ST-587 Equipment Exemption Certificate Instructions

General Information

When is an Equipment Exemption Certificate required?

Generally, an Equipment Exemption Certificate is required for proof that no tax is due on any sale that is made tax-free as a sale of equipment to be used primarily in manufacturing or assembling of tangible personal property, production agriculture, or coal and aggregate mining. The purchaser, at the seller's request, must provide the information that is needed to complete this certificate.

Who keeps the Equipment Exemption Certificate?

The seller must keep the certificate. We may request it as proof that no tax was due on the sale of the specified equipment.

Do not mail the certificate to us.

Can other forms be used?

Yes. You can use other forms or statements in place of this certificate but whatever you use as proof that an exempt sale of equipment was made must contain

- the seller's name and address;
- the purchaser's name and address;
- a description of the property being purchased;
- a statement that the property is being purchased for use primarily in (1) manufacturing or assembling of tangible personal property, (2) production agriculture, (3) coal and aggregate mining; and
- the purchaser's signature and date of signing.

Note: A purchase order signed by the purchaser may be used as an Equipment Exemption Certificate if it contains all of the previously stated required information.

When is a blanket Equipment Exemption Certificate used?

The purchaser may provide a blanket Equipment Exemption Certificate to any seller from whom all purchases made are for equipment to be used primarily in production agriculture or coal and aggregate mining. A blanket certificate can also specify that a percentage of the purchases made from the identified seller will be exempt. In either instance, blanket certificates should be kept up-to-date. If a specified percentage changes, a new certificate should be provided. Otherwise, all certificates should be updated at least every three years.

Note: Blanket certificates may **not** be used for purchases of equipment to be used primarily in manufacturing or assembling tangible personal property.
