Illinois Liquor Control Commission
COVID-19 Related Action Beverage Alcohol Sellers and Servers Education and Training (BASSET)
Video Conferencing for BASSET Training
May 27, 2020

Since many of the Beverage Alcohol Sellers and Servers Education and Training (BASSET) classroom training has been postponed due to the COVID – 19 pandemics, the Illinois Liquor Control Commission (ILCC) would like to allow licensed BASSET trainers to use a web/video conferencing platform in lieu of in-person classroom training.

The following guidelines must be met to conduct remote BASSET training sessions:
1. The training sessions are to be conducted **LIVE** by a licensed BASSET trainer. No recordings.
2. Provide the PowerPoint and other classroom information embedded in the video conferencing format.
3. When proctoring the exam for a remote BASSET class, the user must have a camera on so the licensed trainer can monitor, which means all students must be on video to participate.
4. The participant will have a limited amount of time to complete the exam following the session, students must share video if they want to participate in a remote training session.
5. All interaction/discussion is done via the videoconferencing session
6. Limit the number of students to no more than 20.

Any violation of the guidelines will result in a 60 days suspension of a BASSET license.
