NAME/ADDRESS

Re: Corporate Income Tax Questionnaire

Dear NAME:

This letter is in response to your email dated June 13, 2022, in which you requested information. Department of Revenue (“Department”) regulations require that the Department issue only two types of letter rulings, Private Letter Rulings (“PLRs”) and General Information Letters (“GILs”). PLRs are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding against the Department, but only as to the taxpayer issued the ruling and only to the extent the facts recited in the PLR are correct and complete. The purpose of GILs is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. GILs do not constitute statements of Department policy that apply, interpret, or prescribe the tax laws, and are not binding on the Department. See 2 Ill. Adm. Code Part 1200 for more information. You may access our website at www.tax.illinois.gov to review regulations, letter rulings, and other types of information relevant to your inquiry. The nature of your inquiry and the information you have provided require that we respond with a GIL.

In your email you have stated and made inquiry as follows:

Each year, the COMPANY1, in conjunction with COMPANY2, collects and disseminates information regarding the tax laws of each state. The results of the annual survey are published in the PRODUCT, which has been one of the premier state tax reference books for 40 years.

Your assistance in the preparation of the 2023 edition is essential. Please complete the attached corporate income tax and sales tax questionnaires by August 8, 2022, and email them to ADDRESS. If your responses to last year’s questionnaire would be helpful, please let us know and we will send you a copy.

All new questions are highlighted in red font. Due to time constraints, please respond only to the new questions and to the prior year questions that require a change. All unanswered questions will be considered to have the same response as last year, unless otherwise noted.

Please acknowledge the receipt of this email and also send us your responses to the following questions:

[44] Cryptocurrency. Convertible virtual currency can be used as a medium of exchange or as a form of digitally stored value. One form of virtual currency is cryptocurrency (e.g., Bitcoin). Taxpayers may use cryptocurrency to pay for goods or services, or hold it for investment purposes. For federal income tax purposes, cryptocurrency is treated as property. [IRS Notice 2014-21 and Rev. Rul. 2019-24] Consequently, if a taxpayer acquires cryptocurrency through a purchase, the taxpayer takes a basis in the cryptocurrency equal to its cost. If the cryptocurrency is sold, the taxpayer recognizes a gain or loss equal to the difference between the amount realized and the basis in the cryptocurrency. A taxpayer who receives cryptocurrency as payment for services must include the fair market value of the cryptocurrency in gross income. If an employee is paid with cryptocurrency, the gross income is reported on Form W-2 and is subject to income tax withholding and payroll taxes. Likewise, if an independent contractor is paid with cryptocurrency, the gross income is reported on Form 1099-MISC and is subject to self-employment taxes.
