Note:

Uncelled refers to when an inmate has been brought into a facility, but not assigned to a cell when the Offender 360 Housing Report was run.

Data entry delay may cause some discrepancy with other counts.

In December 2015 IDOC initiated a major IT transition moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional population counts and other measures were not collected or needed validation. Therefore, the OERHP105 Resident Housing Report from December 2015 to current is still under the validation process; data counts are estimates and subject to change. Contact the Planning & Research Unit with any questions.

This population forecast reflects the Department's efforts to improve the method for projecting prison population utilizing a simulation tool that includes past experience and policy changes. Conceptually, the model is designed around the movement of individuals through the prison system. The data reflect Fiscal Year 2016 experience. The underlying assumptions are:

1. Admissions are trending down but slowing in recent years
2. IDOC implementation of risk assessments to identify needs and target programs to reduce recidivism
3. High potential for legislative changes designed to shorten length of stay for certain offenses
4. Initial truth-in-sentencing offenders will begin to be released
