

Schedule F IL-1040 Instructions

What is the purpose of Schedule F?

The purpose of this schedule is to determine, for certain property acquired before August 1, 1969, the amount of appreciation that is attributable to the period between the date you acquired the property and August 1, 1969. Illinois does not tax the gain resulting from appreciation that accrued before that date, which is the effective date of the Illinois Income Tax Act. The amount of appreciation that accrued before August 1, 1969, is often called the “valuation limitation amount” or the “pre-August 1, 1969, appreciation amount.”

Who should file?

You should file Schedule F only if

- you reported a capital gain from property that you acquired before August 1, 1969, and you have a net capital gain on U.S. 1040, Schedule D, Capital Gains and Losses; or
- you reported a gain on U.S. Form 4797, Sales of Business Property, from Section 1231, 1245, and 1250 property acquired before August 1, 1969; or
- you reported a gain on U.S. Form 6252, Installment Sale Income, from an installment sale on property acquired before August 1, 1969.

Do not file Schedule F for any transaction that resulted in a loss. For exceptions, see “What if I Had Gains or Losses from Casualty or Theft?”.

Should I attach copies of other forms?

If gain subject to the valuation limitation was reported on any of the following forms or schedules, you must attach copies of them to your Schedule F: U.S. 1040, Schedule D, Capital Gains and Losses; U.S. Form 4797, Sales of Business Property; U.S. Form 6252, Installment Sale Income; Illinois Schedule K-1-P, Partner’s or Shareholder’s Share of Income, Deductions, Credits, and Recapture; and Illinois Schedule K-1-T, Beneficiary’s Share of Income and Deductions.

Note For installment sales, see instructions on the back of Schedule F.

Step 2 – August 1, 1969, Valuation Limitation Amounts for Capital (Non-depreciable) Assets Line 1

Column A – Write a description of the property or full name of security as shown on your U.S. 1040, Schedule D or U.S. Form 6252.

Column B – Write the month and year you acquired the property. For securities you acquired through the exercise of rights, warrants, or options, write the date exercised.

Column C – Write the month and year you disposed of the property.

Column D – Write the total gain in the taxable year for each property as shown on U.S. 1040, Schedule D or U.S. Form 6252.

Note If you reported gain on the sale of your home on U.S. Form 8949, write in Column D the amount of that gain minus any “Section 121 exclusion” you reported for your home on U.S. Form 8949.

Column E – Write the fair market value on August 1, 1969, or the “applicable fraction” for each property. Your entry for each property will depend upon whether the property was a listed security on August 1, 1969, or, if it was not listed, whether you have an appraisal of its fair market value as of August 1, 1969. See below.

How do I determine the fair market value of my property?

- **Listed Securities:** If the gain was from a security listed on a national securities exchange or quoted in the over-the-counter market between July 28 and 31, 1969, determine the market value of the property on August 1, 1969, as follows:

If the security was traded between July 28 and 31, 1969, use the price of the last sale during the period to value the security. If the

security was not traded during the period, use the average of the bid and ask quotations on July 31, 1969, to value the security.

If, through a tax-free exchange, you traded a listed security that you held on August 1, 1969, for an unlisted security and in the taxable year you sold the unlisted security, you must use the listed value on August 1, 1969, as the fair market value.

However if, through a tax-free exchange, you traded an unlisted security that you held on August 1, 1969, for a listed security and in the taxable year you sold the listed security, you must use a bona fide appraisal, if you have one, to compute the August 1, 1969, fair market value. In the absence of an appraisal, you must use the “number-of-months” method.

- **Other Properties: Fair Market Value Readily Ascertainable by Appraisal** – If the gain was not from a security traded or quoted between July 28 and 31, 1969, write the fair market value of the property on August 1, 1969, only if the fair market value was readily ascertainable on that date. Attach a bona fide, independent written appraisal as of August 1, 1969, made by a competent appraiser of recognized standing and ability to support the readily ascertainable fair market value. Book value is not generally acceptable as evidence of the August 1, 1969, fair market value.
- **Other Properties: Fair Market Value Not Readily Ascertainable: The Number-of-Months Method** – If the fair market value of the property was not readily ascertainable on August 1, 1969, write a fraction (also called “applicable fraction”) whose numerator is the number of full calendar months you held the property before August 1, 1969, and whose denominator is the total number of full calendar months you held the property. Do not include in the numerator or denominator the month that you acquired or disposed of the property. If the property was acquired in July, 1969, write zero in Columns E and G.

Column F – If you wrote the fair market value of the property in Column E, write in Column F the federal income tax basis of the property as of August 1, 1969. Federal income tax basis is the amount you would have written as “cost or other basis” on U.S. 1040, Schedule D, or U.S. Form 6252 if you had sold the property on August 1, 1969.

If you wrote a fraction in Column E, leave Column F blank.

Column G – If you wrote the fair market value of the property in Column E, subtract Column F from Column E and write the difference. However, if Column F is equal to or greater than Column E, write zero. If you wrote a fraction in Column E, multiply Column D by the fraction and write the result.

Column H – Write the lesser of Column D or Column G.

Line 2

- partnerships or S corporations as reported on Schedules K-1-P, Partner’s or Shareholder’s Share of Income, Deductions, Credits, and Recapture, Step 6, Line 51.

Include the amount of your share of these amounts.

Note If you received a lump-sum distribution from a qualified employee benefit plan and a portion of that distribution was reported as capital gain on your U.S. 1040, Schedule D, you must include the amount of the capital gain on this line. However, you may claim the subtraction for this capital gain on your Form IL-1040, Line 5, not on Schedule F. See Form IL-1040 instructions.
