WebEOC Intro & SEOC Boards Prove-In

SEOC Liaisons
March 17, 2011
What is WebEOC?

- A web-based information management software
  - Collaborate
  - Real-Time
  - Crisis
  - Day-to-day
Logging into WebEOC

https://webeoc.iema.state.il.us/eoc7

In order to assist the people of Illinois to be better prepared in case of weather hazards, the Illinois Emergency Management Agency, works together with the National American Red Cross to promote weather preparedness through public service announcements, weather preparedness guides, and public service announcements. For information on severe weather, click here.

A $38,000 grant from the U.S. Environmental Protection Agency will enable the Illinois Emergency Management Agency to expand the community outreach program that already provides training and disaster planning resources for emergency managers and other public officials. The grant will support the development and implementation of a series of programs and activities designed to improve the preparedness of Illinois communities for natural disasters, including floods and severe weather events.

The Illinois Emergency Management Agency (IEMA) is a state agency responsible for coordinating and managing all aspects of emergency management in Illinois. IEMA is committed to protecting the health and safety of all Illinois residents, as well as preserving and protecting the environment. IEMA provides a wide range of services, including emergency management, planning, training, and coordination of response efforts during times of disaster. IEMA works closely with local, state, and federal partners to ensure an effective response to any emergency situation.

Viewing a Log Entry

- Click the *Title* of an entry
- Hyperlink to form
- **List** window changes to **Form** window
Only from the Position Log ~ same Originator
As same User to change original data
Update Form

Same Originator (Position)
- Edit same fields as New Form
- Add new Details (can’t change original)
- Add Audience or remove Audience*
- Can Delete

Same Originated By (User name)
- Same as above
- Can edit original Details and add to same field

* Daily Intel cannot be removed – have to delete form
Deleting a Form

- Only when in *Update Form* mode
- Only if *Originator* (Position)
- Deletes from ALL VIEWS
- Only way to remove from Daily Intel
