You will receive an IllinoisJobLink.com email with a password reset link. The **“Password Reset”** page displays after you click the link. Return to Step 6 above and follow the process to reset your password and log in to IllinoisJobLink.com.

If you are unable to reset your password by security question or email, please contact the IllinoisJobLink.com Help Desk at 877.342.7533. For security reasons, we are unable to send reset codes by email.

## TROUBLESHOOTING

Issue	Solution
I reset my password, but I'm still locked out.	If you were locked out for too many incorrect password attempts, you must wait 15 minutes before attempting to login with your newly reset password. If you have waited 15 minutes and are still unable to log in contact the IJL Help Desk at 877-342-7533.
Why won't my security answer work?	Most security questions that ask for your date of birth must be answered in one of these formats: <b>MM-DD-YYYY</b> or <b>MM/DD/YYYY</b> . Security Answers are case and format sensitive (i.e. enter the answer <b>EXACTLY</b> as when you created it).
Why do I receive a different security question with each attempt?	If you are getting different security questions asked, or if you do not recognize your security question, make certain you are entering your correct IllinoisJobLink.com username in the "Forgot Password" box. If you are still unable to answer your question correctly contact the IJL Help Desk at 877-342-7533.
When confirming by email, my email address is different than the one shown.	Reset your password using the security question option. After successfully resetting your password, in the left-hand menu, go to "My Profile" and update your contact information with your current email address.
How can I get a password reset code?	For security reasons, we are unable to send reset codes by email. Contact the IJL Help Desk at 877-342-7533.
