

A medical appliance is defined as an item that is intended by its manufacturer for use in directly substituting for a malfunctioning part of the body. See 86 Ill. Adm. Code 130.310(c). (This is a GIL).

January 26, 2009

Dear Xxxxx:

This letter is in response to your letter received by our office January 23, 2009, in which you request information. The Department issues two types of letter rulings. Private Letter Rulings ("PLRs") are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding on the Department, but only as to the taxpayer who is the subject of the request for ruling and only to the extent the facts recited in the PLR are correct and complete. Persons seeking PLRs must comply with the procedures for PLRs found in the Department's regulations at 2 Ill. Adm. Code 1200.110. The purpose of a General Information Letter ("GIL") is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. A GIL is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120. You may access our website at [www.tax.illinois.gov](http://www.tax.illinois.gov) to review regulations, letter rulings and other types of information relevant to your inquiry.

The nature of your inquiry and the information you have provided require that we respond with a GIL. In your letter you have stated and made inquiry as follows:

I work for ABC in CITY, Illinois. ABC has been in business since DATE. We manufacture air purifiers designed for people with multiple chemical sensitivities, allergies, and asthma for use in home, office, schools and even automobiles & RVs! Our air purifiers (which are considered medical devices) are proven to help a person who has been physically or mentally impaired, substantially limiting one or more of their major life activities. Our customers may be considered disabled as per ADA 1990 federal law. See definition. We are confident that all of our customers are very satisfied with the products that we offer, and that is why ABC wants to help out Illinois customers when they buy from us. We would like to request a tax exemption or lower tax rate for Illinois residents who order our air purifiers (medical devices) and replacement filters and media trays.

We have provided you with some basic information, educational information, and test results on our air purifiers, (medical devices) and physician letters and testimonials.

If you have any questions, please contact our customer service. Again, thank you for taking time to look over our request.

**DEPARTMENT'S RESPONSE:**

For useful information regarding the taxation of food, drugs, medicines and medical appliances, we refer you to the Department's regulation at 86 Ill. Adm. Code 130.310. Those products that qualify as medicines, drugs, or medical appliances are taxed at the reduced tax rate of 1% plus applicable local taxes. Those that do not qualify for the low rate are taxed at the State rate of 6.25%, plus applicable local taxes.

The definition of a medical appliance is "an item which is intended by its manufacturer for use in directly substituting for a malfunctioning part of the body." Please note that 86 Ill. Adm. Code 130.310(c)(2) provides that medical appliances may be prescribed by licensed health care professionals for use by a patient, purchased by health care professionals for the use of patients, or purchased directly by individuals. In addition, not all items prescribed by physicians or other licensed health care professionals qualify for the low rate. A medicine or drug is defined at Section 130.310(c)(1) as "any pill, powder, potion, salves, or other preparation intended by the manufacturer for human use and which purports on the label to have medicinal qualities."

Examples of items that qualify for the reduced rate are corrective medical appliances such as hearing aids, eyeglasses and contact lenses. As a general proposition, diagnostic, treatment, and rehabilitative equipment items do not qualify for the reduced rate of tax as medical appliances because such items are not "for use in directly substituting for a malfunctioning part of the body," 86 Ill. Adm. Code 130.310(c)(2).

I hope this information is helpful. If you require additional information, please visit our website at [www.tax.illinois.gov](http://www.tax.illinois.gov) or contact the Department's Taxpayer Information Division at (217) 782-3336.

Very truly yours,

Debra M. Boggess  
Associate Counsel
