing all necessary medical care required by the transplant patient;

B) The hospital is affiliated with an academic health center;

C) The hospital has had the transplant program for inpatient adult heart and liver transplants in operation for at least three years with 12 transplant procedures per year for the past two years and 12 cases in the three year period preceding the most current two year period for adult heart and liver transplants;

D) The hospital has had the transplant program for inpatient adult
heart/lung and lung transplants in operation for at least three years with ten transplant procedures per year for the past two years and ten cases in the three year period preceding the most current two year period for adult heart/lung and lung transplants;

E) A hospital specializing in inpatient pediatric heart/lung and lung transplants has had a program in operation for at least three years and has performed a minimum of six transplant procedures per year for the past two years, and six procedures in the three year period preceding the most current two year period;

B) Total inpatient charges, associated with inpatient days as described in subsection (d)(4) of this Section, shall be multiplied by the hospital's cost to charge ratio, as described in subsection (d)(1) of this Section, to derive total inpatient cost.

C) Total inpatient costs, as defined in subsection (b)(1)(B) of this Section, are divided by the total inpatient days, as described in subsection (d)(4) of this Section, to derive an inpatient cost per day.

D) Inpatient payment per day, as defined in subsection (b)(1)(A) of this Section, shall be subtracted from the inpatient cost per day, as described in subsection (b)(1)(C) of this Section, to derive an inpatient cost coverage deficit per day. The minimum result shall be no lower than zero.

14) For hospitals qualifying under subsection (a)(14), the rate is $47.00 for dates of service on or after July 1, 2010 through December 31, 2014. For dates of service on or after January 1, 2015, the rate is $0.00.

c) Payment to a Qualifying Hospital

1) The total annual payments to a qualifying hospital shall be the product of the hospital's rate multiplied by the Medicaid outpatient ambulatory procedure listing services in the outpatient assistance adjustment base year.

2) For the outpatient assistance adjustment period for fiscal year 2010 and after, total payments will equal the amount determined using the methodologies described in subsection (c)(1) of this Section and shall be paid to the hospital, at least, on a quarterly basis.

3) Payments described in this Section are subject to federal approval.

d) Definitions
1) "Emergency care percentage" means a fraction, the numerator of which is the total Group 3 ambulatory procedure listing services as described in Section 148.140(b)(1)(C), excluding services for individuals eligible for Medicare, provided by the hospital in State fiscal year 2005 contained in the Department's data base adjudicated through June 30, 2006, and the denominator of which is the total ambulatory procedure listing services as described in Section 148.140(b)(1), excluding services for individuals eligible for Medicare, provided by the hospital in State fiscal year 2005 contained in the Department's data base adjudicated through June 30, 2006.

2) "General acute care hospital" is a hospital that does not meet the definition of a hospital contained in 89 Ill. Adm. Code 149.50(c).

3) "Outpatient Ambulatory Procedure Listing Payments" means, for a given hospital, the sum of payments for ambulatory procedure listing services as described in Section 148.140(b)(1), excluding payments for individuals eligible for Medicare under Title XVIII of the Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring in the outpatient assistance base period that were adjudicated by the Department through June 30, 2006.

4) "Outpatient assistance year" means, beginning January 1, 2007, the 6-month period beginning on January 1, 2007 and ending June 30, 2007, and beginning July 1, 2007, the 12-month period beginning July 1 of the year and ending June 30 of the following year.

5) "Outpatient assistance base period" means the 12-month period beginning on July 1, 2004 and ending June 30, 2005.

6) "Surgical group outpatient ambulatory procedure listing services" means, for a given hospital, the sum of ambulatory procedure listing services as described in Section 148.140(b)(1)(A), excluding services for individuals eligible for Medicare under Title XVIII of the Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring in the outpatient assistance base period that were adjudicated by the Department through June 30, 2006.

7) "Non-emergency/screening outpatient ambulatory procedure listing services" means, for a given hospital, the sum of ambulatory procedure listing services as described in Section 148.140(b)(1)(C)(iii), excluding services for individuals eligible for Medicare under Title XVIII of the Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring in the outpatient assistance base period that were adjudicated by the Department through June 30, 2006.

8) "High tech diagnostic Medicaid outpatient ambulatory procedure listing services" means, for a given hospital, the sum of ambulatory procedure listing services described in Section 148.140(b)(1)(B)(ii), excluding services for individuals eligible for Medicare under Title XVIII of the Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring in the outpatient assistance base period that were adjudicated by the Department through June 30, 2006.
Payment Limitations: In order to be eligible for any new payment or rate increase under this Section that would otherwise become effective for dates of service on or after July 1, 2010, a hospital located in a geographic area of the State in which the Department mandates some or all of the beneficiaries of the Medical Assistance Program residing in the area to enroll in a Care Coordination program as defined in 305 ILCS 5/5-30 must be a Coordinated Care Participating Hospital as defined in Section 148.295(g)(5). This payment limitation takes effect six months after the Department begins mandatory enrollment in the geographic area.

Section 148.120  Disproportionate Share Hospital (DSH) Adjustments

Disproportionate Share Hospital (DSH) adjustments for inpatient services provided prior to October 1, 2003, shall be determined and paid in accordance with the statutes and administrative rules governing the time period when the services were rendered. The Department shall make an annual determination of those hospitals qualified for adjustments under this Section effective October 1, 2003, and each October 1, thereafter unless otherwise noted.

a) Qualified Disproportionate Share Hospitals (DSH). For inpatient services provided on or after October 1, 2003, the Department shall make adjustment payments to hospitals that are deemed as disproportionate share by the Department. A hospital may qualify for a DSH adjustment in one of the following ways:

1) The hospital's Medicaid inpatient utilization rate (MIUR), as defined in subsection (i)(4) of this Section, is at least one standard deviation above the mean Medicaid utilization rate, as defined in subsection (i)(3) of this Section.

2) The hospital's low income utilization rate exceeds 25 per centum. For this alternative, payments for all patient services (not just inpatient) for Medicaid, Family and Children Assistance (formerly known as General Assistance) and/or any local or State government-funded care, must be counted as a percentage of all net patient service revenue. To this percentage, the percentage of total inpatient charges attributable to inpatient charges for charity care (less payments for Family and Children Assistance inpatient hospital services, and/or any local or State government-funded care) must be added.

b) In addition, to be deemed a DSH hospital, a hospital must provide the Department, in writing, with the names of at least two obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals entitled to such services under a State Medicaid plan. In the case of a hospital located in a rural area (that is, an area outside of a Metropolitan Statistical Area, as defined by the Executive Office of Management and Budget), the term "obstetrician" includes any physician with staff privileges to perform nonemergency obstetric procedures at the hospital. This requirement does not apply to a hospital in which the inpatients are predominantly individuals under 18 years of age; or does not offer nonemergency obstetric services as of December 22, 1987. Hospitals that do not offer nonemergency obstetrics to the general public, with the exception of those
hospitals described in 89 Ill. Adm. Code 149.50(c)(1) through (c)(4), must submit a statement to that effect.

c) In making the determination described in subsection (a)(1) of this Section, the Department shall utilize:

1) Hospital Cost Reports

A) The hospital's final audited cost report for the hospital's base fiscal year. Medicaid inpatient utilization rates, as defined in subsection (i)(4) of this Section, which have been derived from final audited cost reports, are not subject to the Review Procedure described in Section 148.310, with the exception of errors in calculation.

B) In the absence of a final audited cost report for the hospital's base fiscal year, the Department shall utilize the hospital's unaudited cost report for the hospital's base fiscal year. Due to the unaudited nature of this information, hospitals shall have the opportunity to submit a corrected cost report for the determination described in subsection (a)(1) of this Section. Submittal of a corrected cost report in support of subsection (a)(1) of this Section must be received or post marked no later than the first day of July preceding the DSH determination year for which the hospital is requesting consideration of such corrected cost report for the determination of DSH qualification. Corrected cost reports which are not received in compliance with these time limitations will not be considered for the determination of the hospital's MIUR as described in subsection (i)(4) of this Section.

C) In the event of extensions to the Medicare cost report filing process, those hospitals that do not have an audited or unaudited base year Medicaid cost report on file with the Department by the 30th of April preceding the DSH determination are required to complete and submit to the Department a Hospital Day Statistics Collection (HDSC) form. On the form, hospitals must provide total Medicaid days and total hospital days for the hospital's base fiscal year. The HDSC form must be submitted to the Department by the April 30th preceding the DSH determination.

i) If the Medicare deadline for submitting base fiscal year cost reports falls within the month of June preceding the DSH determination, hospitals, regardless of their base fiscal year end date, will have until the first day of August preceding the DSH determination to submit changes to their Medicaid cost reports for inclusion in the final DSH calculations. In this case, the HDSC form will not be used as a data source for the final rate year DSH determination.

ii) If the Medicare deadline for submitting base fiscal year cost reports is extended beyond the month of June preceding the DSH determination, the HDSC form will be used in the final DSH determination for all hospitals that do not have an audited or unaudited Medicaid cost report on file with the
Department. Hospitals will have until the first day of July to submit any adjustments to the information provided on the HDSC form sent to the Department on April 30.

D) Hospitals' Medicaid inpatient utilization rates, as defined in subsection (i)(4) of this Section, which have been derived from unaudited cost reports or the HDSC form, are not subject to the Review Procedure described in Section 148.310, with the exception of errors in calculation. Pursuant to subsections (c)(1)(B) and (c)(1)(C)(ii) of this Section, hospitals shall have the opportunity to submit corrected information prior to the Department's final DSH determination.

E) In the event a subsequent final audited cost report reflects an MIUR, as described in subsection (i)(4) of this Section, which is lower than the Medicaid inpatient utilization rate derived from the unaudited cost report or the HDSC form utilized for the DSH determination, the Department shall recalculate the MIUR based upon the final audited cost report, and recoup any overpayments made if the percentage change in the DSH payment rate is greater than five percent.

2) Days Not Available from Cost Report

Certain types of inpatient days of care provided to Title XIX recipients are not available from the cost report, i.e., Medicare/Medicaid crossover claims, out-of-state Title XIX Medicaid utilization levels, Medicaid Health Maintenance Organization (HMO) days, hospital residing long term care days, and Medicaid days for alcohol and substance abuse rehabilitative care under category of service 35. To obtain Medicaid utilization levels in these instances, the Department shall utilize:

A) Medicare/Medicaid Crossover Claims.

i) For DSH determination years on or after October 1, 1996, the Department will utilize the Department's paid claims data adjudicated through the last day of June preceding the DSH determination year for each hospital's base fiscal year. Provider logs as described in the following subsection (c)(3)(A)(ii) will not be used in the determination process for DSH determination years on or after October 1, 1996.

ii) For DSH determination years prior to October 1, 1996, hospitals may submit additional information to document Medicare/Medicaid crossover days that were not billed to the Department due to a determination that the Department had no liability for deductible or coinsurance amounts. That information must be submitted in log form. The log must include a patient account number or medical record number, patient name, Medicaid recipient identification number, Medicare identification number, date of admission, date of discharge, the number of covered days, and the total number of Medicare/Medicaid crossover days. That log must include all Medicare/Medicaid crossover days billed to the Department and all Medicare/Medicaid crossover days which
were not billed to the Department for services provided during the hospital's base fiscal year. If a hospital does not submit a log of Medicare/Medicaid crossover days that meets the above requirements, the Department will utilize the Department's paid claims data adjudicated through the last day of June preceding the DSH determination year for the hospital's applicable base fiscal year.

B) Out-of-state Title XIX Utilization Levels. Hospital statements and verification reports from other states will be required to verify out-of-state Medicaid recipient utilization levels. The information submitted must include only those days of care provided to out-of-state Medicaid recipients during the hospital's base fiscal year.

C) HMO days. The Department will utilize the Department's HMO claims data available to the Department as of the last day of June preceding the DSH determination year, or specific claim information from each HMO, for each hospital's base fiscal year to determine the number of inpatient days provided to recipients enrolled in an HMO.

D) Hospital Residing Long Term Care Days. The Department will utilize the Department's paid claims data adjudicated through the last day of June preceding the DSH determination year for each hospital's base fiscal year to determine the number of hospital residing long term care days provided to recipients.

E) Alcohol and Substance Abuse Days. The Department will utilize its paid claims data under category of service 35 available to the Department as of the last day of June preceding the DSH determination year for each hospital's base fiscal year to determine the number of inpatient days provided for alcohol and substance abuse rehabilitative care.

d) Hospitals may apply for DSH status under subsection (a)(2) of this Section by submitting an audited certified financial statement, for the hospital's base fiscal year, to the Department of Human Services or the Department of Public Aid. The statements must contain the following breakdown of information prior to submittal to the Department for consideration:

1) Total hospital net revenue for all patient services, both inpatient and outpatient, for the hospital's base fiscal year.

2) Total payments received directly from State and local governments for all patient services, both inpatient and outpatient, for the hospital's base fiscal year.

3) Total gross inpatient hospital charges for charity care (this must not include contractual allowances, bad debt or discounts, except contractual allowances and discounts for Family and Children Assistance, formerly known as General Assistance), for the hospital's base fiscal year.

4) Total amount of the hospital's gross charges for inpatient hospital services for the hospital's base fiscal year.
e) With the exception of cost-reporting children's hospitals in contiguous states that provide 100 or more inpatient days of care to Illinois program participants, only those cost-reporting hospitals located in states contiguous to Illinois that qualify for DSH in the state in which they are located based upon the Federal definition of a DSH hospital, as defined in section 1923(b)(1) of the Social Security Act, may qualify for DSH hospital adjustments under this Section. For purposes of determining the MIUR, as described in subsection (i)(4) of this Section and as required in section 1923(b)(1) of the Social Security Act, out-of-state hospitals will be measured in relationship to one standard deviation above the mean Medicaid inpatient utilization rate in their state. Out-of-state hospitals that do not qualify by the MIUR from their state may submit an audited certified financial statement as described in subsection (d) of this Section. Payments to out-of-state hospitals will be allocated using the same method as described in subsection (g) of this Section.

f) Time Limitation Requirements for Additional Information.

1) Except as provided in subsection (c)(1)(C), the information required in subsections (a), (c), (d) and (e) of this Section must be received or post marked no later than the first day of July preceding the DSH determination year for which the hospital is requesting consideration of such information for the determination of DSH qualification. Information required in subsections (a), (c), (d) and (e) of this Section which is not received or post marked in compliance with these limitations will not be considered for the determination of those hospitals qualified for DSH adjustments.

2) The information required in subsection (b) of this Section must be submitted after receipt of notification from the Department. Information required in this Section that is not received in compliance with these limitations will not be considered for the determination of those hospitals qualified for DSH adjustments.

g) Inpatient Payment Adjustments to DSH Hospitals. The adjustment payments required by subsection (a) of this Section shall be calculated annually as follows:

1) Five Million Dollar Fund Adjustment for hospitals defined in Section 148.25(b)(1), with the exception of any Illinois hospital that is owned or operated by the State or a unit of local government.

A) Hospitals qualifying as DSH hospitals under subsection (a)(1) or (a)(2) of this Section will receive an add-on payment to their inpatient rate.

B) The distribution method for the add-on payment described in subsection (g)(1) of this Section is based upon a fund of $5 million. All hospitals qualifying under subsection (g)(1)(A) of this Section will receive a $5 per day add-on to their current rate. The total cost of this adjustment is calculated by multiplying each hospital's most recent completed fiscal year Medicaid inpatient utilization data (adjusted based upon historical utilization and projected increases in utilization) by $5. The total dollar amount of this calculation is then subtracted from the $5 million fund.

C) The remaining fund balance is then distributed to the hospitals that qualify under subsection (a)(1) of this Section in proportion to the
percentage by which the hospital's MIUR exceeds one standard deviation above the State's mean Medicaid inpatient utilization rate, as described in subsection (i)(3) of this Section. This is done by finding the ratio of each hospital's percent Medicaid utilization to the State's mean plus one standard deviation percent Medicaid value. These ratios are then summed and each hospital's proportion of the total is calculated. These proportional values are then multiplied by each hospital's most recent completed fiscal year Medicaid inpatient utilization data (adjusted based upon historical utilization and projected increases in utilization). These weighted values are summed and each hospital's proportion of the summed weighted value is calculated. Each individual hospital's proportional value is then multiplied against the $5 million pool of money available after the $5 per day base add-on has been subtracted.

D) The total dollar amount calculated for each qualifying hospital under subsection (g)(1)(C) of this Section, plus the initial $5 per day add-on amount calculated for each qualifying hospital under subsection (g)(1)(B) of this Section, is then divided by the Medicaid inpatient utilization data (adjusted based upon historical utilization and projected increases in utilization) to arrive at a per day add-on value. Hospitals qualifying under subsection (a)(2) of this Section will receive the minimum adjustment of $5 per inpatient day. The adjustments calculated under this subsection (g)(1) are subject to the limitations described in subsection (h) of this Section. The adjustments calculated under subsection (g) of this Section shall be paid on a per diem basis and shall be applied to each covered day of care provided.

2) Department of Human Services (DHS) State-Operated Facility Adjustment for hospitals defined in Section 148.25(b)(6). Department of Human Services State-operated facilities qualifying under subsection (a)(2) of this Section shall receive an adjustment for inpatient services provided on or after March 1, 1995. Effective October 1, 2000, the adjustment payment shall be calculated as follows:

A) The amount of the adjustment is based on a State DSH Pool. The State DSH Pool amount shall be the lesser of the federal DSH allotment for mental health facilities as determined in section 1923(h) of the Social Security Act, minus the estimated DSH payments to such facilities that are not operated by the State; or the result of subtracting the estimated DSH payment adjustments made under subsection (g)(1) of this Section and Section 148.170(f)(2) from the aggregate DSH payment allotment as provided for in section 1923(f) of the Social Security Act.

B) The State DSH Pool amount is then allocated to hospitals defined in Section 148.25(b)(6) that qualify for DSH adjustments by multiplying the State DSH Pool amount by each hospital's ratio of uncompensated care costs, from the most recent final cost report, to the sum of all qualifying hospitals' uncompensated care costs.

C) The adjustment calculated in subsection (g)(2)(B) of this Section shall meet the limitation described in subsection (h)(4) of this
D) The adjustment calculated pursuant to subsection (g)(2)(B) of this Section, for each hospital defined in Section 148.25(b)(6) that qualifies for DSH adjustments, is then divided by four to arrive at a quarterly adjustment. This amount is subject to the limitations described in subsection (h) of this Section. The adjustment described in this subsection (g)(2)(D) shall be paid on a quarterly basis.

3) Assistance for Certain Public Hospitals

A) The Department may make an annual payment adjustment to qualifying hospitals in the DSH determination year. A qualifying hospital is a public hospital as defined in section 701(d) of the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (Public Law 106-554).

B) Hospitals qualifying shall receive an annual payment adjustment that is equal to:

i) A rate amount equal to the amount specified in the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000, section 701(d)(3)(B) for the DSH determination year;

ii) Divided first by Illinois' Federal Medical Assistance Percentage; and

iii) Divided secondly by the sum of the qualified hospitals' total Medicaid inpatient days, as defined in subsection (i)(4) of this Section; and

iv) Multiplied by each qualified hospital's Medicaid inpatient days as defined in subsection (i)(4) of this Section.

C) The annual payment adjustment calculated under this subsection (g)(3), for each qualified hospital, will be divided by four and paid on a quarterly basis.

D) Payment adjustments under this subsection (g)(3) shall be made without regard to subsections (h)(3) and (4) of this Section, 42 CFR 447.272, or any standards promulgated by the Department of Health and Human Services pursuant to section 701(e) of the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000.

E) In order to qualify for assistance payments under this subsection (g)(3), with regard to this payment adjustment, there must be in force an executed intergovernmental agreement between the authorized governmental body of the qualifying hospital and the Department.

4) Disproportionate Share Payments for Certain Government-Owned
or -Operated Hospitals

A) The following classes of government-owned or-operated Illinois hospitals shall, subject to the limitations set forth in subsection (h) of this Section, be eligible for the Disproportionate Share Hospital Adjustment payment:

i) Hospitals defined in Section 148.25(b)(1)(A).

ii) Hospitals owned or operated by a unit of local government that is not a hospital defined in subsection (g)(4)(A)(i) of this Section.

iii) Hospital defined in Section 148.25(b)(1)(B).

B) The annual amount of the payment shall be the amount computed for the hospital pursuant to federal limitations.

C) The annual amount shall be paid to the hospital in monthly installments. The portion of the annual amount not paid pending federal approval of payments shall, upon that approval, be paid in a single lump sum payment. Except as indicated in this subsection (g)(4)(C), the annual amount shall be paid to the hospital in 12 equal installments and paid monthly.

h) DSH Adjustment Limitations.

1) Hospitals that qualify for DSH adjustments under this Section shall not be eligible for the total DSH adjustment if, during the DSH determination year, the hospital discontinues provision of nonemergency obstetrical care. The provisions of this subsection (h)(1) shall not apply to those hospitals described in 89 Ill. Adm. Code 149.50(c)(1) through (c)(4) or those hospitals that have not offered nonemergency obstetric services as of December 22, 1987. In this instance, the adjustments calculated under subsection (g)(1) shall cease to be effective on the date that the hospital discontinued the provision of such nonemergency obstetrical care.

2) Inpatient Payment Adjustments based upon DSH Determination Reviews. Appeals based upon a hospital's ineligibility for DSH payment adjustments, or their payment adjustment amounts, in accordance with Section 148.310(b), which result in a change in a hospital's eligibility for DSH payment adjustments or a change in a hospital's payment adjustment amounts, shall not affect the DSH status of any other hospital or the payment adjustment amount of any other hospital that has received notification from the Department of its eligibility for DSH payment adjustments based upon the requirements of this Section.

3) DSH Payment Adjustment. In accordance with Public Law 102-234, if the aggregate DSH payment adjustments calculated under this Section do not meet the State's final DSH Allotment as determined by the federal Centers for Medicare and Medicaid Services, DSH payment adjustments calculated under this Section shall be adjusted to meet the State DSH Allotment. Subject to any limitation, disproportionate share payments will be made to qualifying hospitals in the following order:
A) Psychiatric hospitals operated by the Illinois Department of Human Services – the annual amount shall be credited quarterly via certification of public expenditure.

B) Hospitals defined in Section 148.25(b)(1)(B).

C) Hospitals owned and operated by a unit of local government that is not a hospital defined in Section 148.25(b)(1)(A).

D) Hospitals that are not owned or operated by a unit of government – the annual amount shall be paid on each inpatient claim.

E) Hospitals defined in Section 148.25(b)(1)(A).

4) Omnibus Budget Reconciliation Act of 1993 (OBRA'93) Adjustments. In accordance with Public Law 103-66, adjustments to individual hospitals' disproportionate share payments shall be made if the sum of estimated Medicaid payments (inpatient, outpatient, and disproportionate share) to a hospital exceed the costs of providing services to Medicaid clients and persons without insurance. Federal upper payment limit requirements (42 CFR 447.272) shall be considered when calculating the OBRA'93 adjustments. The adjustments shall reduce disproportionate share spending until the costs and spending (described in this subsection (h)(4)) are equal or until the disproportionate share payments are reduced to zero. In this calculation, persons without insurance costs do not include contractual allowances. Hospitals qualifying for DSH payment adjustments must submit the information required in Section 148.150.

5) Medicaid Inpatient Utilization Rate Limit. Hospitals that qualify for DSH payment adjustments under this Section shall not be eligible for DSH payment adjustments if the hospital's MIUR, as defined in subsection (i)(4) of this Section, is less than one percent.

i) Inpatient Payment Adjustment Definitions. The definitions of terms used with reference to calculation of the inpatient payment adjustments are as follows:

1) "Base fiscal year" means, for example, the hospital's fiscal year ending in 2001 for the October 1, 2003 DSH determination year, the hospital's fiscal year ending in 2002 for the October 1, 2004 DSH determination year, etc.

2) "DSH determination year" means the 12 month period beginning on October 1 of the year and ending September 30 of the following year.

3) "Mean Medicaid inpatient utilization rate" means a fraction, the numerator of which is the total number of inpatient days provided in a given 12-month period by all Medicaid-participating Illinois hospitals to patients who, for such days, were eligible for Medicaid under Title XIX of the Federal Social Security Act (42 USC 1396a et seq.), and the denominator of which is the total number of inpatient days provided by those same hospitals. Title XIX specifically excludes days of care provided to Family and Children Assistance (formerly known as General Assistance) but does include the types of days described in subsections (c)(1) and (c)(2) of this Section. In this subsection (i)(3), the term "inpatient day" includes each day in which
an individual (including a newborn) is an inpatient in the hospital whether
or not the individual is in a specialized ward and whether or not the
individual remains in the hospital for lack of suitable placement elsewhere.

4) "Medicaid inpatient utilization rate" means a fraction, the numerator of
which is the number of a hospital's inpatient days provided in a given 12
month period to patients who, for such days, were eligible for Medicaid
under Title XIX of the Federal Social Security Act (42 USC 1396a et seq.)
and the denominator of which is the total number of the hospital's inpatient
days in that same period. Title XIX specifically excludes days of care
provided to Family and Children Assistance (formerly known as General
Assistance) but does include the types of days described in subsections
(c)(1) and (c)(2) of this Section. In this subsection (i)(4), the term
"inpatient day" includes each day in which an individual (including a
newborn) is an inpatient in the hospital whether or not the individual is in a
specialized ward and whether or not the individual remains in the hospital
for lack of suitable placement elsewhere.

5) "Obstetric services" shall at a minimum include non-emergency inpatient
deliveries in the hospital.

Section 148.122 Medicaid Percentage Adjustments

The Department shall make an annual determination of those hospitals qualified for adjustments under this Section effective October 1, 2003, and each October 1 thereafter unless otherwise noted.

a) Qualified Medicaid Percentage Hospitals. For inpatient services provided on or after October 1, 2003, the Department shall make adjustment payments to hospitals that are deemed as a Medicaid percentage hospital by the Department. A hospital, except those that are owned or operated by a unit of government, may qualify for a Medicaid Percentage Adjustment in one of the following ways:

1) The hospital's Medicaid inpatient utilization rate (MIUR), as defined in Section 148.120(i)(4), is at least one-half standard deviation above the mean Medicaid utilization rate, as defined in Section 148.120(i)(3).

2) The hospital's low income utilization rate exceeds 25 per centum. For this alternative, payments for all patient services (not just inpatient) for Medicaid, Family and Children Assistance (formerly known as General Assistance) and/or any local or State government-funded care, must be counted as a percentage of all net patient service revenue. To this percentage, the percentage of total inpatient charges attributable to inpatient charges for charity care (less payments for Family and Children Assistance inpatient hospital services, and/or any local or State government-funded care) must be added.

3) Illinois hospitals that, on July 1, 1991, had an MIUR, as defined in Section 148.120(i)(4), that was at least the mean Medicaid inpatient utilization rate, as defined in Section 148.120(i)(3), and that were located in a planning area with one-third or fewer excess beds as determined by the Illinois Health Facilities Planning Board (77 Ill. Adm. Code 1100), and that, as of June 30, 1992, were located in a federally designated Health Manpower Shortage Area (42 CFR 5 (1989)).

4) Illinois hospitals that:

1) In addition, to be deemed a Medicaid Percentage Adjustment hospital, a hospital must provide to the Department, in writing, the names of at least two obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals entitled to such services under a State Medicaid plan. In the case of a hospital located in a rural area (that is, an area outside of a Metropolitan Statistical Area, as defined by the federal Executive Office of Management and Budget), the term "obstetrician" includes any physician with staff privileges to perform non-emergency obstetric procedures at the hospital. This requirement does not apply to a hospital in which the inpatients are predominantly individuals under 18 years of age, or does not offer non-emergency obstetric services as of December 22, 1987. Hospitals that do not offer non-emergency obstetrics to the general public, with the exception of those hospitals described in 89 Ill. Adm. 2) Hospitals that qualify for Medicaid Percentage Adjustments under this Section shall not be eligible for the total Medicaid Percentage Adjustment if, during the Medicaid Percentage Adjustment determination year, the hospital discontinues provision of non-emergency obstetrical care. The provisions of this subsection (f)(2) shall not apply to those hospitals described in 89 Ill. Adm. Code 149.50(c)(1) through (c)(4) or those
hospitals that have not offered non-emergency obstetrical services as of December 22, 1987. In this instance, the adjustments calculated under subsection (d) shall cease to be effective on the date that the hospital discontinued the provision of such non-emergency obstetrical care.

3) Appeals based upon a hospital's ineligibility for Medicaid Percentage payment adjustments, or their payment adjustment amounts, in accordance with Section 148.310(b), which result in a change in a hospital's eligibility for Medicaid Percentage payment adjustments or a change in a hospital's payment adjustment amounts, shall not affect the Medicaid Percentage status of any other hospital or the payment adjustment amount of any other hospital that has received notification from the Department of its eligibility for Medicaid Percentage payment adjustments based upon the requirements of this Section.

4) Medicaid Inpatient Utilization Rate Limit. Hospitals that qualify for Medicaid percentage payment adjustments under this Section shall not be eligible for Medicaid percentage payment adjustments if the hospital's MIUR, as defined in Section 148.120(i)(4), is less than one percent.

g) Inpatient Payment Adjustment Definitions. The definitions of terms used with reference to calculation of Inpatient Payment Adjustments are as follows:

This information shall be derived from claims for applicable services provided in the Medicaid obstetrical inpatient utilization rate base year that were subsequently adjudicated by the Department through the last day of June preceding the Medicaid Percentage determination year and contained within the Department's paid claims data base.
4) "Medicaid (Title XIX) obstetrical inpatient days" means hospital inpatient days that were subsequently adjudicated by the Department through the last day of June preceding the Medicaid Percentage Adjustment determination year and contained within the Department's paid claims data base, for recipients of medical assistance under Title XIX of the Social Security Act, with a Diagnosis Related Grouping (DRG) of 370 through 375, and specifically excludes Medicare/Medicaid crossover claims.

5) "Statewide average hospital payment rate" means the hospital's alternative reimbursement rate, as defined in Section 148.270(a).

6) "Total Medicaid (Title XIX) inpatient days", as referred to in subsections (g)(2) and (g)(3) of this Section, means hospital inpatient days, excluding days for normal newborns, that were subsequently adjudicated by the Department through the last day of June preceding the Medicaid Percentage determination year and contained within the Department's paid claims data base, for recipients of medical assistance under Title XIX of the Social Security Act, and specifically excludes Medicare/Medicaid crossover claims.

9) "Occupancy rate" means, for a given hospital, a fraction, the numerator of which is the hospital's total days, excluding long term care and substance abuse days, and the denominator of which is the hospital's total beds, excluding long term care and substance abuse beds, multiplied by 365 days. The data used for calculation of the hospital occupancy rate is as listed in the July 25, 2001, Illinois Department of Public Health report entitled "Percent Occupancy by Service in Year 2000 for Short Stay, Non-Federal Hospitals in Illinois".

11) "Safety net adjustment period" means, beginning July 1, 2002, the 12 month period beginning on July 1 of a year and ending on June 30 of the following year.

12) "Total admissions" means, for a given hospital, the number of hospital inpatient admissions for recipients of medical assistance under Title XIX of the Social Security Act, excluding admissions for individuals eligible for Medicare under Title XVIII of that Act (Medicaid/Medicare crossover admissions), as tabulated from the Department's claims data for admissions occurring in the safety net hospital base year that were adjudicated by the Department through June 30, 2001.

13) "Total days" means, for a given hospital, the sum of days of inpatient hospital service provided to recipients of medical assistance under Title XIX of the federal Social Security Act, excluding days for individuals eligible for Medicare under Title XVIII of that Act (Medicaid/Medicare crossover days), as tabulated from the Department's claims data for admissions occurring in the safety net hospital base year that were adjudicated by the Department through June 30, 2001.

f) Payment Limitations: In order to be eligible for any new payment or rate increase under this Section that would otherwise become effective for dates of service on or after July 1, 2010, a hospital located in a geographic area of the State in which the Department mandates some or all of the beneficiaries of the Medical Assistance Program residing in the area to enroll in a Care Coordination program as defined in 305 ILCS 5/5-30 must be a Coordinated Care Participating Hospital as defined in Section 148.295(g)(5). The payment limitation takes effect six months after the Department begins mandatory enrollment in the geographic area.

Section 148.130  Outlier Adjustments for Exceptionally Costly Stays

a) Outlier Adjustments. Outlier adjustments are provided for exceptionally costly stays provided by hospitals or distinct part units reimbursed on a per diem basis or hospitals reimbursed in accordance with Section 148.82(g).

b) The determination of those services qualified for an outlier adjustment shall be made as follows for services provided on and after October 1, 1992, and for each subsequent rate period, as defined in Section 148.25(g)(2)(B), for hospitals or distinct part units reimbursed on a per diem basis or hospitals reimbursed in accordance with Section 148.82(g):

1) The services must have been provided on or after October 1, 1992; and

2) The services must have been provided to:

   A) Children who have not attained the age of six years by hospitals defined by the Department as DSH hospitals under Section 148.120(a); or

   C) Children who have not attained the age of 19 on the date of admission for services provided on or after January 1, 2008 by a hospital devoted exclusively to the care of children as defined in 89 Ill. Adm. Code 149.50(c)(3)(A); or

   D) Children who have not attained the age of 19 on the date of admission for services provided on or after July 1, 2009 by a Children's Hospital as defined in 89 Ill. Adm. Code 149.50(c)(3)(B).

3) Claims with total covered charges equal to or above the mean total covered charges plus one standard deviation shall be considered for outlier adjustments once the following calculations have been performed:

   A) Total covered charges (less charges attributable to medical
education) equal to or exceeding one standard deviation above the mean shall be multiplied by the hospital's cost to charge ratio.

B) The hospital's rate for services provided on the claim shall be multiplied by the number of covered days on the claim.

C) The product of subsection (b)(3)(B) shall be subtracted from the product of subsection (b)(3)(A).

D) The difference of subsection (b)(3)(C) shall be multiplied by .25, the product of which shall be the outlier adjustment for the claim.

E) Third party payments (credits) shall be applied to the final payment made on the claim.

c) The determination of those services qualified for an outlier adjustment shall be made in accordance with 89 Ill. Adm. Code 149.105 for hospitals reimbursed on a per case basis.

d) Definition of terms relating to outlier adjustments are as follows:

1) "Base fiscal year" means the hospital's fiscal year cost report most recently audited by the Department.

2) "Cost to Charge Ratio" means the hospital's Medicaid total allowable cost for all care divided by the Medicaid total covered charges for all care. The Cost to Charge Ratio is derived by utilizing cost report data from the hospital's base fiscal year.

3) "Mean total covered charges" means the mean total covered charges (as described in subsection (d)(5)), for services provided in the most recent state fiscal year for which complete information is available and which have been adjudicated by the Department, as follows:

   B) For hospitals defined by the Department as DSH hospitals under Section 148.120(a) in the DSH determination year, the mean total covered charges for all claims for inpatient services provided to individuals under the age of six years.

4) "Rate for services provided" means the inpatient rate in effect for the type of services provided.

5) "Total covered charges" means the amount entered on the UB-82 or UB-92 Uniform Billing Form for revenue code 001 in column 53 (Total Charges).

Section 148.140 Hospital Outpatient and Clinic Services

a) Fee-For-Service Reimbursement

1) Reimbursement for hospital outpatient services shall be made on a fee-for-service basis, except for:

   A) Those services that meet the definition of the Ambulatory Procedure Listing (APL) as described in subsection (b) of this Section.

   B) End stage renal disease treatment (ESRDT) services, as described in subsection (c) of this Section.

   C) Those services provided by a Certified Pediatric Ambulatory Care Center (CPACC), as described in 89 Ill. Adm. Code 140.461(f)(1)(D) and Section 148.25(b)(5)(D).

   D) Those services provided by a Critical Clinic Provider as described in subsection (e) of this Section.

2) Except for the procedures under the APL groupings described in subsection (b) of this Section, fee-for-service reimbursement levels shall be at the lower of the hospital's usual and customary charge to the public or the Department's statewide maximum reimbursement screens. Hospitals will be required to bill the Department utilizing specific service codes. However, all specific client coverage policies (relating to client eligibility and scope of services available to those clients) that pertain to the service billed are applicable to hospitals in the same manner as to non-hospital providers who bill fee for service.

3) With respect to those hospitals described in Section 148.25(b)(2)(A), the reimbursement rate described in subsection (a)(2) of this Section shall be adjusted on a retrospective basis. The retrospective adjustment shall be calculated as follows:

   A) The reimbursement rates described in subsection (a)(2) of this Section shall be no less than the reimbursement rates in effect on June 1, 1992, except that this minimum shall be adjusted on the first day of July of each year by the annual percentage change in the per
diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports.

B) The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

4) Maternal and Child Health Program rates, as described in 89 Ill. Adm. Code 140, Table M, shall be paid to Certified Hospital Ambulatory Primary Care Centers (CHAPCC), as described in 89 Ill. Adm. Code 140.461(f)(1)(A) and Section 148.25(b)(5)(A), Certified Hospital Organized Satellite Clinics (CHOSC), as described in 89 Ill. Adm. Code 140.461(f)(1)(B) and Section 148.25(b)(5)(B), and Certified Obstetrical Ambulatory Care Centers (COBACC), as described in 89 Ill. Adm. Code 140.461(f)(1)(C), and Section 148.25(b)(5)(C). Maternal and Child Health Program rates shall also be paid to Certified Pediatric Ambulatory Care Centers (CPACC), as described in 89 Ill. Adm. Code 140.461(f)(1)(D) and Section 148.25(b)(5)(D), for covered services as described in 89 Ill. Adm. Code 140.462(e)(3), that are provided to non-assigned Maternal and Child Health Program clients, as described in 89 Ill. Adm. Code 140.464(b)(1).

5) Certified Pediatric Ambulatory Care Centers (CPACC), as described in 89 Ill. Adm. Code 140.461(f)(1)(D) and Section 148.25(b)(5)(D), shall be reimbursed in accordance with 89 Ill. Adm. Code 140.464(b)(2) for assigned clients.

6) Hospitals described in Sections 148.25(b)(2)(A) and 148.25(b)(2)(B) shall be required to submit outpatient cost reports to the Department within 90 days after the close of the facility's fiscal year.

7) With the exception of the retrospective adjustment described in subsection (a)(3) of this Section, no year-end reconciliation is made to the reimbursement rates calculated under this Section.

b) Ambulatory Procedure Listing (APL)
Effective July 1, 2012, the Department will reimburse hospitals for certain hospital outpatient procedures as described in subsection (b)(1) of this Section.

1) APL Groupings
Under the APL, a list was developed that defines those technical procedures that require the use of the hospital outpatient setting, its technical staff or equipment. These procedures are separated into separate groupings based upon the complexity and historical costs of the procedures. The groupings are as follows:

A) Surgical Groups

i) Surgical group 1(a) consists of intense surgical procedures. Group 1(a) surgeries require an operating suite with continuous patient monitoring by anesthesia personnel. This level of service involves advanced specialized skills and highly technical operating room personnel using high technology equipment. The rate for this surgical procedure group shall be $1,794.00.
ii) Surgical group 1(b) consists of moderately intense surgical procedures. Group 1(b) surgeries generally require the use of an operating room suite or an emergency room treatment suite, along with continuous monitoring by anesthesia personnel and some specialized equipment. The rate for this surgical procedure group shall be $1,049.00.

iii) Surgical group 1(c) consists of low intensity surgical procedures. Group 1(c) surgeries may be done in an operating suite or an emergency room and require relatively brief operating times. Such procedures may be performed for evaluation or diagnostic reasons. The rate for this surgical procedure group shall be $752.00.

iv) Surgical group 1(d) consists of surgical procedures of very low intensity. Group 1(d) surgeries may be done in an operating room or emergency room, have a low risk of complications, and include some physician-administered diagnostic and therapeutic procedures. Certain dental procedures performed by dentists are included in this group. In order for a dental procedure to be eligible for reimbursement in the outpatient setting, the following criteria must be met: patient requires general anesthesia or conscious sedation; patient has a medical condition that places the patient at an increased surgical risk, such as, but not limited to, cardiopulmonary disease, congenital anomalies, history of complications associated with anesthesia, such as hyperthermia or allergic reaction, or bleeding diathesis; or the patient cannot be safely managed in an office setting because of behavioral, developmental, or mental disorder. The rate for this surgical procedure group shall be $287.00.

B) Diagnostic and Therapeutic Groups

i) Diagnostic and therapeutic group 2(a) consists of advanced or evolving technologically complex diagnostic or therapeutic procedures. Group 2(a) procedures are typically invasive and must be administered by a physician. The rate for this surgical procedure group shall be $941.00.

ii) Diagnostic and therapeutic group 2(b) consists of technologically complex diagnostic and therapeutic procedures that are typically non-invasive. Group 2(b) procedures typically include radiological consultation or a diagnostic study. The rate for this procedure group shall be $304.00.

iii) Diagnostic and therapeutic group 2(c) consists of other diagnostic tests. Group 2(c) procedures are generally non-invasive and may be administered by a technician and monitored by a physician. The rate for this procedure group shall be $176.00.
iv) Diagnostic and therapeutic group 2(d) consists of therapeutic procedures. Group 2(d) procedures typically involve parenterally administered therapeutic agents. Either a nurse or a physician is likely to perform such procedures. The rate for this procedure group shall be $136.00.

C) Group 3 reimbursement for services provided in a hospital emergency department will be made in accordance with one of the three levels described in this Section. Emergency Services mean those services that are for a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, possessing an average knowledge of medicine and health, could reasonably expect that the absence of immediate attention would result in placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, serious impairment to bodily functions or serious dysfunction of any bodily organ or part. The determination of the level of service reimbursable by the Department shall be based upon the circumstances at the time of the initial examination, not upon the final determination of the client's actual condition, unless the actual condition is more severe.

i) Emergency Level I refers to Emergency Services provided in the hospital's emergency department for the alleviation of severe pain or for immediate diagnosis and/or treatment of conditions or injuries that pose an immediate significant threat to life or physiologic function or requires an intense level of physician or nursing intervention. An "intense level" is defined as more than two hours of documented one-on-one nursing care or interactive treatment. The rate for this service shall be $181.00.

ii) Emergency Level II refers to Emergency Services that do not meet the definition in this Section of Emergency Level I care, but that are provided in the hospital emergency department for a medical condition manifesting itself by acute symptoms of sufficient severity. The rate for this service shall be $67.00.

iii) Non-Emergency/Screening Level means those services provided in the hospital emergency department that do not meet the requirements of Emergency Level I or II stated in this Section. For such care, the Department will reimburse the hospital either applicable current FFS rates for the services provided or a screening fee, but not both. The rate for this service shall be $26.00.

D) Group 4 for observation services is established to reimburse such services that are provided when a patient's current condition does not warrant an inpatient admission but does require an extended period of observation in order to evaluate and treat the patient in a setting that provides ancillary resources for diagnosis or treatment with appropriate medical and skilled nursing care. The hospital may
bill for both observation and other APL procedures but will be reimbursed only for the procedure (group) with the highest reimbursement rate. Observation services will be reimbursed under one of three categories:

i) for at least 60 minutes but less than six hours and 31 minutes of services, the rate shall be $74.00;

ii) for at least six hours and 31 minutes but less than 12 hours and 31 minutes of services, the rate shall be $222.00; or

iii) for at least 12 hours and 31 minutes or more of services, the rate shall be $443.00.

E) Group 5 for psychiatric treatment services is established to reimburse for certain outpatient treatment psychiatric services that are provided by a hospital that is enrolled with the Department to provide inpatient psychiatric services. Under this group, the Department will reimburse, at different rates, Type A and Type B Psychiatric Clinic Services, as defined in Section 148.40(d)(1). A different rate will also be reimbursed to children's hospitals as defined in 89 Ill. Adm. Code 149.50(c)(3)(A).

i) The rate for Type A psychiatric clinic services shall be $68.00.

ii) The rate for Type A psychiatric clinic services provided by a Children's Hospital shall be $102.00.

iii) The rate for Type B psychiatric clinic services shall be $101.00.

iv) The rate for Type B psychiatric clinic services provided by a Children's Hospital shall be $102.00.

F) Effective July 1, 2012, subject to 89 Ill. Adm. Code 152.100, Group 6 for physical rehabilitation services shall no longer be in effect and outpatient physical rehabilitation services provided by a hospital shall be reimbursed through the non-institutional payment system, but will be reimbursed as a hospital service at the following rates of reimbursement:

i) The rate for rehabilitation services provided by a hospital enrolled with the Department to provide outpatient physical rehabilitation shall be $130.00.

ii) The rate for rehabilitation services provided by a hospital that is not enrolled with the Department to provide physical rehabilitation shall be $115.00.

iii) The rate for rehabilitation services provided by children's hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(3)(A), shall be $130.00.
2) Each of the groups described in subsection (b)(1) of this Section will be reimbursed by the Department considering the following:

A) The Department will provide cost outlier payments for specific devices and drugs associated with specific APL procedures. Such payments will be made if:
   
i) The device or drug is on an approved list maintained by the Department. In order to be approved, the Department will consider requests from medical providers and shall base its decision on medical appropriateness of the device or drug and the costs of such device or drug; and
   
ii) The provision of such devices or drugs is deemed to be medically appropriate for a specific client, as determined by the Department's physician consultants.

B) Additional payment for such devices or drugs, as described in subsection (b)(2)(A) of this Section, will require prior authorization by the Department unless it is determined by the Department's professional medical staff that prior authorization is not warranted for a specific device or drug. When such prior authorization has been denied for a specific device or drug, the decision may be appealed as allowed by 89 Ill. Adm. Code 102.80(a)(7) and in accordance with the provisions for assistance appeals at 89 Ill. Adm. Code 104.

C) The amount of additional payment for devices or drugs, as described in subsection (b)(2)(A) of this Section, will be based on the following methodology:
   
i) The product of a cost to charge ratio that, in the case of cost reporting hospitals as described in Section 148.130(d), or in the case of other non-cost reporting providers, equals 0.5 multiplied by the provider's total covered charges on the qualifying claim, less the APL payment rate multiplied by four;
   
ii) If the result of subsection (b)(2)(C)(i) of this Section is less than or equal to zero, no additional payment will be made. If the result is greater than zero, the additional payment will equal the result of subsection (b)(2)(C)(i) of this Section, multiplied by 80 percent. In such cases, the provider will receive the sum of the APL payment and the additional payment for such high cost devices or drugs.

D) For county-owned hospitals located in an Illinois county with a population greater than three million, reimbursement rates for each of the reimbursement groups shall be equal to the amounts described in subsection (b)(1) of this Section multiplied by a factor of 2.72.

E) Reimbursement rates for hospitals not required to file an annual cost report with the Department may be lower than those listed in this Section.
Reimbursement for each APL group described in this subsection (b) shall be all-inclusive for all services provided by the hospital, regardless of the amount charged by a hospital. No separate reimbursement will be made for ancillary services or the services of hospital personnel. Exceptions to this provision are that hospitals shall be allowed to bill separately, on a fee-for-service basis, for professional outpatient services of a physician providing direct patient care who is salaried by the hospital; chemotherapy services provided in conjunction with radiation therapy services; and physical rehabilitation, occupational or speech therapy services provided in conjunction with any APL group described in this subsection (b).

For the purposes of this Section, a salaried physician is a physician who is salaried by the hospital; a physician who is reimbursed by the hospital through a contractual arrangement to provide direct patient care; or a group of physicians with a financial contract to provide emergency department care. Under APL reimbursement, salaried physicians do not include radiologists, pathologists, nurse practitioners, or certified registered nurse anesthetists and no separate reimbursement will be allowed for such providers.

3) The assignment of procedure codes to each of the reimbursement groups in subsections (b)(1)(A) through (b)(1)(E) of this Section are detailed in the Department’s Hospital Handbook and in notices to providers.

4) A one-time fiscal year 2000 payment will be made to hospitals. Payment will be based upon the services, specified in this Section, provided on or after July 1, 1998, and before July 1, 1999, which were submitted to the Department and determined eligible for payment (adjudicated) by the Department on or prior to April 30, 2000, excluding services for Medicare/Medicaid crossover claims and claims that resulted in a zero payment by the Department. A one-time amount of:

   A) $27.75 will be paid for each service for procedure code W7183 (Psychiatric clinic Type A for adults).

   B) $24.00 will be paid for each service for APL Group 5 (Psychiatric clinic Type A only) provided by a children's hospital as defined in 89 Ill. Adm. Code 149.50(c)(3)(A).

   C) $15.00 will be paid for each service for APL Group 6 (Physical rehabilitation services) provided by a children's hospital as defined in 89 Ill. Adm. Code 149.50(c)(3)(A).

5) County Facility Outpatient Adjustment

   A) Effective for services provided on or after July 1, 1995, county owned hospitals in an Illinois county with a population of over three million shall be eligible for a county facility outpatient adjustment payment. This adjustment payment shall be in addition to the amounts calculated under this Section and are calculated as follows:

      i) Beginning with July 1, 1995, hospitals under this subsection shall receive an annual adjustment payment equal to total
base year hospital outpatient costs trended forward to the rate year minus total estimated rate year hospital outpatient payments, multiplied by the resulting ratio derived when the value 200 is divided by the quotient of the difference between total base year hospital outpatient costs trended forward to the rate year and total estimated rate year hospital outpatient payments divided by one million.

ii) The payment calculated under this subsection (b)(5)(A) may be adjusted by the Department to ensure compliance with aggregate and hospital specific federal payment limitations.

iii) The county facility outpatient adjustment under this subsection shall be made on a quarterly basis.

B) County Facility Outpatient Adjustment Definition. The definitions of terms used with reference to calculation of the county facility outpatient adjustment are as follows:

i) "Base Year" means the most recently completed State fiscal year.

ii) "Rate Year" means the State fiscal year during which the county facility adjustment payments are made.

iii) "Total Estimated Rate Year Hospital Outpatient Payments" means the Department's total estimated outpatient date of service liability, projected for the upcoming rate year.

iv) "Total Hospital Outpatient Costs" means the statewide sum of all hospital outpatient costs derived by summing each hospital's outpatient charges derived from actual paid claims data multiplied by the hospital's cost-to-charge ratio.

6) Critical Access Hospital Rate Adjustment
Hospitals designated by the Illinois Department of Public Health as Critical Access Hospital (CAH) providers in accordance with 42 CFR 485.subpart F shall be eligible for an outpatient rate adjustment for services identified in subsections (b)(1)(A) through (b)(1)(F), excluding services for Medicare/Medicaid crossover claims. This adjustment shall be calculated as follows:

A) An annual distribution factor shall be calculated as follows:

i) The numerator shall be $33 million.

B) Hospital Specific Adjustment Value
For each hospital qualified under this subsection (b)(6) the hospital specific adjustment value shall be the product of each hospital's specific cost coverage deficit calculated in subsection (b)(6)(A)(ii) and the distribution factor calculated in subsection (b)(6)(A):

C) Effective for dates of service on or after July 1, 2012, the final APL Rate Adjustment Values shall be the quotient of:

i) The hospital specific adjustment value identified in subsection (b)(6)(B) divided by

ii) The total outpatient services identified in subsections (b)(1)(A) through (b)(1)(E), excluding services for Medicare/Medicaid crossover claims for calendar year 2009, adjudicated and contained in the Department's paid claims database as of December 31, 2010.

D) Non-State Government Owned Provider Adjustment
Final APL rates for hospitals identified in non-State government owned or operated providers in the State's Upper Payment Limits demonstration shall be adjusted when necessary to assure compliance with federal upper payment limits as stated in 42 CFR 447.304.

E) Applicability
The rates calculated in accordance with subsection (b)(6)(A) shall be effective for dates of service beginning January 1, 2011 and shall be adjusted each State fiscal year beginning July 1, 2011.

i) For State fiscal year 2011, the rate year shall begin January 1, 2011 and end June 30, 2011.

ii) For State fiscal year 2012 and beyond, the rate year shall be for dates of services beginning July 1 through June 30 of the subsequent year.

iii) For purposes of this adjustment, a children's hospital identified in Section 149.50(c)(3)(B) shall be combined with the corresponding general acute care parent hospital.

iv) Beginning with State fiscal year 2012 and each subsequent State fiscal year thereafter, the adjustment to the FY 2011 final APL Rate adjustment shall be limited to 2% in accordance with spending limits in 35 ILCS 5/201.5.

7) No Year-End Reconciliation
With the exception of the retrospective rate adjustment described in subsection (b)(9) of this Section, no year-end reconciliation is made to the reimbursement rates calculated under this subsection (b).

8) Rate Adjustments
With respect to those hospitals described in Section 148.25(b)(2)(A), the reimbursement rates described in subsection (b)(5) of this Section shall be
adjusted on a retrospective basis. The retrospective adjustment shall be calculated as follows:

A) The reimbursement rates described in subsection (b)(5) of this Section shall be no less than the reimbursement rates in effect on June 1, 1992, except that this minimum shall be adjusted on the first day of July of each year by the annual percentage change in the per diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports.

B) The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

9) Services are available to all clients in geographic areas in which an encounter rate hospital or a county-operated outpatient facility is located. All specific client coverage policies (relating to client eligibility and scope of services available to those clients) that pertain to the service billed are applicable to hospitals reimbursed under the Ambulatory Care Program in the same manner as to encounter rate hospitals and to non-hospital and hospital providers who bill and receive reimbursement on a fee-for-service basis.

10) Hospitals described in Section 148.25(b)(2)(A) and (b)(2)(B) shall be required to submit outpatient cost reports to the Department within 90 days after the close of the facility's fiscal year.

c) Payment for outpatient end-stage renal disease treatment (ESRDT) services provided pursuant to Section 148.40(c) shall be made at the Department's payment rates, as follows:

1) For inpatient hospital services provided pursuant to Section 148.40(c)(1), the Department shall reimburse hospitals pursuant to Sections 148.240 through 148.300 and 89 Ill. Adm. Code 149.

2) For outpatient services or home dialysis treatments provided pursuant to Section 148.40(c)(2) or (c)(3), the Department will reimburse hospitals and clinics for ESRDT services at a rate that will reimburse the provider for the dialysis treatment and all related supplies and equipment, as defined in 42 CFR 405.2163 (1994). This rate will be that rate established by Medicare pursuant to 42 CFR 405.2124 and 413.170 (1994).

3) Payment for non-routine services. For services that are provided during outpatient or home dialysis treatment pursuant to Section 148.40(c)(2) or (c)(3) but are not defined as a routine service under 42 CFR 405.2163 (1994), separate payment will be made to independent laboratories, pharmacies, and medical supply providers pursuant to 89 Ill. Adm. Code 140.430 through 140.434, 140.440 through 140.450, and 140.475 through 140.481, respectively.

4) Payment for physician services relating to ESRDT will be made separately to physicians, pursuant to 89 Ill. Adm. Code 140.400.

5) With respect to those hospitals described in Section 148.25(b)(2)(A), the
reimbursement rates described in this subsection (c) shall be adjusted on a retrospective basis. The retrospective adjustment shall be calculated as follows:

A) The reimbursement rates described in this subsection (c) shall be no less than the reimbursement rates in effect on June 1, 1992, except that this minimum shall be adjusted on the first day of July of each year by the annual percentage change in the per diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports.

B) The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

6) With the exception of the retrospective rate adjustment described in subsection (c)(5) of this Section, no year-end reconciliation is made to the reimbursement rates calculated under this subsection (c).

7) Hospitals described in Section 148.25(b)(2)(A) and (b)(2)(B) of this Section shall be required to submit outpatient cost reports to the Department within 90 days after the close of the facility's fiscal year.

d) Non Hospital-Based Clinic Reimbursement

1) County-Operated Outpatient Facility Reimbursement
Reimbursement for all services provided by county-operated outpatient facilities, as described in Section 148.25(b)(2)(C), that do not qualify as either a Maternal and Child Health Program managed care clinics, as described in 89 Ill. Adm. Code 140.461(f), or as a Critical Clinic Provider, as described in subsection (e) of this Section, shall be on an all-inclusive per encounter rate basis as follows:

A) Base Rate. The per encounter base rate shall be calculated as follows:

i) Allowable direct costs shall be divided by the number of direct encounters to determine an allowable cost per encounter delivered by direct staff.

ii) The resulting quotient, as calculated in subsection (d)(1)(A)(i) of this Section, shall be multiplied by the Medicare allowable overhead rate factor to calculate the overhead cost per encounter.

iii) The resulting product, as calculated in subsection (d)(1)(A)(ii) of this Section, shall be added to the resulting quotient, as calculated in subsection (d)(1)(A)(i) of this Section to determine the per encounter base rate.

iv) The resulting sum, as calculated in subsection (d)(1)(A)(iii) of this Section, shall be the per encounter base rate.

B) Supplemental Rate
i) The supplemental service cost shall be divided by the total number of direct staff encounters to determine the direct supplemental service cost per encounter.

ii) The supplemental service cost shall be multiplied by the allowable overhead rate factor to calculate the supplemental overhead cost per encounter.

iii) The quotient derived in subsection (d)(1)(B)(i) of this Section shall be added to the product derived in subsection (d)(1)(B)(ii) of this Section, to determine the per encounter supplemental rate.

iv) The resulting sum, as described in subsection (d)(1)(B)(iii) of this Section, shall be the per encounter supplemental rate.

C) Final Rate

i) The per encounter base rate, as described in subsection (d)(1)(A)(iv) of this Section, shall be added to the per encounter supplemental rate, as described in subsection (d)(1)(B)(iv) of this Section, to determine the per encounter final rate.

ii) The resulting sum, as determined in subsection (d)(1)(C)(i) of this Section, shall be the per encounter final rate.

iii) The per encounter final rate, as described in subsection (d)(1)(C)(ii) of this Section, shall be adjusted in accordance with subsection (d)(2) of this Section.

2) Rate Adjustments
Rate adjustments to the per encounter final rate, as described in subsection (d)(1)(C)(iii) of this Section, shall be calculated as follows:

A) The reimbursement rates described in subsections (d)(1)(A) through (d)(1)(C) and (e)(2) of this Section shall be no less than the reimbursement rates in effect on June 1, 1992, except that this minimum shall be adjusted on the first day of July of each year by the annual percentage change in the per diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports. The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

B) The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

C) The final rate described in subsection (d)(1)(C) of this Section shall be no less than $147.09 per encounter.

3) County-operated outpatient facilities, as described in Section
4) Services are available to all clients in geographic areas in which an encounter rate hospital or a county-operated outpatient facility is located. All specific client coverage policies (relating to client eligibility and scope of services available to those clients) that pertain to the service billed are applicable to encounter rate hospitals in the same manner as to hospitals reimbursed under the Ambulatory Care Program and to non-hospital and hospital providers who bill and receive reimbursement on a fee-for-service basis.

e) Critical Clinic Providers

1) Effective for services provided on or after September 27, 1997, a clinic owned or operated by a county with a population of over three million, that is within or adjacent to a hospital, shall qualify as a Critical Clinic Provider if the facility meets the efficiency standards established by the Department. The Department's efficiency standards under this subsection (e) require that the quotient of total encounters per facility fiscal year for the Critical Clinic Provider divided by total full time equivalent physicians providing services at the Critical Clinic Provider shall be greater than:

A) 2700 for reimbursement provided during the facility's cost reporting year ending during 1998,

B) 2900 for reimbursement provided during the facility's cost reporting year ending during 1999,

C) 3100 for reimbursement provided during the facility's cost reporting year ending during 2000,

D) 3600 for reimbursement provided during the facility's cost reporting year ending during 2001, and

E) 4200 for reimbursement provided during the facility's cost reporting year ending during 2002.

2) Reimbursement for all services provided by any Critical Clinic Provider shall be on an all-inclusive per-encounter rate that shall equal reported direct costs of Critical Clinic Providers for each facility's cost reporting period ending in 1995, and available to the Department as of September 1, 1997, divided by the number of Medicaid services provided during that cost reporting period as adjudicated by the Department through July 31, 1997.

3) Critical Clinic Providers, as described in this subsection (e), shall be required to submit outpatient cost reports to the Department within 90 days after the close of the facility's fiscal year. No year-end reconciliation is made to the reimbursement calculated under this subsection (e).

4) The reimbursement rates described in this subsection (e) shall be no less than the reimbursement rates in effect on July 1, 1992, except that this
minimum shall be adjusted on the first day of July of each year by the annual percentage change in the per diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports. The per diem cost of inpatient hospital services shall be calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

f) Critical Clinic Provider Pharmacies
Prescribed drugs, dispensed by a pharmacy that is a Critical Clinic Provider, that are not part of an encounter reimbursable under subsection (e) of this Section shall be reimbursed at the rate described in subsection (e)(2) of this Section.

Section 148.150  Public Law 103-66 Requirements

a) All hospitals deemed eligible to receive disproportionate share hospital (DSH) adjustment payments, in accordance with Section 148.120, are required, and non-DSH cost reporting hospitals are encouraged, to annually submit, on or before August 15 of the rate year, at least the following information separated by inpatient and outpatient (including hospital-based clinic services) to the Department:

1) The dollar amount of Illinois Medicaid charges rendered in the base year.

2) The dollar amount of hospital charity care charges rendered in the base year for uninsured patients.

3) The dollar amount of hospital bad debt, less any recoveries, rendered in the base year for uninsured patients.

4) The dollar amount of Illinois total hospital charges for care rendered in the base year.

b) Definitions

1) "Medicaid charges" means hospital charges for inpatient, outpatient and hospital-based clinic services provided to recipients of medical assistance under Title XIX of the Social Security Act.

2) "Total charges" means the total amount of a hospital's charges for inpatient, outpatient and hospital-based clinic services it has provided.

3) "Base year" means the hospital's cost reporting period, utilized in the current rate year disproportionate share determination, and as described in Section 148.120(k)(1).

4) "Hospital charity care charges" and "hospital bad debt" mean inpatient, outpatient and hospital clinic services provided to individuals without health insurance or other sources of third party coverage. For purposes of the previous statement in this subsection (b)(4), State or unit of local government payments made to a hospital on behalf of indigent patients (i.e., Transitional Assistance and State Family and Children Assistance) shall not be considered to be a form of insurance or a source of third party
coverage. Therefore, unreimbursed charges for persons covered under these programs may be included. Section 148.160 Payment Methodology for County-Owned Hospitals in an Illinois County with a Population of Over Three Million

a) Reimbursement Methodology
   In accordance with 89 Ill. Adm. Code 149.50(c)(8), county-owned hospitals in an Illinois county with a population greater than three million are excluded from the DRG PPS and are reimbursed in accordance with this Section.

b) Base Year Costs
   1) The hospitals' base year operating costs shall be contained in the hospitals' audited cost reports (see 42 CFR 447.260 and 447.265 (1982)) for hospitals fiscal years ending between 20 and 31 months prior to the fiscal year for which rates are being set.

   2) The hospitals' base year capital related costs shall be derived from the same audited cost reports used for operating costs in subsection (b)(1) of this Section.

   3) The hospitals' base year direct medical education costs shall be derived from the same audited cost reports used for operating costs in subsection (b)(1) of this Section.

   4) The base year cost per diem shall be the sum of the operating cost per diem, capital related cost per diem and medical education cost per diem defined in subsections (b)(1) through (b)(3) of this Section.

   5) New hospitals, for which a base year cost report is not on file, will be reimbursed the per diem rate calculated in subsection (b)(4) of this Section and inflated in subsection (d)(1) of this Section.

c) Restructuring Adjustments
   Adjustments to the base year cost per diem, as described in subsection (b)(4) of this Section, will be made to reflect restructuring since filing the base year cost reports. The restructuring must have been mandated to meet state, federal or local health and safety standards. The allowable Medicare/Medicaid costs (see 42 CFR Part 405, Subpart D, 1982) must be incurred as a result of mandated restructuring and identified from the most recent audited cost reports available before or during
the rate year. The restructuring costs must be significant, i.e., on a per unit basis; they must constitute one percent or more of the total allowable Medicare/Medicaid unit costs for the same time period. The Department will use the most recent available audited cost reports to determine restructuring costs. If audited cost reports become available during the rate year, the reimbursement rate will be recalculated at that time to reflect restructuring cost adjustments. For audited reports received at the Illinois Department of Public Aid, Office of Health Finance, between the first and fifteenth of the month, the effective date of the recalculated rate will be the first day of the following month. For audited reports received at the Office of Health Finance, between the sixteenth and last day of the month, the effective date will be the first day of the second month following the month the reports are received. Allowable restructuring costs are adjusted to account for inflation from the midpoint of the restructuring cost reporting year to the midpoint of the base year according to the index and methodology of Data Resources, Inc. (DRI), national hospital market basket price proxies and added to the base year cost per diem, as described in subsection (b)(4), which is subject to the inflation adjustment described in subsection (d) of this Section.

d) Inflation Adjustment For Base Year Cost Report Inflator

1) The base year cost per diem, as defined in subsection (b)(4) of this Section, shall be inflated from the midpoint of the hospitals' base year to the midpoint of the time period for which rates are being set (rate period) according to the historical rate of annual cost increases. The historical rate of annual cost increases shall be calculated by dividing the operating cost per diem as defined in subsection (b)(1) of this Section by the previous year's operating cost per diem.

2) Effective October 1, 1992, the final reimbursement rate shall be no less than the reimbursement rate in effect on June 1, 1992; except that this minimum shall be adjusted each July 1 thereafter, through July 1, 2002, by the annual percentage change in the per diem cost of inpatient hospital services as reported in the most recent annual Medicaid cost reports.

3) Effective July 1, 2003, the rate for hospital inpatient services shall be the rate calculated in accordance with subsections (d)(1) and (2) of this Section that was in effect on January 1, 2003. This minimum may be adjusted by the Department to ensure compliance with aggregate and hospital specific federal payment limitations.

e) Review Procedure

The review procedure shall be in accordance with Section 148.310.

f) Applicable Inpatient Adjustments

1) The criteria and methodology for making applicable adjustments to DSH hospitals, which are exempt from the DRG PPS, as described in subsection (a) of this Section, shall be in accordance with Section 148.120.

2) The criteria and methodology for making applicable Medicaid Percentage Adjustments to hospitals which are exempt from the DRG PPS as described in subsection (a) of this Section are described in this Section.

A) The payment adjustment shall be $150 plus $2 for each one percent
that the hospital's Medicaid inpatient utilization rate, as described in Section 148.120(k)(5), exceeds 1.5 standard deviations above the mean Medicaid inpatient utilization rate, as defined in Section 148.120(k)(3), multiplied by 3.75. This payment adjustment is based on a rate year 1993 base rate and shall be trended forward to the current rate year for inflationary increases.

B) The amount calculated pursuant to subsection (f)(2)(A) of this Section shall be adjusted on October 1, 1995, and annually thereafter, by a percentage equal to the lesser of:

i) The increase in the national hospital market basket price proxies (DRI) hospital cost index for the most recent 12 month period for which data are available; or

ii) The percentage increase in the statewide average hospital payment rate, as described in Section 148.120(k)(8) over the previous year's statewide average hospital payment rate.

C) The amount calculated pursuant to subsections (f)(2)(A) through (f)(2)(B) of this Section shall be no less than the rate calculated in accordance with Section 148.120(g)(2) in effect on June 1, 1992, except that this minimum shall be adjusted on the first day of July of each year, through July 1, 2002, by the annual percentage change in the per diem cost of inpatient hospital services as reported on the two most recent annual Medicaid cost reports. The per diem cost of inpatient hospital services is calculated by dividing the total allowable Medicaid costs by the total allowable Medicaid days.

D) Effective July 1, 2003, the Medicaid Percentage Adjustment rate for hospital inpatient services shall be the rate that was in effect on January 1, 2003. This minimum may be adjusted by the Department to ensure compliance with aggregate and hospital specific federal payment limitations.

E) The amount calculated pursuant to subsection (f)(2) of this Section shall be the Medicaid percentage adjustment which shall be paid on a per diem basis and shall be applied to each covered day of care provided.

3) County Provider Adjustment.

A) Effective July 1, 1995, hospitals reimbursed under this Section shall be eligible to receive a county provider adjustment. The methodology used to determine the add-on payment amount is as follows:

i) Beginning with July 1, 1995, hospitals under this Section shall receive $15,500 per Medicaid inpatient admission in the base period.

ii) The payments calculated under this Section may be adjusted by the Department to ensure compliance with aggregate and hospital specific federal payment limitations. A portion of
the payments calculated under this Section may be classified as disproportionate share adjustment payments.

iii) The payments made under this subsection shall be made on a quarterly basis.

B) County Provider Adjustment Definitions.

i) "Base Period" means State fiscal year 1994.

ii) "Medicaid Inpatient Admission" means hospital inpatient admissions provided in the base period, which were subsequently adjudicated by the Department through the last day of June, 1995, for recipients of medical assistance under Title XIX of the Social Security Act, excluding admissions for normal newborns and Medicare/Medicaid crossover days.

4) Hospitals reimbursed under this Section shall receive supplemental inpatient payments. Effective with admissions on or after July 1, 1995, supplemental inpatient payments for hospitals reimbursed under this Section shall be calculated by multiplying the sum of the base year cost per diem, as described in subsection (b)(4) of this Section, as adjusted for restructuring, as described in subsection (c) of this Section, and as adjusted for inflation, as described in subsection (d) of this Section, and the sum of the calculated disproportionate share and Medicaid percentage per diem payments as described in Section 148.120 and subsection (f)(2) of this Section, by the hospitals' percentage of charges which are not reimbursed by a third party payer for the period of August 1, 1991 through July 31, 1992. Effective July 1, 1995, the supplemental inpatient payments calculated under this subsection shall be no less than the supplemental inpatient rates in effect on June 1, 1992, except that this minimum shall be adjusted as of July 1, 1992, and on the first day of July of each year thereafter, through July 1, 2002, by the annual percentage change in the per diem cost of inpatient hospital services as reported in the most recent annual Medicaid cost reports. The per diem cost of inpatient hospital services is calculated by dividing the total allowable Medicaid cost by the total allowable Medicaid days. Effective July 1, 2003, the supplemental inpatient payment rate for hospital inpatient services shall be the rate that was in effect on January 1, 2003. This minimum may be adjusted by the Department to ensure compliance with aggregate and hospital specific federal payment limitations. The supplemental inpatient payment adjustment shall be paid on a per diem basis and shall be applied to each covered day of care provided.

g) Outlier Adjustments
Outlier adjustments to payment amounts for medically necessary inpatient hospital services involving exceptionally high costs for certain individuals shall be made in accordance with Section 148.130.

h) Trauma Center Adjustments. Trauma center adjustments shall be made in accordance with Section 148.290(c).

i) Reductions to Total Payments

1) Copayments. Copayments are assessed in accordance with Section
2) Third Party Payments. The requirements of Section 148.290(f)(2) shall apply.

j) Prepayment and Utilization Review
Prepayment and utilization review requirements shall be in accordance with Section 148.240.

k) Cost Reporting Requirements
Cost reporting requirements shall be in accordance with Section 148.210.

(Source: Amended at 28 Ill. Reg. 2770, effective February 1, 2004)
Section 148.170 Payment Methodology for Hospitals Organized Under the University of Illinois Hospital Act

a) In accordance with 89 Ill. Adm. Code 149.50(c)(8), a hospital organized under the University of Illinois Hospital Act shall be excluded from the DRG PPS and shall be reimbursed in accordance with this Section.

b) Base Year Costs

2) For new hospitals for which a base year cost report is not on file, the Department will use a more recent filed cost report or, if no cost report is on file, the hospital's estimate of costs, adjusted as necessary according to experience with hospitals of similar size, location and service intensity. The Department will recalculate any reimbursement rate based on a rate estimated as soon as a cost report becomes available. The recalculated rate will be effective for the entire fiscal year and the Department will retroactively adjust payments if reported costs are not consistent with the estimate on which the payments are based.

c) Restructuring Adjustment

Adjustments to base year costs will be made to reflect restructuring since filing the base year cost report. The restructuring must have been mandated to meet state, federal or local health and safety standards. The allowable Medicare/Medicaid costs (see 42 CFR 405, Subpart D, 1982) must be incurred as a result of mandated restructuring and identified from the most recent audited cost report available before or during the rate year. The restructuring costs must be significant, i.e., on a per unit basis; they must constitute one percent or more of the total allowable Medicare/Medicaid unit costs for the same time period. The Department will use the most recent available audited cost report to determine restructuring costs. If an audited cost report becomes available during the rate year, the reimbursement rate will be recalculated at that time to reflect restructuring cost adjustments. For audited reports received at the Illinois Department of Public Aid, Office of Health Finance, between the first and fifteenth of the month, the effective date of the recalculated rate will be the first day of the following month. For audited reports
received at the Finance Section between the sixteenth and last day of the month, the effective date will be the first day of the second month following the month the report is received. Allowable restructuring costs are adjusted to account for inflation from the midpoint of the restructuring cost reporting year to the midpoint of the base year according to the index and methodology of Data Resources, Inc. (DRI), national hospital market basket price proxies and added to the base year costs.

d) Inflation Adjustment For Base Year Cost Report Inflator
Base year costs, including any adjustments for mandated restructuring, will be updated from the midpoint of each hospital's base year to the midpoint of the fiscal year for which rates are being set according to the hospital's historical rate of annual cost increases.

e) Review Procedure
The review procedure shall be in accordance with Section 148.310.

f) Applicable adjustments for DSH Hospitals

2) Effective October 1, 1993, in addition to the DSH payment adjustments described in Section 148.120, hospitals reimbursed under this Section shall have supplemental DSH payments. Effective with admissions on or after October 1, 1993, supplemental DSH payments for hospitals reimbursed under this Section shall be calculated by multiplying the sum of the hospital's base year costs, as described in subsection (b) of this Section, as adjusted for restructuring, as described in subsection (c) of this Section, and as adjusted for inflation, as described in subsection (d) of this Section, and the calculated disproportionate share per diem payment adjustment, as described in Section 148.120, by the hospital's percentage of charges which are not reimbursed by a third party payer for the period of August 1, 1991, through July 31, 1992. The resulting product shall be multiplied by 4.50 and this amount shall be the supplemental DSH payment adjustment which shall be paid on a per diem basis and shall be applied to each covered day of care provided.

g) Outlier Adjustments
Outlier adjustments to payment amounts for medically necessary inpatient hospital services involving exceptionally high costs for certain individuals shall be made in accordance with Section 148.130.

h) Reductions to Total Payments

1) Copayments. Copayments are assessed in accordance with Section 148.190.

2) Third Party Payments. The requirements of Section 148.290(f)(2) shall apply.

The resulting product shall be multiplied by 6.25 and this amount shall be the supplemental DSH payment adjustment which shall be paid on a per diem basis and shall be applied to

...
each covered day of care provided. The supplemental DSH payments cannot exceed the amount the hospital certifies as costs eligible for Federal Financial Participation under Title XIX of the Social Security Act.

3) DSH adjustments made under this subsection are subject to the DSH adjustment limitations described in Section 148.120(j).

The documentation must be kept in the patient's medical record and must consist of a written notation made by the physician which documents that more than one pre-operative day is medically necessary.

b) Inpatient Procedures Requiring Justification

1) A list of restricted inpatient procedures has been established. These restricted inpatient procedures will only be reimbursed when performed outside the inpatient setting or when the hospital supplies justification for an inpatient admission that meets Departmental established criteria. These criteria include, but are not limited to:

A) Presence of medical conditions which make prolonged post-operative observations by a nurse or skilled medical personnel a necessity (e.g., heart disease, severe diabetes);

B) The patient is in the hospital as an inpatient for a medically necessary condition unrelated to the surgical procedure;

C) An unrelated procedure is being done simultaneously which itself requires surgical hospitalization;

D) The practitioner has documented the medical necessity of performing the patient's surgery in an inpatient setting;

E) The patient is unable to comprehend and/or follow the necessary instruction both prior to and following the procedure due to mental and/or physical impairment, and this would result in inadequate treatment and place the patient at risk;
F) Emergency admission or recent onset of severe symptoms would prohibit safely performing the procedure on an outpatient basis (e.g., bleeding, severe pain, nausea, vomiting); and

G) Admission occurs subsequent to the performance of the procedure on an outpatient basis due to conditions such as:
   i) Instability of vital signs;
   ii) Respiratory distress greater than existed pre-operatively;
   iii) Post-operative pain not relieved by oral medication;
   iv) Uncontrollable bleeding;
   v) Lack of state of consciousness appropriate to age and development;

The attending or operating physician responsible for the care and treatment of the patient is required to sign all applicable sections in the appropriate place in the medical record. The order must be legible and explain completely all services or tests to be performed. Standing orders are not acceptable.

2) Upon completion of the service or test, a fully documented description of results with findings, or the administration of medication, must be maintained in the patient medical records. Radiological services must have the actual x-rays and the interpretation report; laboratory/pathological tests must have the specific findings for each test; and drugs and pharmaceutical supplies must indicate strength, dosages and durations.

1) Any hospital certified in the Medicare Program (Title XVIII) and electing, for the first time, to be reimbursed under the DRG PPS must include a copy of the two most recently audited Medicare cost reports at the time of enrollment.

2) Any hospital accredited by the Joint Commission on the Accreditation of Healthcare Organizations (JCAHO) not eligible for or subject to Medicare certification shall be required to file financial statements, a statement of revenues and expenses by program, and census logs by program and financial class. The Office of Health Finance may request an audit of the financial statements by an independent Certified Public Accountant (CPA) firm if the financial statements are to be used as the base year for rate analysis. Should the hospital elect not to comply with the audit request, or the financial statements are given other than an unqualified opinion, the hospital will receive an alternate rate as described in Section 148.270.

d) The assessment or license fees described in 89 Ill. Adm. Code 140.82, 140.84, 140.94 and 140.95 may not be reported as allowable Medicaid costs on the
Medicaid cost report.

Section 148.230 Admissions Occurring on or after September 1, 1991

Reimbursement to hospitals not reimbursed under the DRG PPS (see 89 Ill. Adm. Code 149) or the reimbursement methodologies established at Sections 148.82, 148.160 and 148.170 for inpatient admissions occurring on or after September 1, 1991 shall be calculated in accordance with Sections 148.250 through 148.300, subject to the provisions of Section 148.20(b).

Section 148.240  Utilization Review and Furnishing of Inpatient Hospital Services Directly or Under Arrangements

a) Utilization Review
The Department, or its designated peer review organization, shall conduct utilization review in compliance with Section 1152 of the Social Security Act and 42 CFR Subchapter F (October 1, 2001). A peer review shall be conducted by a Physician Peer Reviewer who is licensed to practice medicine in all its branches, engaged in the active practice of medicine, board certified or board eligible in his or her specialty and has admitting privileges in one or more Illinois hospitals. Payment will only be made for those admissions and days approved by the Department or its designated peer review organization. Utilization review may consist of, but not be limited to, preadmission, concurrent, prepayment, and postpayment reviews to determine, pursuant to 42 CFR 476, Subpart C (October 1, 2001), the following:

1) Whether the services are or were reasonable and medically necessary for the diagnosis and treatment of illness or injury;

2) The medical necessity, reasonableness and appropriateness of hospital admissions and discharges, including, but not limited to, the coordination of care requirements defined in Section 148.40(a)(10) for the Children's Mental Health Screening, Assessment and Support Services (SASS) Program;

3) Through DRG (Diagnosis Related Grouping) (see 89 Ill. Adm. Code 149) validation, the validity of diagnostic and procedural information supplied by the hospital;

4) The completeness, adequacy and quality of hospital care provided;

5) Whether the quality of the services meets professionally recognized standards of health care; or

6) Whether those services furnished or proposed to be furnished on an inpatient basis could, consistent with the provisions of appropriate medical care, be effectively furnished more economically on an outpatient basis or in an inpatient health care facility of a different type.
b) Notice of Utilization Review
The Department shall provide hospitals with notice 30 days before a service is subject to utilization review, as described in subsections (c), (d), (e) and (f) of this Section, that the service is subject to such review. In determining whether a particular service is subject to utilization review, the Department may consider factors that include:

1) Assessment of appropriate level of care;

2) The service could be furnished more economically on an outpatient basis;

3) The inpatient hospital stays for the service deviate from the norm for inpatient stays using accepted length of stay criteria;

4) The cost of care for the service;

5) Denial rates; and

6) Trends or patterns that indicate potential for abuse.

c) Preadmission Review
Preadmission review may be conducted prior to admission to a hospital to determine if the services are appropriate for an inpatient setting. The Department shall provide hospitals with notice of the criteria used to determine medical necessity in preadmission reviews 30 days before a service is subject to preadmission review.

d) Concurrent Review
Concurrent review consists of a certification of admission and, if applicable, a continued stay review.

1) The certification of admission is performed to determine the medical necessity of the admission and to assign an initial length of stay based on the criteria for the admission. Admissions will be denied for patients age 21 years of age or over who present at a hospital within 60 days after a previous admission for specified alcohol-induced or drug-induced detoxification. The Department will specify to hospitals the lists of affected diagnosis codes via provider releases and postings on the Department's website.

2) The continued stay review is conducted to determine the medical necessity and appropriateness of continuing the inpatient hospitalization. More than one continued stay review can be performed in an inpatient stay.

e) Prepayment Review
The Department may require hospitals to submit claims to the Department for prepayment review and approval prior to rendering payment for services provided.

f) Postpayment Review
Postpayment review shall be conducted on a random sample of hospital stays following reimbursement to the hospital for the care provided. The Department may also conduct postpayment review on specific types of care.
g) Hospital Utilization Control
Hospitals and distinct part units that participate in Medicare (Title XVIII) must use
the same utilization review standards and procedures and review committee for
Medicaid as they use for Medicare. Hospitals and distinct part units that do not
participate in Medicare (Title XVIII) must meet the utilization review plan
requirements in 42 CFR, Ch. IV, Part 456 (October 1, 2001). Utilization control
requirements for inpatient psychiatric hospital care in a psychiatric hospital, as
defined in 89 Ill. Adm. Code 149.50(c)(1) shall be in accordance with the federal
regulations.

h) Denial of Payment as a Result of Utilization Review

1) If the Department determines, as a result of utilization review, that a
hospital has misrepresented admissions, length of stay, discharges, or billing
information, or has taken an action that results in the unnecessary admission
or inappropriate discharge of a program participant, unnecessary multiple
admissions of a program participant, unnecessary transfer of a program
participant, or other inappropriate medical or other practices with respect to
program participants or billing for services furnished to program
participants, the Department may, as appropriate:

A) Deny payment (in whole or in part) with respect to inpatient
hospital services provided with respect to such an unnecessary
admission, inappropriate length of stay or discharge, subsequent
readmission, transfer of an individual or failure to comply with the
coordination of care requirements of Section 148.40.

B) Require the hospital to take action necessary to prevent or correct
the inappropriate practice.

2) When payment with respect to the discharge of an individual patient is
denied by the Department or its designated peer review organization, under
subsection (h)(1)(A) of this Section as a result of prepayment review, a
reconsideration will be provided within 30 days upon the request of a
hospital or physician if such request is the result of a medical necessity or
appropriateness of care denial determination and is received within 60 days
after receipt of the notice of denial. The date of the notice of denial is
counted as day one.

3) When payment with respect to the discharge of an individual patient is
denied by the Department or its designated peer review organization under
subsection (h)(1)(A) of this Section as a result of a preadmission or
concurrent review, the hospital or physician may request an expedited
reconsideration. The request for expedited reconsideration must include all
the information, including the medical record, needed for the Department or
its designated peer review organization to make its determination. A
determination on an expedited reconsideration request shall be completed
within one business day after the Department's or its designated peer review
organization's receipt of the request. Failure of the hospital or physician to
submit all needed information shall toll the time in which the
reconsideration shall be completed. The results of the expedited
reconsideration shall be communicated to the hospital by telephone within
one business day and in writing within three business days after the
determination.
4) A determination under subsection (h)(1) of this Section, if it is related to a pattern of inappropriate admissions, length of stay and billing practices that has the effect of circumventing the prospective payment system, may result in:

A) withholding Medicaid payment (in full or in part) to the hospital until the hospital provides adequate assurances of compliance; or

B) termination of the hospital's Provider Agreement.

i) Furnishing of Inpatient Hospital Services Directly or Under Other Arrangements

1) The applicable payments made under Sections 148.82, 148.120, 148.130, 148.150, 148.160, 148.170, 148.175 and 148.250 through 148.300 are payment in full for all inpatient hospital services other than for the services of nonhospital-based physicians to individual program participants and the services of certain hospital-based physicians as described in subsections (i)(1)(B)(i) through (i)(1)(B)(v) of this Section.

A) Hospital-based physicians who may not bill separately on a fee-for-service basis:

i) A physician whose salary is included in the hospital's cost report for direct patient care may not bill separately on a fee-for-service basis.

ii) A teaching physician who provides direct patient care may not bill separately on a fee-for-service basis if the salary paid to the teaching physician by the hospital or other institution includes a component for treatment services.

B) Hospital-based physicians who may bill separately on a fee-for-service basis:

i) A physician whose salary is not included in the hospital's cost report for direct patient care may bill separately on a fee-for-service basis.

ii) A teaching physician who provides direct patient care may bill separately on a fee-for-service basis if the salary paid to the teaching physician by the hospital or other institution does not include a component for treatment services.

iii) A resident may bill separately on a fee-for-service basis when, by the terms of his or her contract with the hospital, he or she is permitted to and does bill private patients and collect and retain the payments received for those services.

iv) A hospital-based specialist who is salaried, with the cost of his or her services included in the hospital reimbursement costs, may bill separately on a fee-for-service basis when, by the terms of his or her contract with the hospital, he or she may charge for professional services and do, in fact, bill
private patients and collect and retain the payments received.

v) A physician holding a nonteaching administrative or staff position in a hospital or medical school may bill separately on a fee-for-service basis to the extent that he or she maintains a private practice and bills private patients and collects and retains payments made.

2) Charges are to be submitted on a fee-for-service basis only when the physician seeking reimbursement has been personally involved in the services being provided. In the case of surgery, it means presence in the operating room, performing or supervising the major phases of the operation, with full and immediate responsibility for all actions performed as a part of the surgical treatment.

j) "Designated peer review organization" means an organization designated by the Department that is experienced in utilization review and quality assurance, which meets the guidelines in Section 1152 of the Social Security Act and 42 CFR 475 (October 1, 2001).

Section 148.250 Determination of Alternate Payment Rates to Certain Exempt Hospitals

The exempt hospitals, defined in 89 Ill. Adm. Code 149.50(c)(1), (c)(2), (c)(4) and (c)(7), shall be reimbursed for inpatient hospital care provided to recipients by summing the following reimbursement calculations:

a) allowable operating cost per diem;

b) capital costs reimbursed on a per diem basis;

c) applicable DSH adjustments as described in Section 148.120 and outlier adjustments as described in Section 148.130; and

d) applicable trauma center adjustments, as described in Section 148.290(c), and Medicaid high volume adjustments, as described in Section 148.290(d).

(Source: Amended at 19 Ill. Reg. 10060, effective June 29, 1995)
Section 148.260 Calculation and Definitions of Inpatient Per Diem Rates

a) Calculation for the first rate year period

1) Allowable operating cost per diem

A) The allowable operating cost per diem for a hospital, described in Section 148.250, and for hospitals or hospital units described in Section 148.270(a) and (b), shall be calculated by taking the hospital's Medicaid inpatient operating costs for the base period defined in Section 148.25(g)(1) divided by the hospital's Medicaid inpatient days.

B) Operating cost base per diem rates for hospital inpatient care provided to Medicaid recipients beginning September 1, 1991, shall be calculated by:

i) Calculating each individual hospital's cost per diem less capital and direct medical education costs for each of the two most recent years for which an audited Medicaid cost report exists, as described in subsection (a)(1)(A) above.

ii) Each of the two costs per diem shall be trended forward to the midpoint of the rate period using the national hospital market basket price proxies (DRI).

iii) These two trended operating costs per diem are then added together and divided by two.

iv) The average operating cost per diem calculated in subsection (a)(1)(B)(iii) above is then divided by the indirect medical education (IME) factor, determined by the Health Care Financing Administration (HCFA), in effect ninety days prior to the admission in order to calculate the hospitals final operating cost per diem for the base period. For other hospitals for which an indirect medical education factor is not available, the Department shall calculate an indirect medical education factor using the hospital's most recently
available cost report and the Medicare formula in effect 90 days prior to the date of admission.

2) Capital Related Costs. The capital related cost per diem for a hospital, described in Section 148.250, and for hospitals or hospital units, described in Section 148.270(a) and (b), shall be calculated by taking the hospital's total capital related costs for the base period as defined in Section 148.25(g)(1) divided by the hospital's total inpatient days, trended forward to the midpoint of the rate period using the national hospital market basket price proxies (DRI).

A) These two trended capital related costs per diems are then added together and divided by two to calculate the hospital's adjusted capital related cost per diem.

B) The adjusted capital related cost per diem, as calculated in subsection (a)(2)(A) above, shall be rank ordered for all hospitals and capped at the 80th percentile.

C) Each hospital shall receive a per diem add-on for capital related costs which shall be equal to the amount calculated in subsection (a)(2)(A) or subsection (a)(2)(B) above, whichever is less.

3) Direct Medical Education Costs. The direct medical education cost per diem for a hospital, described in Section 148.250, and for hospitals or hospital units, described in Section 148.270(a) and (b), shall be calculated by taking total inpatient direct medical education costs for the base period as defined in Section 148.25(g)(1) divided by the hospital's total inpatient days, trended forward to the midpoint of the rate period using the national hospital market basket price proxies (DRI).

A) The two trended direct medical education costs per diem are then added together and divided by two to calculate the hospital's adjusted direct medical education cost per diem.

B) The adjusted direct medical education cost per diem, as calculated in subsection (a)(3)(A) above, shall be rank ordered for all hospitals reporting such costs and capped at the 80th percentile.

C) Each hospital shall receive a per diem add-on for direct medical education costs which shall be equal to the amount calculated in subsection (a)(3)(A) or subsection (a)(3)(B) above, whichever is less.

b) Calculation for Subsequent Rate Periods

1) For the rate period described in Section 148.25(g)(2)(A), the final rate per diem shall be determined by taking the operating, capital and direct medical education trended rate costs per diems calculated under subsection (a) of this Section and updating those costs by the national hospital market basket price proxies (DRI) to the midpoint of the rate period described in Section 148.25(g)(2)(A).

2) For rate periods beginning on or after April 1, 1994, as described in Section
148.25(g)(2)(B), the final rate per diem shall be determined by:

A) Adding the operating and capital trended rate cost per diems calculated under subsection (a) of this Section that were in effect on June 30, 1993;

B) Updating the trended rate cost per diems described in subsection (b)(2)(A) above;

i) In the case of a hospital described in 89 Ill. Adm. Code 149.125(b), by the national hospital market basket price proxies (DRI) to the midpoint of the rate period described in Section 148.25(g)(2)(B); and

ii) In the case of a hospital described in 89 Ill. Adm. Code 149.50(c)(1), (c)(2), or (c)(4), or for a hospital unit described in 89 Ill. Adm. Code 149.50(d)(1) or (d)(2), to the midpoint of the current rate period described in Section 148.25(g)(2)(B) by utilizing the TEFRA price inflation factor.

c) Rebasing
For the rate period beginning after October 1, 1994, and every third rate period thereafter, the final rate per diem shall be calculated using the methodology set forth in subsection (a) of this Section for the calculation of operating and capital trended rate cost per diems using base period cost reports, as described in Section 148.25(g)(1).

(Source: Amended at 19 Ill. Reg. 10060, effective June 29, 1995)
Section 148.270  Determination of Alternate Cost Per Diem Rates For All Hospitals; Payment Rates for Certain Exempt Hospital Units; and Payment Rates for Certain Other Hospitals

a) Calculation of Alternate Cost Per Diem Rates for All Hospitals
For all hospitals, regardless of the hospital's reimbursement methodology, the Department shall first calculate the hospital's alternate cost per diem rate, as calculated under Section 148.260, derived from the provider's base period cost reports, as described in Section 148.25(g)(1).

b) Calculation of Payment Rates for Certain Exempt Hospital Units

1) For admissions occurring within the rate period described in Section 148.25(g)(2)(A):

A) In the case of a distinct part unit, as described in 89 Ill. Adm. Code 149.50(d), the Department shall divide the hospital's Medicaid charges per diem (identified on adjudicated claims submitted by the provider during the most recently completed fiscal year for which complete data are available) related to the distinct part unit by the hospital's total charge per diem for all claims for the same time period.

B) The resulting quotient, as calculated in subsection (b)(1)(A), shall be multiplied by the hospital's total operating cost per diem, as calculated in Section 148.260(a)(1)(B).

C) The capital related cost per diem, as calculated in Section 148.260(a)(2), is then added to the resulting product calculated in subsection (b)(1)(B), subject to the inflation adjustment described in Section 148.260(c)(1).

D) Subject to the provisions of subsections (b)(1)(E) and (b)(1)(F), the final distinct part unit payment rate shall be the lower of:

i) The result of the calculations described in subsections (b)(1)(A) through (b)(1)(B); or
ii) The hospital's alternate cost per diem rate, as calculated in subsection (a) of this Section.

E) In no case shall the hospital's final distinct part unit payment rate be greater than three standard deviations above the mean distinct part unit payment rate.

F) In the case of a new distinct part unit for which the Department has insufficient adjudicated claims history data available, the Department shall utilize the average payment rate calculated under this subsection (b)(1) for like distinct part units.

2) For admissions occurring within a rate period described in Section 148.25(g)(2)(B), the distinct part unit payment rate shall be the distinct part unit payment rate in effect on June 30, 1993, as calculated under subsection (b)(1), updated to the midpoint of the current rate period, using the TEFRA price inflation factor.

c) In the case of a new hospital (not previously owned or operated), a hospital that has significantly changed its case-mix profile (e.g., a general acute care hospital changing its case-mix to reflect a predominance of long term care patients), or an out-of-state non cost-reporting hospital, reimbursement for inpatient services shall be as follows:

1) For general acute-care hospitals, reimbursement for inpatient services:

A) provided by Illinois general acute care hospitals prior to July 1, 2007 shall be at the average payment rate calculated under subsection (a) or (b), as applicable, for those hospitals that would otherwise be reimbursed under 89 Ill. Adm. Code 149.

B) provided by Illinois general acute care hospitals on or after July 1, 2007 shall be reimbursed at either of the following:

i) utilizing the payment methodologies described in 89 Ill. Adm. Code 149 that will only reflect the federal/regional blended rate described in 89 Ill. Adm. Code 149.100 and a capital rate equal to one standard deviation above the mean capital rate, as determined in 89 Ill. Adm. Code 149.150(c), for all providers reimbursed under the same federal/regional blended rate; or

ii) at the average payment rate calculated under subsection (a) or (b), as applicable, for those hospitals that would otherwise be reimbursed under 89 Ill. Adm. Code 149.

C) provided by out of state general acute care hospitals shall be at the average payment rate calculated under subsection (a) or (b), as applicable, for those hospitals that would otherwise be reimbursed under 89 Ill. Adm. Code 149.

2) For psychiatric hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(1):
A) for services provided by a psychiatric hospital that began operation on or after January 1, 2008, that is devoted exclusively to the care of individuals who have not attained 19 years of age, reimbursement for inpatient psychiatric services shall be at the arithmetic mean of the rates defined in subsections (c)(2)(B) and (c)(5)(A) of this Section.

B) for all other psychiatric hospitals, reimbursement for inpatient psychiatric services shall be at the average rate calculated under Section 148.260 for those hospitals defined in 89 Ill. Adm. Code 149.50(c)(1).

3) For rehabilitation hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(2), reimbursement for inpatient rehabilitation services shall be at the average rate calculated under Section 148.260 for those hospitals defined in 89 Ill. Adm. Code 149.50(c)(2).

4) For long term stay hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(4), reimbursement for inpatient services shall be at the average rate calculated under Section 148.260 for those hospitals defined in 89 Ill. Adm. Code 149.50(c)(4).

5) For children's hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(3), reimbursement for inpatient services:

A) provided before August 1, 1998, shall be at the average rate calculated under subsection (a) for those hospitals defined in 89 Ill. Adm. Code 149.50(c)(3);

B) provided on or after August 1, 1998, for a children's hospital that was licensed as such by a municipality after June 30, 1995, shall be equal to the average rate calculated in Section 148.280 for children's hospitals in existence before June 30, 1995, with an average length of stay that was less than 14 days as determined from the hospital's fiscal year 1994 cost report.

Section 148.280  Reimbursement Methodologies for Children's Hospitals and Hospitals Reimbursed Under Special Arrangements

a)  Children's Hospitals

1)  Initial Rate Period

   A)  For purposes of reimbursement, all children's hospitals, as defined in 89 Ill. Adm. Code 149.50(c)(3), are grouped into one peer group.

   B)  Each hospital's costs for the base period shall be derived from audited cost reports (see 42 CFR 447.260 and 447.265 (1982)) for hospital fiscal years ending during calendar year 1989.

   C)  These base period costs shall be updated, trended forward from the midpoint of each hospital's base period to the midpoint of the rate period for which rates are being set, according to the methodology of the national total hospital market basket price proxies, (DRI).

   D)  The children's hospitals' base period trended rates shall be used as the basis for calculating the group's median trended rate. Each individual hospital's trended rate is then compared to the group's median trended rate. Hospitals whose individual trended rates are higher than the median rates shall receive as a final inpatient payment rate their trended rate minus half the difference between their trended rate and the group's median trended rate. Hospitals whose trended rates are lower than the group's median trended rate shall receive as final inpatient payment rate their individual trended rate plus half the difference between their trended rate and the group's median trended rate.

2)  Subsequent Rate Periods

   For the rate period beginning on October 1, 1992, as described in Section 148.25(g)(1)(A), and for subsequent rate periods, as described in Section 148.25(g)(1)(B), the initial rate, as calculated under subsection (a)(1) above, shall be updated from the midpoint of the base cost reporting period to the midpoint of the rate period using the national hospital market basket price proxies (DRI).
b) Hospitals Reimbursed Under Special Arrangements
Hospitals that, on August 31, 1991, had a contract with the Department under the ICARE Program, pursuant to Section 3-4 of the Illinois Health Finance Reform Act, may elect to continue to be reimbursed at rates stated in such contracts for general and specialty care for services provided on or after September 1, 1991, subject to the limitations described in Sections 148.40(e) through 148.40(g).

Section 148.285  Excellence in Academic Medicine Payments (Repealed)

(Source:  Repealed at 37 Ill. Reg. 10432, effective June 27, 2013)
Section 148.290 Adjustments and Reductions to Total Payments

a) Applicable Adjustments for DSH
The criteria and methodology for making applicable DSH adjustments to hospitals shall be in accordance with Section 148.120.

b) Outlier Adjustments
Outlier adjustments to payment amounts for medically necessary inpatient hospital services involving exceptionally high costs for certain individuals shall be made in accordance with Section 148.130 for hospitals that are exempt from the DRG PPS (see 89 Ill. Adm. Code 149).

c) County Trauma Center Adjustment (TCA). Illinois hospitals that, on the first day of July preceding the TCA rate period, are recognized as Level I or Level II trauma centers by the Illinois Department of Public Health, shall receive an adjustment that shall be calculated as follows:

1) The available funds from the Trauma Center Fund for each quarter shall be divided by each eligible hospital's (as defined in subsection (c)(4) of this Section) Medicaid trauma admissions in the same quarter of the TCA base period to determine the adjustment for the TCA rate period. The result of this calculation shall be the County TCA adjustment per Medicaid trauma admission for the applicable quarter.

2) The county trauma center adjustment payments shall not be treated as payments for hospital services under Title XIX of the Social Security Act for purposes of the calculation of the intergovernmental transfer provided for in Section 15-3(a) of the Public Aid Code.

3) The trauma center adjustments shall be paid to eligible hospitals on a quarterly basis.

4) Trauma Center Adjustment Limitations. Hospitals that qualify for trauma center adjustments under this subsection shall not be eligible for the total trauma center adjustment if, during the TCA rate period, the hospital is no longer recognized by the Illinois Department of Public Health, or the appropriate licensing agency, as a Level I or a Level II trauma center as required for the adjustment described in subsection (c) of this Section. In these instances, the adjustments calculated under this subsection shall be
pro-rated, as applicable, based upon the date that such recognition ceased.

5) Trauma Center Adjustment Definitions. The definitions of terms used with reference to calculation of the trauma center adjustments required by subsection (c) of this Section are as follows:

A) "Available funds" means funds which have been deposited into the Trauma Center Fund, which have been distributed to the Department by the State Treasurer, and which have been appropriated by the Illinois General Assembly.

B) "Medicaid trauma admission" means those claims billed as admissions, excluding admissions for normal newborns, which were subsequently adjudicated by the Department through the last day of June preceding the TCA rate period and contained within the Department's paid claims data base, with an ICD-9-CM principal diagnosis code of: 800.0 through 800.99, 801.0 through 801.99, 802.0 through 802.99, 803.0 through 803.99, 804.0 through 804.99, 805.0 through 805.98, 806.0 through 806.99, 807.0 through 807.69, 808.0 through 808.9, 809.0 through 809.1, 828.0 through 828.1, 839.0 through 839.3, 839.7 through 839.9, 850.0 through 850.9, 851.0 through 851.98, 852.0 through 854.19, 860.0 through 860.5, 861.0 through 861.32, 862.8, 863.0 through 863.99, 864.0 through 864.19, 865.0 through 865.19, 866.0 through 866.13, 867.0 through 867.9, 868.0 through 868.19, 869.0 through 869.1, 887.0 through 887.7, 895.0 through 895.9, 900.0 through 900.9, 902.0 through 904.9, 925, 926.8, 929.0 through 929.99, 958.4, 958.5, 990 through 994.99. For those hospitals recognized as Level I trauma centers solely for pediatric trauma cases, Medicaid trauma admissions are only calculated for the claims billed as admissions, excluding admissions for normal newborns, which were subsequently adjudicated by the Department through the last day of June preceding the TCA rate period and contained within the Department's paid claims data base, with ICD-9-CM diagnoses within the above ranges for children under 18 years of age.

C) "TCA base period" means State Fiscal Year 1991, for TCA payments calculated for the October 1, 1992 TCA rate period, State Fiscal Year 1992 for TCA payments calculated for the October 1, 1993, TCA rate period, etc.

Section 148.610 Scope of the Program

a) General Description
The Illinois Department of Public Aid's State Chronic Renal Disease Program assists patients with End Stage Renal Disease who have not qualified for benefits under Medical Assistance or KidCare. The Program assists eligible patients suffering from chronic renal diseases who require lifesaving care and treatment for such renal diseases, but who are unable to pay for the necessary services on a continuing basis. The Program is supplementary to all other resources, including Medicare, private insurance and private income. Services under the State Chronic renal Disease Program are not available as emergency medical services to ineligible non-citizens.

b) Role of the Renal Disease Advisory Committee

1) The Committee shall act in an advisory capacity to the Department in the development of standards for determining eligibility for care and treatment. Such standards shall provide that Program candidates are evaluated in properly staffed and equipped facilities.

2) The Committee shall make recommendations to the Department on financial assistance for patients, including reasonable charges and fees for:

   A) Treatment in a dialysis facility.
   B) Hospital treatment for dialysis and transplant surgery;
   C) Treatment in a limited care facility;
   D) Home dialysis training; and
   E) Home dialysis.

(Source: Added at 26 Ill. Reg. 4825, effective March 15, 2002)
Section 148.620  Assistance Level and Reimbursement

a) Only approved dialysis facilities that are enrolled with the Department shall be reimbursed for dialysis treatments received by eligible patients.

b) The Department shall reimburse dialysis facilities for a portion of the costs of dialysis treatments provided to eligible patients. The Department will determine annually the rate of reimbursement to be used for the fiscal year, based on Medicare's Composite Payment Rates.

c) Assistance for chronic outpatient dialysis patients who are Medicare eligible, but who also qualify for the Program for both in-facility dialysis and home dialysis, will not exceed 15 percent of the Medicare rate.

d) New patients who qualify for chronic outpatient dialysis assistance during the waiting period for Medicare eligibility (60 to 90 days from the date of first dialysis) will be assisted at a maximum of 95 percent or less of the rate established under subsection (b) of this Section.

e) Patients who will never be eligible or qualify for Medicare will be assisted at a maximum of 95 percent or a minimum of 80 percent of the rate established under subsection (b).

Section 148.800  General Provisions

This Subpart F is promulgated to establish an emergency psychiatric demonstration project (hereinafter referred to as the Program) to serve adults 21 through 64 years of age with specified mental illnesses. The State of Illinois was selected by the federal Centers for Medicare and Medicaid Services (CMMS) to establish the Program pursuant to the provisions of section 2707 of the federal Patient Protection and Affordable Care Act (PL 111-148) and subject to the terms of federal demonstration. The program, entitled Community Connect, shall be in effect from December 1, 2012 through June 30, 2015 or for the duration of federal funding should it end earlier. During that time period, participating non-governmental Community Connect IMD hospitals may receive Medicaid payment for providing EMTALA (Emergency Medical Treatment and Active Labor Act) related emergency services to Medicaid recipients 21 through 64 years of age who have expressed suicidal or homicidal thoughts or gestures or who are determined to be dangerous to themselves or others. The Program will promote an integrated approach to evidence-based community resources and emergency room and inpatient hospital care. The Program goals are to improve access to quality inpatient care, reduce unnecessary admissions and readmissions, reduce psychiatric boarding, and enhance coordination of services with community mental health centers. The Department will assess the results of the Program during and at the end of the demonstration. The assessment will be the basis to guide changes for the larger adult population with mental illness, such as potential restructuring of mental health targeted case management; potential adult screening of persons with mental illness presenting for psychiatric hospitalization; potential payment and incentive policies; and potential broad implementation of improved interventions by the hospital and community.

(Source:  Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.810 Definitions

For the purposes of this Part, the following terms shall be defined as follows:

"Community Connect Targeted Case Management Agency" or "Community Connect TCM Agency" means the community mental health center that will act as the crisis team, determination of appropriate level of care agent, linkage agent and care coordination entity for participants in the Emergency Psychiatric Demonstration Program.

"Department" means the Illinois Department of Healthcare and Family Services.

"Emergency Psychiatric Demonstration Program" or "Program" means the program under which psychiatric hospitals, general hospitals, and community mental health providers will work to develop new service models to increase the overall quality of service delivery to participants with a psychiatric emergency medical condition.

"EMTALA" means the federal Emergency Medical Treatment and Active Labor Act (42 USC 1395dd) that requires any hospital that accepts payments from Medicare to provide care to any patient who arrives in its emergency department for treatment, regardless of the patient's citizenship, legal status in the United States or ability to pay for the services. EMTALA applies to ambulance and hospital care.

"IMD" means an institution for mental disease and is defined as a hospital, nursing facility, or other institution of 17 or more beds that is primarily engaged in providing diagnosis, treatment or care of persons with mental diseases, including medical attention, nursing care and related services. As used in this Subpart, IMD refers to a hospital.

"IMR" means Illness Management and Recovery and is an evidence-based psychiatric rehabilitation practice. The primary aim of the IMR is to empower consumers to manage their illnesses, find their own goals for recovery, and make informed decisions about their treatment through the necessary knowledge and skills.

"Psychiatric Emergency Medical Condition" means a condition in which an individual is expressing suicidal or homicidal thoughts or gestures or is dangerous to self or others.
Section 148.820  Individual Eligibility for the Program

a) For the purposes of this Subpart, only Medicaid eligible individuals 21 through 64 years of age, with a serious mental illness, who present at a participating or partnering hospital with suicidal or homicidal thoughts or gestures, or who are a danger to self or others, will be eligible to participate. Individuals enrolled in a care coordination program [305 ILCS 5/5-30], as well as those individuals who have Medicare coverage, are excluded from participation.

b) Participation shall also be limited to the maximum number of IMD admissions funded by CMMS and the number of deflections to community services before reaching the maximum IMD number funded as provided in the supplemental provider agreement.

(Source: Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.830  Providers Participating in the Program

a)  Hospitals that may participate in the Program are limited to those included in the funded demonstration application. A hospital participating in the Program will be designated a Community Connect IMD hospital.

b)  In order to participate in the Program, the Community Connect IMD hospital must comply with all of the Department rules, policies and licensure requirements and, additionally, must meet each of the following criteria:

1)  Establish a Network Guidance Group consisting of a representative from each of the following: Illinois Department of Healthcare and Family Services; Illinois Department of Human Services-Division of Mental Health; the Community Connect IMD hospital; the Community Connect TCM agency; and representatives from participating emergency departments, local law enforcement, consumers, and other individuals as determined by the Community Connect IMD hospital. The Network Guidance Group shall meet at least quarterly to review the Program operations.

2)  Accept Community Connect eligible participants on a priority basis.

3)  Include the Community Connect TCM agency in staffing and discharge planning.

4)  Not discharge Community Connect participants unless a discharge plan ensures the patient has a place to go and appropriate services will be implemented.

5)  Establish a collaborative working relationship with a dedicated community mental health center to function as the Community Connect TCM agency.

6)  Contact the Community Connect TCM agency to perform a level of care assessment prior to admission.

7)  Update the collaborating Community Connect TCM agency on bed census every day.

8)  Enter into a supplemental provider agreement with the Department.
c) In selecting hospitals for the Program, the Department may consider other factors beyond the criteria in subsection (b), including, but not limited to, the facility's history of compliance with all applicable State and federal standards.

d) Each Community Connect IMD hospital will partner with a general acute care hospital. The general acute care hospital will identify individuals who present in a psychiatric emergency medical condition. The number of individuals to be admitted to a Community Connect IMD hospital under the Program will be the number in the supplemental provider agreement. The maximum number allowed for all Community Connect IMD hospitals shall not exceed the number of individuals funded by CMMS for the Program.

e) A Community Connect TCM agency shall be chosen for each Community Connect IMD hospital. A Community Connect TCM agency will be chosen from the pool of qualified community mental health centers in the vicinity of the Community Connect IMD hospital and required to enter into supplemental provider agreements with the Department. The agencies are responsible for providing crisis intervention services for Medicaid eligible individuals presenting at a participating Community Connect IMD hospital or partner hospital. Crisis intervention shall include determination of appropriate level of care and potential stabilization of the individual. For those individuals who are determined to be appropriate for community stabilization, the Community Connect TCM agency shall be responsible for ensuring that the participant has priority access to community services within 24 hours after stabilization. For those participants found to be appropriate for inpatient treatment and admitted to the Community Connect IMD hospital, the Community Connect TCM agency is responsible for a seamless transition for the individual from the Community Connect IMD hospital IMR treatment setting to the community mental health center IMR treatment setting. Prior to discharge, at the point of discharge, and for up to 60 days following the level of care assessment, the Community Connect TCM agency shall act as the linkage agent, assisting the individual to connect to all available needed resources.

f) Certified community mental health center providers who have agreed to provisions of the Program, as defined in a linkage agreement with the Community Connect TCM agency, will be a choice for community-based treatment to the individual after inpatient discharge, or after the individual is deflected from the emergency department to community services.

(Source: Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.840  Stabilization and Discharge Practices

The admitting hospital must establish a stabilization plan for the individual within 48 hours after admission. To ensure continuity of treatment services, a participating Community Connect IMD hospital will not discharge an individual unless the discharge plan ensures the individual has a place to go and appropriate services will be implemented.

(Source: Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.850  Medication Management

On the day of discharge from an inpatient admission, the Community Connect TCM agency will ensure the individual accesses a 30-day supply of medically necessary medication to ensure continuity of this aspect of treatment and medication adherence.

(Source:  Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.860  Community Connect IMD Hospital Payment

a)  The Community Connect IMD hospital in the demonstration program will be reimbursed on an incentive-driven basis. The Department will reimburse the initial claim for the psychiatric admission at 80% of the psychiatric hospital rate. The remainder of the full 100% of the psychiatric hospital rate will be paid if the individual remains stable in the community with no further psychiatric hospitalization for 45 days after the level of care assessment.

b)  Payment for any individual who cannot be discharged because the individual does not have a place to go and appropriate services cannot be implemented, but who is not an inpatient based on medical necessity, will be 50% of the alternate cost per diem rate as described in Section 148.270 and 89 Ill. Adm. Code 152.200.

(Source: Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.870 Community Connect TCM Agency Payment

a) The Community Connect TCM agency monthly reimbursement rate for each individual will be established in the supplemental provider agreement.

b) The Community Connect TCM agency will be reimbursed on an incentive driven basis for each individual each month. The Department will reimburse the initial claim at 80% of the individual per month rate. The remainder of the full 100% of the individual per month rate will be paid if the individual deflected to community services or hospitalized at the Community Connect IMD remains stable in the community without further psychiatric hospitalization for 45 days after the level of care assessment.

(Source: Added at 37 Ill. Reg. 402, effective December 27, 2012)
Section 148.880 Program Reporting

Each Community Connect IMD and each Community Connect TCM agency will submit periodic reports to the Department in the form and format specified by the Department.

The scale values shown here are percentages to be applied to the total cost of a budget (excluding State and local income taxes, and disability payments) for the base family (4 persons-husband, age 35-54, wife, 2 children, oldest child 6-15 years) to estimate the total income required to provide the same level of living for urban families of different size, age, and composition. In addition to the cost of goods and services for family consumption, the total budget costs include gifts and contributions, life insurance, occupational expenses, employee contribution for social security, and federal income taxes. Estimates of personal taxes paid to State and local governments and of payments for disability insurance may be added in those urban areas where applicable.
