Changing a Primary Care Provider (PCP) with your health plan

Once you are in a health plan, you can change your PCP at any time. To change your PCP, call your health plan's member services number on your member ID card. You should always call your PCP first if you are sick or need health services.

About HealthChoice Illinois health plans

All HealthChoice Illinois health plans cover the same list of healthcare services. Your health plan offers education and help from their staff. You will continue to work with your health plan to get healthcare services. You may have a Care Coordinator to help make doctor's appointments, find transportation, get prior approvals for healthcare, prescriptions or medical equipment, and arrange for other social services. If you do not have a care coordinator, you can request one. Call the member services number on your ID card.

If you have any questions, call the CountyCare member services line at 312-864-8200.
