Technical Guidelines for Paper Claim Preparation
Form HFS 1443, Provider Invoice

Please follow these guidelines in the preparation of paper claims for imaging processing to assure the most efficient processing by the Department:

- Use original Department issued claim form. The Department will not accept downloaded, created, reproduced or faxed claim forms.
- Claims that are illegible will be returned to the provider.
- Claims with extreme print qualities, either light or dark, will not image.
- Use only one font style on a claim. Do not use bold print, italics, script, or any font that has connecting characters.
- Do not use punctuation marks, slashes, dashes or any special characters anywhere on the claim form.
- Claims should be typed or computer printed in capital letters. The character pitch must be 10-12 printed characters per inch. Handwritten entries should be avoided, as they must be hand keyed which delays processing.
- All entries must be within the specified boxes. Do not write outside the fields.
- Red ink does not image. Use black or dark blue ink for entries on the billing form, attachments and provider signature. Stamped signatures are not acceptable.
- If corrections need to be made, reprinting the claim is preferred. Correction fluid or tape should be used sparingly.
- Remove the pin-feed strips on claims at the perforations only. Do not cut the strips, as it may alter the document size.
- Attachments containing a black border, as a result of photocopying with the copier cover open, cannot be imaged. Attachments must have a minimum one-half inch white border at the top and on the sides to ensure proper imaging of the document.
- For attachments containing gray areas, either as part of the original or as a result of photocopying a colored background, print in the gray area is likely to be unreadable. If information in this area is important, the document should be recopied to eliminate the graying effect as much as possible without making the print too light.
- Attachments should be paper-clipped or rubber-banded to claims. Do not fold claims or fasten attachment with staples.

Instructions for completion of this invoice follow in the order entries appear on the form. Mailing instructions follow the claim preparation instructions. A sample of the HFS 1443 may be found on the Department's website.

Explanation of Information On Provider Information Sheet

The information contained on the Provider Information Sheet is the same as in the Department's files. Each time the provider receives a Provider Information Sheet, it is to be reviewed carefully for accuracy. The Provider Information Sheet contains information to be used by the provider in the preparation of claims; any inaccuracies found must be corrected and the Department notified immediately via IMPACT.

Failure of a provider to properly update the IMPACT with corrections or changes may cause an interruption in participation and payments.

The following information will appear on the Provider Information Sheet. A sample of a Provider Information Sheet appears in Appendix J-4a.
