¹ Recidivism rate indicates the percentage of inmates who return to IDOC within three years after release. The data represent those inmates released from IDOC in FY2012, FY2013, and FY2014.

² Sentencing County: County from which inmate was convicted and sentenced, and where court documents were obtained. It will not always be the county in which the crime occurred. Collar Counties (5): DuPage, Kane, Lake, McHenry and Will.

Downstate Counties (96): Illinois counties other than Cook County and collar counties.

³ Admission to IDOC during each calendar year (Jan 1 - Dec 31).

⁴ Court admission is defined as an adult admitted from criminal court who is not on MSR or parole.

⁵ A new offense violation is defined as an adult readmitted from criminal court for a felony committed while on MSR or parole.

⁶ A technical violation is defined as an adult on MSR or parole readmitted because of an MSR or parole rule violation.

⁷ Other is defined as an adult who is admitted to IDOC from another custody or who has been returned to custody without having been sentenced.

⁸ Sex offenders are defined as inmates having registered as a sex offender and murderer against youth or as having a sex offense on the sentencing order, excluding prostitution.

* End of CY population is the population on the last day of the Calendar Year, December 31st.

** In December, 2015 IDOC initiated a major IT transition, moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional measures will contain missing values due to a combination of factors, which include quality control issues with data entry and missing data for fields that are no longer required within the system. In addition, basic coding and program logic is still being reviewed and corrected. Moving forward, the Department continues to validate certain data measures and all elements are subject to change as more information becomes available. Contact the Planning & Research Unit with any questions.
